

would constitute the volunteer corps, and it would perhaps lead to inconvenience. It is a necessary office, though perhaps not a popular one, and yet if we cannot carry our laws into execution we would relapse into a deplorable state of society. We have been reproached with bringing troops here to carry the laws into effect, and we have been asked why we did not resort to the constabulary force, but the answer is that we had no such force to resort to, for we have often found difficulty in obtaining them. We are endeavoring to give them immunity, but I think we are carrying that exemption too far. Even this year we would be without constables as far as those in the volunteer ranks are concerned, and it is likely that a large portion of the constables are connected with the volunteer corps.

Hon. Mr. BEER: The Court may obtain a list of the volunteers, and there are plenty of men who are not connected with that organization to act as constables; but it may happen that those who are appointed may not wish to act, and they may, in effect, cancel their appointment by joining the volunteer forces, and thus a whole County may be left without constables.

Hon. Mr. PALMER submitted the following amendment, which was agreed to:

"Except such volunteers who have already been appointed constables for the current year, but who should be exempt after the termination of their present office of constable."

The House was then resumed, the Chairman reported the bill agreed to with an amendment, and, on motion of the Hon. Mr. McDonald, it was read a third time and passed.

#### TRUSTEES' BILL.

On motion of the Hon. Mr. Palmer, a bill to amend the Act of the 29th Victoria, Chapter 26, relating to trustees, and the Act relating to judgments in the Supreme Court, binding Leascholds, was re-committed, reported agreed to, read a third time and passed.

A message was brought from the House of Assembly by the Hon. Attorney General, informing this House that they had appointed a committee, consisting of the Hon. Attorney General, Hon. Mr. Davies, Hon. Mr. Laird, Hon. Mr. Calbeck, Mr. Brecken, and Mr. Reilly, to join a committee of the Council to enquire during the recess of the Legislature into the necessity of providing by law for the relief of unfortunate Debtors, to report thereon at the next session of the Legislature, by bill or otherwise.

The House then adjourned for an hour, and, being again met, at five o'clock, His Excellency George Dundas, Esquire, came down to the Council Chamber, and having taken his seat in the Chair of State, gave his assent to eighteen bills, passed during the present session.

#### MISCOUCHE EXAMINATION.

We were very sorry that duties which could not be postponed, prevented our being present at the examination of the pupils of the Miscouche Convent on Tuesday last. We, however, prevailed on a young lady who was present to give us a short description of what she saw and heard. This we give our readers below. Considering our correspondent's extreme youth, and the shortness of time given her for its preparation, these printers are very impatient people, we editorially pronounce her attempt quite a success. The ladies of the Convent are engaged in a good work. They deserve to succeed, and they no doubt will succeed. Having spent a great many of our youthful days in a French settlement, we take great interest in the education of the Acadian French inhabitants of the Island. We want to see them assume that position in the country to which their talents and their virtues entitle them. We are much pleased to find them awakening to the importance of giving their children a good education. This is the first great step towards the attainment of a higher social position:

Mr. EDITOR:—Tuesday being a fine day, I set out for Miscouche to witness the examination of the pupils of the Convent School. As I was much too early, I took a walk round the grounds. Tables were placed on one side of the yard in front of the Chapel, where women had already begun to sell refreshments. The tables were shaded by evergreen bushes, and it was delightful to sit at them out of the sun. I think the shade tempted people to sit down quite as much as the sight of the good things of which there was no scarcity. I then walked up to the Convent. On the platform outside of the building an arbour was erected, formed of evergreen, along the sides of which was a short curtain tastefully decorated with pink, paper sprigs of flowers and flowers. As everybody was busy bringing in seats and finishing the decorations, I went out. Crowds of people now began to assemble, but admittance was refused to all those who had no business inside. Although the gates were continually opening to admit the pupils or to allow the seats to be brought in, no one tried to force themselves through, and I do not think there ever was a more orderly crowd. After we had taken our seats, His Lordship the Bishop, three Priests, together with a large number of ladies and gentlemen took their seats, and the examination began. Classes in easy French and English reading lessons were then examined. The younger children then gave recitations in French. A more advanced class was afterwards examined in French reading, part of which translated the French into English with great ease. One of the pupils then recited a piece which appeared to be thought a great deal of by those who could understand French. Classes were next examined in French and English Grammar. A French play was then acted, but unhappily not being a French scholar, I could not understand a word that was said, but if I were to judge of its excellence from the laughter and applause of the audience, I should pronounce it a very good one. Classes were then examined in History, the higher branches of the English Grammar, Geography and Arithmetic. An English play, called "Who's to Inherit," was acted with great spirit, and the actors were much applauded by the audience. Two French songs and one English one followed, accompanied with music from the piano. A French dialogue was then spoken by the children, after which an address was given in French by one young lady, and one in English by another. The Bishop then delivered a short address to the people assembled, and another to the children. Addresses were also given by two of the Priests. "God save the Queen" was sung, and the people went home, seemingly very pleased with everything they saw and heard.

I for one have seldom spent a more pleasant day. The children acquitted themselves wonderfully well. It was a pretty sight to see so many children all dressed in white. What astonished me most was the absence of embarrassment among the scholars. They seemed as much at ease as if they were repeating their lessons to each other. The English lessons certainly were well said. In Geography the Convent pupils particularly excel; and if I were to judge by the readiness of their answers, I should say they were not at all inferior. Some of the scholars are about to leave the Convent. They seemed to be very sorry to leave their lively schoolmates and their kind teachers.—S. Journal.

#### PUBLIC EXAMINATION AT ST. DUNSTON'S COLLEGE.

The Annual Public Examination of the Students of St. Dunstan's College took place on Wednesday last, the 10th inst. Amongst those present, besides the parents and friends of the students, His Lordship the Bishop of Charlottetown, and his Vicar General, the Very Rev. Dr. McDonald, together with a large number of his clergy, His Honor Chief Justice Hodgson, His Honor Mr. Justice Peters, Hon. Mr. Coles, Hon. Mr. Brehan, Hon. Col. Grey, Hon. Edward Palmer, Hon. Mr. Warburton, Hon. Mr. Walker, Hon. Mr. Dundas, G. W. DeBlain, Esq., D. O'M. Reddin, Esq., Dr. Gervaseau, Dr. McIntyre, George Palmer, Esq., and a number of other whose names we do not at present remember.—We may here state that, towards the close of the examination, a deputation from the City Council arrived, consisting of His Worship the Mayor, and Messrs. Counsellors Brecken, Yates, Morris and Smith, who expressed their regret that, owing to urgent public business, they were unable to be present at the examination, but they could not, they said, allow such

an auspicious day to pass without paying their respects to the College authorities.—The various classes in Greek, Latin, Natural Philosophy, History, Geography, Grammar, &c., acquitted themselves, we need hardly say, in the most creditable manner, and reflected the highest honor on their teachers and themselves by their ready and correct answers. The examination of the various classes was very appropriately interspersed with Music, both vocal and instrumental, and was a feature in the Programme which was very highly appreciated. On the whole, we believe that we can only express the opinion of all present, when we say that this year's Examination was one of the best ever yet held at that Institution.

Immediately on the conclusion of the Examination, the Rev. Angus McDonald, Rector of the College, rose and expressed to the students his regret that, owing to the want of funds, the College was unable this year to grant Prizes. He trusted, however, that the publication by the local press, of the names of the most deserving would compensate, in some degree, for this disappointment, as he was well aware that none of them would compete for any Prize book merely for the sake of its intrinsic value. His Honor the Chief Justice followed in a neat and eloquent address, complimenting, in very high terms, the Professors and Students of St. Dunstan's, on the splendid display made on that occasion, and expressing the great satisfaction that he himself derived from assisting at the Examination, both this year and last. Hon. Col. Gray next addressed the students, and, on behalf of himself and family, expressed his thanks for the kind invitation sent to them to be present on that occasion. He regretted to learn that the want of funds, on the part of the College, obliged the students to go home this year without prizes, although, as every person could see, they merited them so well, but he hoped that, in their disappointment, they would console themselves with the reflection that, if they did not obtain the material prize, yet theirs was a prize of incomparably greater value, viz: the satisfaction which arises from a conscientious, and, as they could there see, highly appreciated, discharge of duty. As a native British American, he felt proud of St. Dunstan's College, the Rector of which he held in the highest esteem, and he would take that opportunity of directing the serious attention of the young men before him to the grave responsibilities which would devolve upon them when they left that Seminary of learning.—responsibilities which would be in exact proportion to the splendid opportunities that they now possess, of qualifying themselves for the stern duties of manhood. After the gallant Colonel's eloquent address, His Honor Chief Justice Peters rose and very warmly congratulated the students on their proficiency in the different branches in which they had been examined. Turning then to education in general, the learned Judge said that there is one gentleman in particular who has the strongest claims on the gratitude of all the true friends of Education in the Colony, the fruits of whose great labors will be felt long after this and the succeeding generation shall have passed away forever. That gentleman is His Lordship, the Bishop of Charlottetown, the most energetic and the most successful promoter of education in the Lower Provinces. The learned Judge concluded his address by expressing a hope that the promising young men then before him would be a credit to their parents, to themselves, and to that noble institution.—The following are the names of those who deserve to be specially mentioned for their proficiency in their classes. We should not forget to add that a considerable number of those who are here mentioned belong to the neighboring Provinces:

EXAMINATION OF PRINCE OF WALES COLLEGE AND GRAMMAR SCHOOL.

The Examination of the Prince of Wales College and the Grammar School in connection therewith took place during Thursday and Friday last, in the absence of His Excellency the Lieutenant Governor, the Patron of the College, the Chief Justice presided. The examination this year was no formal affair, but a thorough and searching trial of proficiency in the work of the session. The examinations were conducted partly by the Professors and partly by other gentlemen invited by the Trustees to assist. An commencement was made on Thursday in the Classical Department, which is so ably

conducted by Dr. Inglis. Class after class was examined and cross-examined for five or six hours, and without exception acquitted themselves to the entire satisfaction of the examiners. On Friday Professor Anderson's department was subjected to an equally testing examination with equal success. The students, one and all, displayed accuracy and attainments most creditable to their age and to the institution. The Grammar School, efficiently conducted by Mr. John Arbutick, Jun., was the last department to be examined. The same remarks of commendation are merited for it as for the two others. But while the number of students in the College proper was small, that of the Grammar School scholars was unusually large. At three o'clock all the classes met in Dr. Inglis' room for the distribution of the prizes. The Chief Justice, after having conferred those honors on the most deserving boys, to whom they were adjudged by previous competitive examinations, briefly addressed the classes, commending their conduct and ability in their various classes, urging them to go forward, zealously prosecuting their studies, since, as he truly observed, this is an age of progress, and whatever position is now attainable in society can be obtained only through competition. Formerly the exception was to meet a learned man; now, the exception is to meet an ignorant one. As an encouragement to persevere, he reminded them of what their predecessors have accomplished already in various other countries. He concluded by highly complimenting the Professors and the Teacher of the Grammar School on their success, and in the name of the Trustees, thanking the examiners, Dr. Read, Mr. Newberry, Mr. Roche, and Mr. L. G. McNeil, for their assistance. Dr. Read also made a few appropriate remarks of encouragement, after which the classes were dismissed, to meet as will be duly advertised.

#### CONVENT EXAMINATION.

The Annual Examination of the pupils attending the Female Academy in this city, conducted by the Ladies of the Congregation de Notre Dame, came off on Thursday last, and was a brilliant success. His Lordship the Bishop of Charlottetown, several of his clergy, the parents of the pupils, and a very large number of friends, were present on the occasion. For four hours the pupils stood a searching examination on English Grammar, Rhetoric, Geography, Use of the Globes, History, Botany, Zoology, Natural Philosophy, Chemistry, &c., and by their correct and prompt answers gave the greatest satisfaction to their friends, as well as they did honor to themselves, and reflected the highest credit on the institution which is so admirably conducted by the good, self-denying Sisters of the Convent. The programme was varied with addresses, drama, and instrumental music, executed by the pupils in the finest style. At the close of the Examination, His Lordship the Bishop distributed a large number of prizes to the successful competitors in the various classes, and placed "crowns of honor" on the heads of many of the young ladies who merited them by their general good conduct and assiduity during the past year. His Lordship then complimented the pupils on the marked progress which they made since the last examination, encouraged them to persevere, and expressed the great pleasure which he felt at the successful manner in which they acquitted themselves on that occasion. We annex a list of the prizes awarded to the Young Lady Pupils:

#### SUPERIOR COURSE.
