

A NOVA SCOTIA CASE

Significant Praise of Dodd's Kidney Pills by a Meteghan Citizen.

METEGHAN, N.S., Aug 22.—No man is better known to the traveling and commercial classes in this province than is Mr. William German, proprietor of the Bay View Hotel here.

An interesting statement is made by Mr. German, and reads thus:

"I take pleasure in testifying to the merits of Dodd's Kidney Pills. Two years ago, I was suffering from severe pains in my back caused by Kidney Trouble."

"I got two boxes of Dodd's Kidney Pills and used them, and my complaint was completely cured. I have not had the slightest pain since."

To all victims of Kidney Complaint there is one way of escape from their suffering. That is only by using Dodd's Kidney Pills. They always cure.

Difficult to Inflict Pain.

The doctor smoked slowly on his cigar. It was plain that he had something to say.

"I was thinking of my early college days," he said, "and of a peculiar incident that happened very soon after I began my studies. The professor was instructing the class one day on the corpuscles of the blood. In order to get some fresh blood for microscopical examination each student was ordered to tie a rag around his forefinger and strike the top of the finger suddenly with a needle with sufficient force to draw blood. Seems easy, doesn't it? Do you know there wasn't a man in the class that did it at the first attempt. It was funny to watch some of those embryo surgeons poise the needle with a determined air and launch it to within a hair space of the flesh and there stop dead. Others tried to force the needle in slowly, but paused very shortly, with an expression of pain commensurate to that of an amputation. I myself gave it up as a bad job, and hacked a cavity in my thumb with a penknife, and found it easier."

"The fact that we were very young and inexperienced is no explanation for this peculiarity, as I have since found by personal test. Almost everybody exhibited the same repugnance to inflicting pain in that manner. Try it yourself."

The other man tried and succeeded on the fourth trial.—New York Sun.

Art of Making a Mustard Plaster.

To put on a mustard plaster is not at all difficult, but to do it in the best way requires some care and skill. In the first place, remember never to give a cold mustard plaster to a patient. To a weak or sensitive person the shock is often great. Either mix with very hot water, or, better still, have a plate put where it can get warm while you are mixing. Having everything ready at hand, mustard, flour and a spoonful of molasses, with a bit of old muslin or linen—an old handkerchief is the best thing for the purpose. Stir the mustard and flour together first, making the plaster stronger or weaker with mustard as you have been directed. Add the molasses and then the water until the smooth mass is about as thick as porridge or poultice. Spread your cloth on the warm plate, using the middle portion of the linen and leaving a margin on all sides, which is to be folded back at the edges. Put a second cloth over the whole, so that the mustard is entirely hid between the two covers and keep on the plate until it is necessary to apply the plaster.—Philadelphia Ledger.
