Operation Ankles Girl's Foot

OTTAWA (CP)—A team of Ottawa surgeons Thursday performed a unique operation on a nine-year-old Bouchette, Que. girl, in an attempt to save her left foot which had been completely severed about an inch above the ankle.

The doctors said the foot-removal operation performed on Suzanne Lafontaine was accomplished with new equipment developed recently by the National Research Council. Staple together severed veins and arteries with metal clips.

They said there is about a 35-per-cent chance that the operation will prove successful. It would not meet 24 hours before they had any definite indications of its success or failure.

The young girl's foot was severed by a hay mower at the LaSalle farm in Bouchette, some 70 miles north of Ottawa. The foot was injected with anti-coagulant to prevent blood clotting and refrigerated until the operation, which was conducted in two stages.

In the first stage the surgeons attached the foot to the leg with metal pins. The main veins, arteries and nerves coming from the leg to the foot were then stapled together.

Measles Hit Beasly Entry

MIAMI BEACH, Fla. (AP)—German measles struck the cruise ship *Leontine* as it entered Universal Beasly port Friday and aroused fears the disease might spread to other girls who had been exposed.

Dora Sola, 21-year-old beauty queen from San Jose, woke up in her hotel room Friday morning with "red spots all over her face."

Hours later, the pigganant was hospitalized with measles. Miss Sola contracted it before leaving her homeland. She flew Miami beach Tuesday night with several other contestants from the Caribbean area.

Doctors said she would have been contagious for the last two days.

Police Brace For New Rioting

NEW YORK (AP)—A week of racial disorders here tapered off Friday but police braced for a possible new onslaught of rioting this weekend.

"This weekend could be hot," said Deputy Police Commissioner William J. Brannan.

On the chance the lull is only a calm before a storm, the police have 2,000 men, white and Negro, ready to cope with any new outbreaks.

The police stand on guard against the possibility that rioters might spread their drive to Washington from Harlem north of Central Park, and from the Bedford-Stuyvesant section of Brooklyn. Both Harlem and Bedford-Stuyvesant are predominantly Negro districts.

The police had their eyes chiefly on a scheduled march today by thousands of Negroes in a rally outside a police station in Harlem.

Bank Customer Dead From Robber's Gun

TORONTO (CP)—A bank customer was shot to death and a policeman was wounded when the thief shot his way out of a bank in a suburb of Toronto Friday afternoon after he robbed a branch of the Canadian Imperial Bank of Commerce.

Police said the bank robber was shot in the chest by a policeman. The dead man was identified as Jack Blane, 36, a skin diver who was about 30 feet away.

Witnesses said Mr. Blane and the bank manager took refuge in the bank's vault. The bank manager was shot in the chest by a policeman. The manager was talking to a customer as the time.

Hamilton Falls Power Deal Seen Boon To Maritimes

ONTARIO'S PREMIER John Robarts, left, is greeted by Rev. Dr. F. P. Boiger, historian at St. Dunstan's University who has written a history of the province.

By DAVE BUTLER
ST. JOHN'S, Nfld. (CP)—Premier Smallwood said Friday that the power project of Labrador's Hamilton Falls and delivery of this power to the Maritime provinces and New England would "immediately re-activate the economic balance in Canada."

In a telephone interview from Ottawa, the premier said availability of such amounts of low-cost electricity in Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland would give these provinces far greater economic strength and make them more important in the whole Canadian economy.

U.K.'s Postal Strike Ended

LONDON (Reuters)—Government and union leaders Friday night reached agreement on a new pay award to Britain's 123,000 postmen.

A statement by the executive council of the Postmen's Union said a negotiating position had been reached.

The postmen's refusal to work overtime and a one-day wildcat strike without last week brought about a massive backlog of undelivered mail. It has been estimated mail deliveries in the London area are about five days behind.

Racial Tensions Accord Reached

WASHINGTON (AP)—President Johnson and Republican presidential nominee Barry Goldwater conferred alone for 16 minutes Friday and agreed that "racial tensions should be avoided" in the campaign ahead.

White House Press Secretary George Reedy said that Goldwater slipped in and out of the White House without seeing reporters.

"The president met with Sen. Goldwater and reviewed the steps he had taken to avoid the incitement of racial tensions," Reedy said.

"Senator Goldwater expressed his position, which was that racial tensions should be avoided," Reedy said.

"Both agreed on this position," he added.

Parley Denied On Priorities

OTTAWA (CP)—Premier Duff Roblin's idea for a federal-provincial conference on government responsibilities was turned down by Prime Minister Pearson.

Such a generalized discussion wouldn't have much practical value, Mr. Pearson said in a July 21 reply to the Manitoba premier. The letter was made public Thursday.

Meanwhile, the Prime Minister had this to say about priorities.

The provinces' short-run needs for education recognized when Ottawa a few months ago gave them greater access to the income tax field.

Federal procedure in considering the Hall royal commission reports on health services made clear that "we wish carefully to consider priorities in financing the health services."

The national contributory pension plan, slated for parliamentary action this year, could be put into effect "without holding back anything that is more important."

40 Die 165 Hurt In Ship Explosion

ALGIERS (AP)—At least 40 persons were reported killed and 165 injured when explosions ripped through an Egyptian ship in the Algerian port of Bone Thursday night and Friday. The resulting fire caused heavy damage to the surrounding harbor area.

The vessel sank Friday. The newspaper *Algerie* reported the casualty figures. It added there was no estimate of casualties among the crew of the ship.

Government inspectors went sent to Bone to determine whether sabotage was involved. Alger ce Soir said certain signs pointed to sabotage, possibly by counter-revolutionaries.

Most of the dead and injured were believed residents of the neighboring adjacent to the dock area, where several buildings, including a hospital, were heavily damaged.

Parley Works On Sanctions

WASHINGTON (AP)—The American foreign ministers met in closed-door sessions Friday to hammer out a proposal for total diplomatic and trade sanctions against Cuba which would wipe widest possible hemispheric support.

In the first of these meetings U.S. State Secretary Dean Rusk urged the Latin American foreign ministers to take action which would reflect the hemisphere's determined opposition to Cuba.

Mr. Smallwood said building of transportation lines would "create a lot of work in the Maritimes but the biggest thing about the project is not merely the employment."

The important thing is the project will now be kept in the Atlantic provinces, he added.

If it went through Quebec, it would only strengthen Quebec and possibly Ontario. It would be feeding the fat cows, so to speak. It would be a matter of timing that hath, shall be given. Whereas, if it comes our way it will certainly help balance the economic scale in Canada today."

LAST AT CHARLOTTETOWN Sabre Jet Fighters Crashing On Grapheap

By DAVE McINTOSH
OTTAWA (CP)—The Sabre jet fighter, a strong vertebrate in the backbone of Western European defence for a decade, is going the way of the dinosaur. Connet jet transport, North Star transport and Lancaster reconnaissance plane on the RCAF's scrap heap.

The last five RCAF Sabres which will undergo over-haul are scheduled to come out of the enamel and heating compartments at Charlottetown by the end of this month.

At one time, the Sabre with its Canadian-made Orenda engine was the best jet fighter NATO had in Europe. It was used in the RCAF's operations in France and West Germany beginning in 1953. Twenty-one RCAF Sabres in the Korean War.

All told, the air force purchased 1,000 Sabres for some \$300,000,000. It now is down to its last 115 and 40 of these are in storage and 21 others will soon be sold for scrap.

A RCAF spokesman said Friday 15 Sabres still are being used as trainers at Chatham, N.S., but will gradually be retired as the CL-41 jet trainer comes into increased use.

USED TO OBSERVE Beady and Johnson and Goldwater

Montreal, Canada; Limited, Montreal, manufacturer of the Canadian Sabre, uses two of them to observe newly-built CL-41 jet trainers in flight.

Boeing Airplane Company, Seattle, uses one Sabre for the same purpose.

Of the 1,070 Sabres that the RCAF has got rid of, 250 were used by what the air force calls attrition (wear and tear) 250 were shipped overseas for NATO partners; 63 were purchased by the Royal Air Force and the U.S. Air Force.

Meanwhile, the U.S. Air Force; 25 have been handed over to Crown Assets Disposal Corporation; 16 have been converted for ground training; and

Campaign For Peace Pushed In Singapore

SINGAPORE (AP)—Officials of this strategic Malaysian city today pressed a campaign Friday for peace between Singapore, Chinese and Malays, antagonists in four days of racial riots that have left 10 dead and 451 injured.

Bloodshed appeared to be ebbing even as Deputy Premier Toh Chin Chye and Culture Minister S. R. Rajaratnam launched the campaign with an appeal in the main Chinese section.

"Stop this madness while there is still time!"

Sound trucks reiterated the call for peace throughout the 15 districts worst hit by the communal strife that erupted Tuesday during a street procession of 25,000 Moslem Malays in honor of the prophet Mohammed.

Malay and Chinese headmen of various communities were reported to have agreed on temporary arrangements for the 10-day holiday to halt the hostilities.

The government sought to establish in each district a 10- and 11-man peace patrol, each reflecting the district's racial make-up, to curb agitators and help police and troops, now totaling 7,000, restore law and order.

Visit Details Coming Soon

CAPITAL BUREAU OF THE GUARDIAN
OTTAWA (AP)—Arrangements should be completed for the visit of her Majesty Queen Elizabeth to Prince Edward Island in 10 days time, a government spokesman said here today.

The general outline of the visit—Her Majesty arrives in Summerside, October 3 and leaves the island late October 7—are settled, but the details of the full itinerary are still a matter of discussion between Ottawa and Buckingham Palace, the spokesman said.

Her Majesty goes to Quebec for a one-day visit on October 10 and 11.

Responsibilities for Eskimos in the Eastern arctic to the Queen's government. However, he told the Commons Friday during debate on his department's 1964-65 spending bill that the federal government wants at all times, in exercising its responsibility, to be "good neighbors" with the Quebec government and Quebec Resources Minister Rene Levesque.

Ottawa Is Applying Brakes On Quebec's Eskimos Bid

OTTAWA (CP)—Resources responsibilities for Eskimos in the Eastern arctic to the Queen's government. However, he told the Commons Friday during debate on his department's 1964-65 spending bill that the federal government wants at all times, in exercising its responsibility, to be "good neighbors" with the Quebec government and Quebec Resources Minister Rene Levesque.

The Commons turned to Mr. Laing's estimates after completing the final reading of the government's student loan bill. It got the final nod on a vote of 168 to 100, with 16 Conservatives and eight Christians opposing it.

Mr. Laing said he hasn't had any letter from Mr. Levesque formally terminating negotiations between the two governments for turning Quebec Eskimo affairs over to Quebec. But the breakdown in talks stemmed from last April when Mr. Laing had said the Commons the Eskimos would be consulted on their feelings about the transfer.

He said he is anxious to resume correspondence with Quebec and noted that after a recent trip to northeastern Quebec by Mr. Levesque press reports indicated the Quebec minister held a somewhat broader appreciation of the question.

There had been contacts between federal and Quebec officials on the matter as recently as two weeks ago but none since Mr. Laing's announcement last mid-April.

DeGaulle Charge Is Hotly Disputed

WASHINGTON (AP)—President Johnson Friday strongly disputed a charge made by France's President de Gaulle and said that the United States has ever attempted to dominate Europe.

The U.S. Johnson told a press conference, has constantly called for strengthening of the free countries of Europe. "No European country should ever feel that it is being dominated by Europe and its ties to the United States."

CIVIL RIGHTS CANNOT BE IGNORED

WASHINGTON (AP)—President Johnson Friday said that the United States has ever attempted to dominate Europe.

The U.S. Johnson told a press conference, has constantly called for strengthening of the free countries of Europe. "No European country should ever feel that it is being dominated by Europe and its ties to the United States."
