The above steamer is fitted with cold storage, and has modern improvements for carrying live stock.

Excellent accommodation for passengers. For freight, passage, steamships, and other information apply at the office of

N. RATTENBURY,
Agent

NATURE'S ASSISTANT

Such is the Name Given to Dodd's Dyspepsia Tablets.

Because They Ensure the Action that Nature Intended—They Cure Constipation and All its Evil Consequences.

Constipation is the curse of every community. No one escapes it. Young and old suffer in silence, believing that their burden can never be removed.

But Nature has provided a cure for every ill, and there is a certain, positive and permanent cure for constipation. That cure is Dodd's Dyspepsia Tablets.

In every box of this magic working remedy is a supply of small brown tablets, which were compounded, after years of study, research and experiment, for the cure, positive and permanent, of constipation.

And, during the time that Dodd's Dyspepsia Tablets have been before the people, there is not the record of one single case of constipation that these Tablets have failed to cure, when they were used according to directions.

Their action on the bowels is immediate if the dose be gauged correctly. They act gently and never gripe.

By restoring regular action of the bowels the Tablets ensure the carrying off and expulsion from the system of the poisonous waste products that, in constipation, remain in the system, fester and decompose there, poisoning the blood and causing the outbreak of other serious ailments.

Nature intended the bowels to act at certain regular intervals. When, from any cause, this regular action is interrupted or stopped, the most serious, and dangerous consequences follow.

Dodd's Dyspepsia Tablets cause the bowels to act naturally, and so carry out the wise provisions of the Creator, ensuring health, strength and vigor to the whole frame.

TAKE DODD'S DYSPEPSIA TABLETS FOR DESSERT.

The United States pension roll at the end of June contained the names of 933,714 pensions. During the previous twelve months 56,737 names were added on account of the civil war, which ended just a third of a century ago. It is stated that more new pensions were given last year than the entire four years of Grant's second term and the four years of Mr. Hayes' presidency. The total amount paid was \$144,651,879, which is more than was paid in any four years previous to 1880. There are no Spanish war pensions in this list. They will come in next year.

CARTER'S LITTLE LIVER PILLS

WHEN OLD AGE COMES.

Some men are 20 years younger physically and mentally than others are at the same age. It is self evident that old age does not begin at any set time, so far as the divisions of time divide the periods of life, but that it has to do with that subtle agent known as the vital force, an atmosphere with which enables the analytical mind to become proficient in progress by weighing in the balance the vitality on the one side with the pathology on the other.

The indication of old age may be noticed by ocular inspection. The figure stoops, the walk is less elastic, the rounded figure gives place to the spare habit of body, the wrinkle of time mounts the cheek, while the frost of many winters mantles the brow. The typical healthy person who attains old age is spare of body, and old age emphasizes this fact by causing a paucity of adipose tissue. So the wrinkle of time, after all, is kindly in nature.

Physiologically we notice that a diminution of the physical energy is accompanied by a corresponding diminution of the power to eliminate waste material from the body. Elasticity and strength give place to hardness and brittleness of nearly all the tissues of the body. The general health may be good, because there is a harmonious balance between the action of the nervous system and the circulatory system.

However, the former is less responsive to external stimulation, and the latter is less vigorous in old age. The vital processes conducted by the circulation, respiration and metabolic changes in the tissues are less active. There are diminished adaptability of the whole system to changes in the environment and less ability to meet the requirements of emergencies, such as sudden demands of muscular and mental strain.

The senile conditions and diseases are numerous and obvious—in the first place, weakened digestion and assimilation. The weakened vigor of the circulation and glandular system necessarily weakens the power of eliminating the excrementitious substances, which gives rise to pernicious nutrition, and that in turn is the cause of the tendency to develop malignant or benign growths in different parts of the body in old age.

The strong tendency to overeat and underdrink, together with the natural decline of functional power, gives rise to a condition of lithemia, which is the prime cause of the majority of deaths in old age. In the healthy state that great glandular furnace and chemical laboratory, the liver, is capable of transforming an excess of nitrogenous matter, which may result from metabolism of tissue or exist in the food consumed, into the highly soluble excrementitious substance known as urea. This excrement is eliminated from the blood mainly by the kidneys and to a much less extent by the skin.

Now, in old age, with the functional power and natural vitality on the wane, together with the strong tendency to overeat this function of the liver, we find this waste is not converted into urea, but into uric or lithic acid, a comparatively insoluble excrementitious and toxic substance, which if it appears in the blood in sufficient quantity and is long enough continued in circulation through the urinary tubules sets up irritation and inflammation, which inevitably impair the function of the renal epithelium, and we find this poisonous substance is not eliminated from the system, but accumulates in the blood.

This explains why old people are almost universally troubled with disease of the liver, kidneys, bladder and prostate gland. The unstable circulation, atheromatous changes and brittleness of the walls of the blood vessels, with the tendency to overtax the digestive apparatus, are the cause of many old people going to "that bourne from which no traveler returns" by the apoplectic route.

Hereditary diseases naturally manifest themselves when the vitality is below a certain level, so we are not surprised to find certain dyscrasia and latent tendencies manifesting themselves at this period of life, when the natural vitality is waning. The diseases most frequently found to be the cause of dissolution among the aged are pneumonia, diseases of the liver and urinary organs, consumption, cancer, apoplexy and gangrene.

The enemy to longevity, the author continues, is self indulgence. People who have reached an advanced age may prolong their lives and greatly add to the comfort of their declining years by diminishing the quantity of food ingested, thereby avoiding too large a residue of waste matter either in the intestinal canal or in the form of excrementitious matter in the blood.—Journal of American Medical Association.

ALL HEADACHES

from whatever cause cured in half an hour by HOFFMAN'S HEADACHE POWDERS 10 cents and 25 cents at all druggists.

Teeth--- Should be brushed thoroughly, carefully, regularly, then can the owner detect and more easily, in its incipient stage, the deadly decay which sooner or later attacks nearly everybody's teeth. When you discover the cavities don't delay, but come at once and have them filled at Sunnyside Dental Parlors.

VICTORY FOR DODD'S.

Kidney Diseases Decrease Where Dodd's Kidney Pills are Used

Proof That Dodd's Kidney Pills Have Cured Every Case of Kidney Disease for Which They Have Been Used—They Have Never Failed.

Ottawag, N. B., Sept 9.—Some months ago, a statement was made to the effect that in all sections where Dodd's Kidney Pills are used, Bright's Disease, Diabetes, Rheumatism, Lumbago, Sciatica, Gravel, Stone in the Bladder, Heart Disease, Paralysis, Gout, Dropsy, Diseases of women Urinary Troubles, and every other form of Kidney Disease, are rapidly decreasing.

Some doubt was expressed, as to the correctness of this assertion. A committee of citizens was appointed to investigate. Strict examination was made, by hearing the evidence of those who had used Dodd's Kidney Pills for any form of Kidney Disease, and now the committee has reported that the claim was strictly true.

Further, the report says: "We find on the evidence of those who have used them, that Dodd's Kidney Pills have cured every case of Kidney Disease for which they have never been known to fail to cure, in any case where they have been given a fair trial."

We are firmly convinced that Dodd's Kidney Pills are an absolutely certain cure for Kidney Diseases, and that they are the only remedy that can be depended upon with perfect confidence to cure such disease.

The correctness of the theory on which Dodd's Kidney Pills are compounded, receives fresh proof every day.

Keep the Kidney healthy. Then they will keep the blood pure and rich. If the blood is pure and rich there can be no Kidney Disease.

Dodd's Kidney Pills keep the kidneys healthy, and cure all Kidney Diseases. They are absolutely sure.

Try a box. It costs only fifty cents.

New American tams and caps for the girls, and the latest bicycle caps for men and boys just opened at F. Perkins & Co's.

New goods—New silks, new satins, new flowers, new feathers, new dress goods, new costume lengths, new velvets, new jackets, just opened at F. Perkins & Co's.

Silk velvet—49 different shades to select from at F. Perkins & Co's.

Tweed—New factory tweed for ladies' fall suits at F. Perkins & Co's.

Coughs and colds need not be endured; they can be cured, and that quickly.

Many mixtures are temporary in effect, but Scott's Emulsion of Cod-liver Oil with Hypophosphites is a permanent remedy.

The oil feeds the blood and warms the body; the hypophosphites tone up the nerves; the glycerine soothes the inflamed throat and lungs.

The combination cures. This may prevent serious lung troubles.

Men's Eyes are Drawn

The Beams and Rafters

are to a building just what the staying is to

Shorey's Ready-to-Wear Clothes.

The inside of one of Shorey's coats is here illustrated by a drawing made from a photograph. The great advantage of a coat properly stayed is that it keeps its shape until it is worn out, and does not look like an old garment after a few weeks wear. An ordinary ready-made garment may look well at first, but it is made to sell not to wear.
