
WIDE OPEN SPACES

OMAHA, — Five first grade kids showed up at Fontenelle Grade School today with wide open spaces in their teeth. The youngsters reported the prevailing rate for a missing tooth runs as high as 50 cents these days, paid by the "Good Fairy". Their teacher commented a penny made a child happy when she was young. Exhibiting about $5 worth of spaces are, (L to R.) Richard Standage, Johnny James, Christine Howard, Jean Marie Sieck, and Douglass Heikel. (For the uninitiated, the tooth a youngster loses in the growing up process is left under a pillow; at night the "Good Fairy" leaves coins to soften the loss.) (AP Wirephoto)

DAILY MARKET QUOTATIONS

SUMMARY

By THE CANADIAN PRESS

Toronto—Golds and uraniums strong; trading lighter.

New York—Market higher; late improvement.

Montreal — Market lower; changes fractional.

CURRENCIES

MONTREAL (CP) — The U.S. dollar Thursday closed at a discount of 2 per cent in terms of Canadian funds, down 1-32. Pound sterling $2.76, unchanged.

TORONTO

TORONTO (CP) — Uraniums spurted ahead in closing trading Thursday to join golds in an advance but the rest of the stock market failed to follow and ended the day mixed to longer.

Golds were strong throughout the session as rumors circulated about a possible increase in the price of gold an ounce. These type of rumors have flared up before when golds began to march ahead but usually there was nothing to them.

Uraniums began to creep ahead after noon and rolled into a solid advance in the final hour. Britain and United States officials are expected to announce Friday the results of recent tests in both countries with hydrogen fusion.

Several scientists in both countries have emphasized that the fusion experiments are a long way from being put into practical uses. Some brokers thought investors were optimistic about this theory and hoped for an official confirmation in Friday's announcements.

High-priced uranium and gold issues moved up in a two - point range, topped by McIntyre's gain of 71. Low-priced issues in both sections were ahead in almost a solid line with gains ranging to 40 cents.

Senior base metals closed lower in a fractional range and the base metal index lost three-quarters of a point. A few juniors recorded gains of 10 or 15 cents but there were more losses in a similar range.

Western oils were quiet, closing mixed to higher. Price changes were narrow.

Index changes: golds up 3.19 to 76.87; base metals off .78 to 147.06; western oils up .31 to 134.45.
