Propose Boulevard-Dikes To Protect Winnipeg

Grain

WINNIPEG, Aug. 20 - (CP) - Prices sagged in late coarse-grains trading during Saturday's short session on the Winnipeg Grain Exchange.

Oats and barley were generally firm with local buying and some commercial demand. This was apparently prompted by reports of wide frost damage through the prairie grain belt.

The suggested boulevards would be built on a 60-foot street right-of-way and would be 50 feet across the top.

Construction would start almost immediately on the 15 miles of dike in low-lying areas. Job of developing the boulevards on higher ground, year by year, would be left to the municipalities.

A statement issued after the meeting said the municipalities are "unanimously in agreement" that the broad scheme is fundamentally sound.

The boulevard would be the height of a Red River flood stage of 26.5 feet, the statement said that is 3.8 feet below the peak reached this year but more than three feet higher than the 1942 flood which previously was the highest in many years.

The board acknowledged its boulevard system is a temporary flood protection only. Some wide international scheme would be needed for permanent control, since the Red rises in North Dakota and Minnesota.

N. Y. Stock Market Near 4-Year High

NEW YORK, Aug. 20 - (AP) - The stock market moved within whispering distance of a four-year high last week.

The market closed Friday at the peak of a five-week rally which wiped out the spectacular losses after our intervention in the Korean war.

For five weeks the market was pushed forward in the face of some of the most disturbing news that traders have faced in a long time.

When the last deal was made in the exchange last week the Associated Press average of 60 stocks moved up to \$79.10. This matched exactly the closing figure on June 23, two days before the United States embarked on a new Asiatic policy.

The following Monday the market responded with one of the worst declines in 20 years. Before the high of the week this course the market had plunged to a low for the year and roughly \$5,500,000 had been hacked off the paper value of all stocks listed on the exchange.

In the last five weeks the overall loss has been fully recouped. None of the week's 20 most active stocks declined.

In the curb market oil and metal stocks were among prime favorites. Oil issues, and this was the case of the big board too, responded to heavy demand and production, rising prices for petroleum products, and the prospect of sustained civilian and military demand.

Wanted WANTED - HEAVY FOWL, BEST prices. Will call. Rex Dawson, Albany.

WANTED - FOUR OR FIVE room heated apartment. Adults Phone 394-J.

WANTED - FIFTY 30 LB. FEEDER Pigs. Apply Clark's Feed Service, Mt. Stewart.

Tree Branch Turns Out To Be Snake

PRINCE ALBERT, Sask., Aug. 18 - (CP) - Gibson Hoye of St. Louis, 20-miles south of here, last night ran over what he thought was a tree branch on the road.

Today he found it was a 50-inch rattlesnake, with six rattles on his tail.

Gordon Lund, a wild-life expert and Chief Constable Ernest Alexander said it is the first rattler ever reported in this northern Saskatchewan area.
