WHY THE DELAY?

The hesitation and delay of the Provincial Government in respect to the appointment of vendors for Charlottetown under the Canada Temperance Act continues to be a subject of remark. Why this loss of time in connection with a matter that ought to be promptly attended to? The Scott Act is in force, and yet an important provision of it is not complied with? At present there seems to be a disposition on the part of liquor dealers to obey the law. Can it be expected that this disposition will continue in face of the disobedience of the law on the part of the Lieutenant-Governor and his responsible advisers? When their leaders and rulers pater with the law and try to avoid the responsibility which it entails, how can it be hoped that the common people will not also try to avoid their duty in respect to it? There ought to be no difficulty about this matter. Premier Peters' policy in respect to the temperance question has heretofore been governed by our temperance leaders and organizations. It was at the instance of the Sons of Temperance, Good Templars, W. C. T. U., etc., that he ordered the Prohibition plebiscite. It was upon the representation and advice of the temperance leaders that he promised and pledged himself to have the Canada Temperance Act "fully enforced" throughout the Province. These were the means by which he obtained his majority in the Legislature. To be consistent and safe he has now only to continue to accept the advice and obey the behests of the leaders in our midst of the temperance movement. What do they say in respect to the appointment of vendors for Charlottetown? Let Premier Peters hear them and do that which they tell him to do. Premier Peters could not do better than follow closely the advice of those who are foremost in the temperance movement. Let the Governor appoint vendors acceptable to them, and let them have the means that they desire for the enforcement of the law. Let the Canada Temperance Act have a fair trial in Charlottetown and throughout the Province. In any case let the action of the Government be prompt and vigorous. The tergiversation of Premier Peters in respect to Scott Act enforcement is disgraceful to himself, and it reflects disgrace upon the temperance movement and upon the Province. Promising to enforce the law at all hazards, and instructing officers of the law not on any account to enter upon a prosecution against anyone unless absolutely certain that a conviction will follow, pretending to be glad that the Scott Act is in force in Charlottetown and regretting to do that which the Scott Act in Charlottetown requires—such conduct is altogether unworthy of the Premier of Prince Edward Island.

COREAN AFFAIRS.

As the result of inquiries made of experts in eastern political affairs, who have resided in Korea, the London representative of the Associated Press learns that widespread discontent exists in Korea because of the corruption and misgovernment that everywhere prevails. One of the most powerful revolutionary factors in the country is a religious sect, which ascribes the precarious condition of Korea to the presence of foreigners in the country. This sect has set forth the task of ridding Korea of the hated foreigners, and has threatened the Japanese and other foreign residents. Among the charges brought against the foreigners is one that they have caused an enormous increase in the prices of food stuffs, without any benefit accruing to the Koreans. The King of Korea possesses no real authority and he is in constant terror of a revolution that will sweep him from the throne. He is heavily in debt and the whole country is in a state of anarchy. To this condition of affairs due the revolt that recently started in one of our provinces. Last year thirty thousand Koreans, armed and unarmed, threatened to march on the capital, Seoul, and expel the foreigners. This rebellion was suppressed but the country has been disturbed ever since. Reforms in the administration are regarded as absolutely necessary, not only to save the commerce of the country, but for the safety of foreigners. Advice received at Berlin from Seoul, by way of Shanghai, show that upon the refusal of Korea to accede to Japan's demand that the Chinese troops be sent out of the country, the Japanese advanced on Seoul. After a short encounter, in which the Koreans were defeated, the Japanese occupied the royal palace. The king of Korea thereupon asked the foreign representatives to intervene. The Canadian Pacific steamship Empress of India from Hong Kong and Yokohama, arrived at Vancouver on Saturday evening. She brings advice that the war now declared between China and Japan is very popular in the latter country. Applications for service as volunteers are pouring in from all parts of the empire. It is officially stated that the Japanese have the field 500,000 men ready equipped for warlike operations. Chinese residents of Yokohama are anxiously watching the present crisis. They do not go outside the settlement limits at night. At Yokohama an imperial edict has been issued calling on the army and navy reserves and ordering them to report to their respective headquarters. The Chinese residents of Japan are greatly alarmed at the threatening outlook, and are fleeing from the country in large numbers. At Tokyo the conviction is growing in official circles that the Chinese negotiations are simply a pretext in order to gain time to allow China to concentrate her forces and make a combined attack on the Japanese. The Japanese Government has issued the following statement of the recent engagement between the fleets of Japan and China: In consequence of severe provocation, three ships of the Japanese squadron were compelled to engage the Chinese fleet off the coast of the island of Tsushima. The Chinese warship Tiao Kian, and the Chinese torpedo cruiser Huan Tai, escaped to Fusan in Korea. The three Japanese warships engaged were the Akitsushima, the Takachio and the Hiyek. They escaped entirely without injury. Late on Saturday evening additional details of the naval engagement between the Chinese and Japanese warships reached Shanghai. It seems that the fighting, though of short duration, was severe. One of the Japanese warships got within a short distance of the transport Kowshing and discharged a torpedo at her. The torpedo was well aimed and struck the transport fairly. A terrific explosion followed, and the Kowshing began to sink. Prior to the discharge of the torpedo the crew of the transport, which was armed, and the military force on board of her, made a hard fight against the attacking forces, and many of those on board of her were shot down. When the vessel began to sink frightful confusion prevailed, and no attempt was made to lower the small boats; but even had such an attempt been made, the boats could have carried only a small percentage of those on board. Every foreigner on board the transport, which had been chartered by the troops from an English Co., was killed. The loss of life was very great. Of the 2,900 Chinese troops on board of her, only 40 were saved. They were picked up by the French gun-boat Lion Sing in the harbor. Only a short time elapsed between the explosion of the torpedo and the foundering of the transport. The vessel went down suddenly near Shopon Island, at which place her commander, Dean, tried to beach her. The Tiao Kian, which was captured by the Japanese government, was an old man-of-war that had been harassing the coasts for a long time. Many were killed on board of her before she fell into the hands of the Japanese. The London Post of Saturday says: "The war between China and Japan is not lightly regarded. It is a question of European importance. Any alteration of the friendly position of Korea must adversely affect China's guarantee to Great Britain in 1886." Referring to the Port Hamilton, the writer affirms that should Russia seek to alter her position or vary the guarantee in question Great Britain would certainly have to recapture Port Hamilton. As regards the claim of suzerainty the Post says the weight of evidence is decidedly against Japan. The St. Petersburg Novoye Vremya said on Saturday in an inspired article: "Russia can never permit Great Britain to occupy Port Hamilton. That would create a new Gibraltar, a standing menace to Russia's security in the east."

Blucher returned later in the day and was arrested. The girl's condition is serious.

AN "ORGANIZER" COMING

The announcement that Grand President Mallory, of the Patrons of Industry, is sending an organizer to Prince Edward Island to stir up the farmers of that Province to a sense of their political duty to themselves is interesting. The mission upon which the "organizer" has been sent is one which we have in recent years found to be exceedingly difficult. The majority persist, for the nonce, in doing the reverse of the duty that they owe to themselves. This Province has, in consequence, suffered incalculable loss, and it has much to suffer yet. But the sooner the majority of its people are "stirred up" to change the majority of their representatives in the House of Commons and the Provincial Legislature the better for themselves as well as for the "saving remnant" on the other side. If the organizer can promote this result without introducing notions "repugnant to right principles of public action, he will be hailed as a blessing to the country. In any case, the people will be wise if they carefully weigh his suggestions and are determined not to be deceived with new fangled "fads." Generally, it may be taken for granted that organizers who come to make all the people rich and happy by means of a "third party" are some covert, selfish motive. The "organizer" who is coming here may be an exception. We hope that he is. As a rule, the more closely and firmly our people stand united upon right principles, the better for the country. Third parties rarely do any good. They usually make confusion worse confounded, and cause the people to lose sight of those simple, definite principles of action to which it is their duty and interest to adhere.
