Mr. Rogers, well known here for his musical talent, studied composition, one of the five departments at the center, and he was one of seven students of post-graduate calibre selected for this course. Director of this department was Ernest Toch of Vienna, Austria.

Mr. R. Elliott Brock, of Wichita, Kansas, has been appointed organist and choirmaster of St. Paul's Church, Charlottetown. He will assume his duties here on September 5.

Born in Cleveland, Ohio, Mr. Brock studied piano at an early age, receiving instruction in organ at the age of twelve. He became a full time church organist at fourteen. He attended preparatory school in New York City and majored in music at Columbia University in that city. He subsequently served as organist and choirmaster of parishes in Brooklyn, New York, San Francisco, California, and Provo, Utah. In Provo he headed the choral department of the Conservatory in addition to training the only boy-choir in the inter-mountain West. This choir was heard on tour and radio programs.

Hon. J. R. Smallwood, Premier of Newfoundland accompanied by several Government officials, arrived in Charlottetown last evening to attend the meeting of Canadian Mink Breeders Association which opens at the Charlottetown Hotel today.

Premier Smallwood and his party came to Moncton early yesterday by air from St. John's, and spent the day motoring through parts of Nova Scotia and New Brunswick, visiting farms.

Accompanying the Premier are: Messrs. Gordon F. Pushie, Director General of Economic Bureau, P. J. Murray, Deputy Minister of Agriculture, Clarence Badcock, Director of Agriculture and Victor Clouston, who owns and operates the largest mink ranch in Newfoundland.

Special music at the morning service were two solos by Mrs. Graydon Seaman of New Glasgow, N.S., "I Shall Not Pass Again This Way" and "Face To Face," and an anthem by the Choir "I Am Thine, O Lord." Mrs. Seaman was accompanied by Mrs. Archie Hume, and Mrs. L. A. Johnston was church organist.

"The Northern Wonderland does something to a man's heart which he can never forget," Mr. Paul Fenimore Cooper told Rotarians at their weekly luncheon at the Charlottetown Hotel yesterday, where he was guest speaker.

Mr. Cooper, who returned on Thursday from a flight into the Arctic Circle, left Charlottetown on August 2 at 5.40 p.m. and at 2 p.m. the next day he was in Churchill, Man. After making several stops on King William Island, approximately 750 miles north of Churchill, he returned to base and back to Charlottetown, completing the round trip in exactly seven days. The rail distance is 2900 miles.

—At an agricultural field day yesterday at the exhibition grounds at Abrams Village a number of government and agricultural leaders were among some 200-300 persons present to commemerate the 50th anniversary of the Egmont Bay and Mont Carmel exhibition.

The program featured achievement day activities for the St. Philips Calf Club, and the Abrams Village Cheviot Sheep Club, together with judging competitions of calves, dairy cattle, and market lambs.

A lobster supper served in the exhibitions dining hall preceded talks by several prominent government, agricultural, and exhibition officials.

Mr. Cyrus Gallant, president of the St. Phillips Calf Club since its organization in 1945, carried off top honors in the calf and cattle competitions by placing first in three of the five competitions, and placing third in the sheep judging.

Annual Illustration field days sponsored by the Dominion Department of Agriculture in cooperation with the Science Service and Provincial Department of Agriculture were concluded with very successful meetings at the Monticello and Rose Valley Illustration Stations.

A total of 895 farmers attended Illustration Stations during the year and displayed a keen interest in the experimental work active at stations in Prince Edward Island and the Magdelen Islands.

Pasture production at all station farms has been maintained at a high level during the year. Light applications of barnyard manure once every three years supplemented with a complete fertilizer has increased production of pasture herbage from 7.20 tons of green matter to 20.00 tons per acre at the Rose Valley station.

A belief that the sale of "ember" mink in Canada would be an excellent thing for the industry was expressed yesterday by Mr. E. C. Schoales, treasurer of the Canada Mink Breeders Association, as he spoke briefly at the second annual meeting being held at The Charlottetown.

Mr. Schoales thought the committee in charges of ember sales in Canada were breaking new ground and he believed that it was evident that this year more Canadian mutation mink will be sold than ever before. For this reason he said the association committee was doing an excellent job in making contacts in all markets.

"If this organization is to carry out the work we set out to do, we must take stock," said Mr. Harry Daly, managing director of the New Brunswick Credit Union League and vice-president of the Credit Union National Association in addressing the 17th annual convention of the P. E. I. Credit Union League held at the Clover Club yesterday.

Mr. Daly, in discussing the mechanics of the Credit Union as it applies to administration and organization reminded the delegates that it was all very well to boast of the accomplishment of the past but, "are we building as we go?" he asked.
