Farewell Party For Hockey Team

STOCKHOLM, (Reuters) — The Toronto East York hockey team, which placed second to Russia in the world ice hockey championships here, attended a farewell party in its honor at the Canadian legation Monday night.

The team will travel to Sundsvall, North Sweden, today for an exhibition game against a local team Wednesday. The Canadians will return to Stockholm and leave for Paris by air later the same day.

In Paris they will play two games against the Swedish Djurgarden team, the present champion of Sweden.

W. B. (Baldy) George, president of the Canadian Amateur Hockey Association, left Stockholm by air Monday.

Soviet Team Receives Bonus

STOCKHOLM, (Reuters)—Members of the Soviet team which defeated Canada for the world ice hockey championship, received a state bonus of 5,000 rubles (\$1,250) each, the Liberal Swedish evening paper Aftonbladet reported Monday.

The paper said it had received this information from "one of the Soviet team's most skillful players."

"He said," Aftonbladet added, "that he was very well off at home, thanks to sport. He had a salary of 3,000 rubles (\$750) a month from the army. With his extra income from sport he had bought a car for 16,000 rubles (\$4,000)."

"Soviet players," Aftonbladet continued, "also receive their full monthly salaries from the state when they are on sports errands."

Mickey Owen Looking For Job With Red Sox

SARASOTA, Fla., (AP)—Remember Mickey Owen? The man who dropped the third strike pitch by Hugh Casey in the 1951 world series? The catcher who jumped to Mexico?

Still spry at 37, Mickey is back again—fighting for a catching job with the youthful Boston Red Sox "I can help the kids," he said. "I can pull a good fast ball. I can help this ball club."

The Red Sox organization thinks Owen might help, too. Clayton Shedy, supervisor of players in the farm system, scouted Mickey in Puerto Rico during the winter where he was player-manager of the pennant-winning Cangas team.

"Mickey definitely has a chance to make this club," said manager Lou Boudreau. "It's between Del Wilbur, Gus Niarhos and Mickey for the jobs behind Sam White, our No. 1 backstop. We're going to have plenty of young pitching. A fellow like Mickey could come in real handy."

WINSLOE NORTH W. I.

The monthly meeting of Winsloe North Women's Institute met at the home of Mrs. Nelson Stevenson on March 3.

Roll call was answered by 15 members and two visitors were welcomed. The school committee reported that paper towels were needed. Mr. Nelson Stevenson thanked the members for fruit he received. It was decided that the secretary write to Eaton's and Simpson's for remnants to make into articles for a bazaar.

Next meeting will be held in the school. Mrs. Ray Ford will have charge of the program. Lunch committee are Mrs. Alton Younker, Mrs. Leith Carter and Mrs. Albert Younker.

Strange But True

By F. H. MacArthur

In the days of sailing ships there was always a raised poop at the stern on which was carried a crucifix, which was saluted both by officers and men. The poop-deck has been replaced by the quarter-deck, and though the crucifix has gone the old custom of saluting still prevails.

Long ago thimbles were called thumbells, for they were worn upon the thumb, as sailors still wear them. They were first made in England in 1695.

Because they do not have teeth fowls must have grit to grind up their food. Crushed oyster shell and flint grit do the job best.

It is interesting to note how the time of incubation differs among different birds. With canaries it is 14 days and pigeons 18 days. Other birds are in days: hen, 21; duck, 28; goose, 30; pheasant, 24; turkey, 28; peafowl, 28; guinea fowl, 28; swan, 19-21; swan, 42; ostrich, 42; emu, 42.

The one-cent stamp of the 1866 issue is regarded as the rarest postage stamp in the world; only one copy is known to exist, and it now rests in the vaults of a New York bank. This stamp has a value of \$35,000.

Strange but true, there's a lake in Trinidad that can actually be walked on. Why? Because the water is covered with a thick deposit known as asphaltum.

Bananas yield more plant food per acre than any other crop. The quantity of actual fruit yielded often runs as high as 20 tons to the acre.

Let me tell you the legend of Calvary clover. It is said to have grown beneath the cross of Calvary, and that Jesus' blood fell upon the leaves. After the flowers there forms a seed head exactly the shape of a crown of thorns.

The "burning bush" is the only plant in the world that gives off a gas that can actually be lit with a match. The gas burns with a feeble flame and throws off considerable smoke. Botanists term it Dictyonus.

And strange as it may seem there are luminous plants. There is a fungus, for instance, which always throws out a feeble light. In India there are plants and grasses that light up the mountains by night. And there is an amazing South American plant which can kill human beings! In Australia a kind of pineapple has the power of closing its strong leaves like a trap round a person, and can actually crush the life out of him.

The best grade of paper comes from linen and old rags.

As far back as the 14th century anyone who kept an inn or public house was compelled by law to put up a sign, and the custom has been carried down to this day.

Just why do we call some persons who practice medicine "quacks." To answer this question we must go back to the days when certain men sold slaves and slaves in the public market place, accompanied by so much talk that it was said to be like the quacking of a duck. In our day we use the word when referring to some unqualified person who hands out medical advice or sells medicines of his own making.

That rabbits are prolific animals may be gleaned from the following facts. There are 5 to 8 young in every litter of wild rabbits, and a doe will produce 4-5 litters a year. At the age of five months the young fry begin to breed so if you look at a single pair and reckoned up their progeny, the total would amount to approximately 12,000,000 in three years.

King Edward IV fined anyone caught playing cricket \$50 and imprisoned him for two years.

Ancient drawings always show men holding a spit loaded with animals or game, which would seem to place men in the ranks of our first cooks. Later in the march of history we read that royal chiefs were honored with important titles.

One of the oldest proverbs, said to date in the 15th century, announces that:

"Two women in one house, Two cats and one mouse, Two dogs and one bone." Never can agree in one.

And there may be some truth in the old proverb. For the Mormons found it expedient to build separate houses for each of their wives, and the experiment of families "living together" is not always productive of domestic harmony.

Mrs. Catherine Crowe, a great authority on ghosts, tells us that she has met with numerous instances of heavenly music being heard when a death took place.

In one case the heavenly music was heard by a whole family, including an unbelieving father, in attendance upon a sick child. This music was heard off and on for a six-week period. Sometimes it was like an organ, but far sweeter in tone; at other times there was singing of sacred songs, in Paris, and the words distinctly heard.

There is a story of a house

Win Curling Title

Matt Baldwin of Edmonton and his rink group around the trophy after winning Alberta's fifth Canadian curling championship at Edmonton. It was the west's 20th triumph in 25 years. At 27 Baldwin was the youngest skip ever to win the championships. Left to right: Jimmy Collins, lead; Pete Ferry, second; David Stewart, W. C. Macdonald Inc., who presented the trophy; Glenn Gray, third; and Baldwin.

- (Months of January, February) Grade X-1. Edith Misener. Grade IX-1. Lois MacCallum. Grade VIII-1. Hilda Chappell and Laura Misener (equal); 2. Barbara MacMillan. Grade VI-1. Gladys Chappell; 2. Linus Misener. Grade V-1. Audrey Douglas; 2. Archie Chappell. Grade IV-1. Doris Chappell; 2. Ronnie Johnston. Grade III-1. Irene Ellis. Grade II-1. Barry Ross; 2. Donnie Johnston; 3. Calvin Chappell. Grade I-No tests. Teacher, Mrs. E. Martin.

Leafs Complain Objects Thrown At Them In N.Y.

TORONTO, (CP)—Toronto Maple Leafs, returning home after Sunday night's 4-0 National Hockey League victory over the Rangers in New York, complained Monday of being the targets of two metal objects thrown from the gallery in Madison Square Garden.

Leafs said puck-shaped pieces of heavy metal, weighing about three-quarters of a pound each, narrowly missed two Leafs players. The discs travelled about 60 feet down from the gallery of the garden.

Players said the first one thrown landed a few feet behind the Leafs when they were lined up at the blue line of the darkened arena while the National Anthem was being played. The second hit the ice 10 or 15 feet from Toronto netting.

Clarence Campbell said he had heard nothing of the metal-throwing incidents. He said the protection of players against such incidents is the responsibility of the home team.

Ohio Hal Wins Heat Victory

TORONTO, (CP)—Ohio Hal, one of three Sydney horses entered in the harness events, took a heat victory at Dufferin Park Monday. The Sydney Sportsmen's Club entry, driven by R. McDonald, headed the second dash in the fourth race, class B pace, after finishing sixth in the first. Maxine's Rose, winner of the first, was sixth in the second. Ohio Hal's time for the one-mile event was 2:30.35.

Ernie Smith's Great Doon, also driven by McDonald, took fifth place in the CC trot with sixth and fourth heat positions, while Joan Chief, owned by Harry Birch, trailed in the class A pace with sixth and eighth heat finishes.

Clarence Campbell said he had heard nothing of the metal-throwing incidents. He said the protection of players against such incidents is the responsibility of the home team.

In Montreal, league president

Eden Blames Egypt For Khartoum Riots

LONDON, (AP)—Foreign Secretary Anthony Eden today blamed Egypt—without specifically mentioning her name—for the riots in Khartoum on Monday.

He told the House of Commons: "A large measure of responsibility must rest upon those who have in the recent past sought to raise the emotional temperature in the Sudan."

"We have repeatedly emphasized that the Sudanese people should be allowed to work out their political development free from all outside interference, and we have scrupulously observed this principle."

Thirty-four persons were killed in the riots including the British commandant of the Khartoum police department.

Britain has previously frequently accused Egypt's present rulers of interfering in Sudanese affairs and of making inflammatory speeches aimed at stirring anti-British feeling.

The Sudan, long jointly ruled by Britain and Egypt, now is on the road toward full self-government.

The country, which has been jointly ruled in recent years by Britain and Egypt, has been promised the right to decide within three years whether to become independent or join Egypt.

PROUD SERVICE

LONDON, (CP)—The British civil service has celebrated the 50th anniversary of its formation, and The Times, marking the occasion, said the quality of the higher civil servant has made the service one of the world's most admired institutions.
