NEW YORK

NEW YORK (AP) — A late rally failed to generate power and the stock market was unable to pull out of a mixed price pattern Tuesday.

As trading increased near the final bell the New York Stock Exchange ticker tape lagged behind floor transactions.

Reports of a sixth weekly increase in steel production, scheduling of automobile output at record levels this month and a gain in new orders received by manufacturers in October failed to make an impression on the market.

After the market's close, Pan American World Airways announced a proposed 2-for-1 stock split and declared an increased dividend. Pan Am lost 2⅛.

Abbott Laboratories advanced 2¼ on a proposal for a 3-for-1 stock split and a dividend boost.

Getty and Tidewater Oil were among the most active stocks gaining 2 and 3 points, respectively.

AP AVERAGE UP

The Associated Press average of 60 stocks edged up .2 to 280.6.

The Dow Jones average of 30 industrials dipped 0.09 to 741.83.

Of 1,309 issues traded, 482 rose and 572 fell.

Volume dropped to 4,540,000 shares from 4,790,000 Monday.

Of the 15 most active stocks, nine advanced and six declined.

Sperry Rand, up ⅜ at 19¼, on 198,700 shares, was the most active for the second straight day. Westinghouse Electric, off ⅛ at 35¼ on 148,700 shares, was second.

Among Canadian issues traded Aluminium Ltd. and International Nickel gained ⅜, Distillers Seagrams lost a point, Rome Mines ½, Walker Goodrham ⅜ and McIntyre Porcupine ⅜.

Prices on the American Stock Exchange were mixed. Canadian Marconi and Jupiter Corp. gained ⅛, Brazilian Traction, Cargo Oil and Scurry Rainbow oil were unchanged.

Announce New Healing Substance... Shrinks Piles, Checks Itch
Exclusive healing substance proven to shrink hemorrhoids... and repair damaged tissue.
A renowned research institute has found a unique healing substance with the ability to shrink hemorrhoids painlessly. It relieves itching and discomfort in minutes and speeds up healing of the injured, inflamed tissues.
One hemorrhoidal case history after another reported "very striking improvement." Pain was promptly and gently relieved... actual reduction or retraction (shrinking) took place.
Among these case histories were a variety of hemorrhoidal conditions. Relief even occurred in cases of long standing, and most important of all, results were so thorough that this improvement was maintained over a period of many months.
This was accomplished with a new healing substance (Bio-Dyne) which quickly helps heal injured cells and stimulates growth of new tissue. Bio-Dyne is offered in ointment and suppository form called Preparation H.
In addition to actually shrinking hemorrhoids, Preparation H lubricates and makes elimination less painful. It helps prevent infection which is a principal cause of hemorrhoids.
Just ask your druggist for Preparation H Suppositories or Preparation H Ointment (with a special applicator).
Satisfaction guaranteed or your money refunded.
