Santa Claus is coming to town. Yes Sir, he officially arrived yesterday afternoon and will be coming back to town every Tuesday and Friday until Christmas. Hundreds of youngsters watched him yesterday as he and his bobbing reindeer took a long ride through many of this city's streets. Of course it was a little different as there was no snow for his sleigh, but Santa easily solved that difficulty. He simply loaded the sleigh, reindeer and himself on a decorated float he used last summer and a modern tractor towed the whole thing along.

Brought here by the express invitation of Holman's big store he will visit the toy department there when he is in town so he can greet all his little friends and hear them say "That's What I Want for Christmas." And Santa will remember so that when countless little eyes are opened wide on Christmas morning they will find under their glistening Christmas Tree many of the things they mentioned and perhaps a lot more that Santa put there to bring joy to their hearts and prove that one day a year there truly is "Peace on Earth to Men of Good Will."

Government Receives Brief From Motor Transport Ass'n

A proposal for increases in allowable axle weights and maximum weights for trucks was contained in a brief presented this week to the Provincial Government by the Maritimes Motor Transport Association. These weights, the brief stated, would conform with other Provinces.

They are proposed to be allowable only on the "black top" roads only and the contention of the Association was that with the accompanying use of larger size tires there would be no increase in weight per square inch on the highways.

Present when the brief was presented were Premier J. Walter Jones, Hon. Eugene Cullen, Mr. William MacKinnon, Mr. Gordon White and Mr. Eugene Gorman. Offering the brief for the Association were Mr. Keith MacKinnon, Mr. Lloyd Enman and Mr. Douglas Moffatt, its directors. The spokesman for them was Mr. W. J. Russell, fleet salesman for the B. F. Godrich Tire Company.

The five-point proposal is to establish 1. axle weights at 18,000 pounds, 2. to increase maximum gross weight on a 2-axle truck to 24,000 pounds, 3. to increase maximum gross weights on three-axle trucks to 32,000 pounds, 4. to increase maximum gross weights on single axle tractors and single axle semi-trailer units to 40,000 pounds, 5. to increase the maximum gross weight on a single axle tractor and tandem axle semi-trailer unit to 50,000 pounds.

Federal Surplus Continues Climb OTTAWA, Nov. 23 - (CP) - The Federal budgetary surplus climbed another \$91,500,000 in October 1951 to \$94,700,000 the total for the first seven months of the current fiscal year, which began April 1.

Revenues in October totalled \$51,600,000 against \$23,600,000 in October 1950. In the seven-month period revenues totalled \$2,159,900,000 against \$1,535,100,000, an increase of \$624,800,000.

Income tax payments by individuals were \$187,200,000 higher at \$361,900,000 for the seven months. This, said the report, was due in part to higher personal incomes and to the defence surcharge imposed in the last budget.

Government expenditures in October totalled \$263,100,000, compared with \$186,400,000 in October 1950. The increase of \$76,700,000 was due mainly to an increase of \$92,100,000 in defence expenditures.

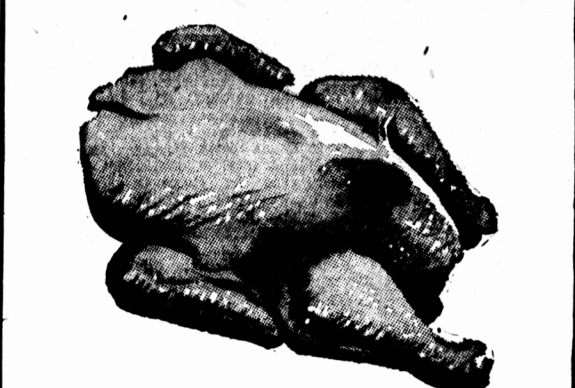

Defence expenditures totalled \$100,700,000 in the month and
