

Niagara Falls. FATALITIES AND WONDERFUL ESCAPES AT NIAGARA.

A correspondent of the New York Times, at Niagara Falls has grouped a number of stories of fatal accidents and of marvellous escapes at that place in connection with the falls and rapids. Of accidents some very strange ones are recorded. One lady stooped for a cup of water, lost her balance, and was out of reach and over the falls almost before her amazed husband knew what happened. Another lady stooped to pick a flower on the brink of Table rock. She was taken up dead from the rocks below. In 1875 an accident equally sad and foolish occurred. An engaged couple went behind the falls, into the cave of the winds, without the guide. She actually sought to bathe in a pool which the guides never visited.

HER LOVER LOST HIS LIFE in trying to save hers. Perhaps the most dramatic accident was the following: A playful young man caught up a charming child who was watching the tumbling waves. "Now, Lizzie, I am going to throw you into the water," he said, and swung her back and forth. She screamed, struggled, and slipped from his hands. He gazed after her, realized what he had done, and leaped. Rescue was hopeless. Perhaps he did not deserve death, and at least censure may die with him.

Of escapes, there are one or two narrow almost beyond belief, and which involve stories of skill and bravery well worth telling. Not many years ago a painter was at work on Second Sister's Island when he fell into the water. He was old and weak, and while his position was not very dangerous at first, he soon floated down and toward midstream when just as he seemed

HOVERING ON THE BRINK, and exactly 40 feet from it, if contemporary records are to be believed, he caught on a rock. How long would his muscles endure the strain? And who would receive him, and how? The crowd was helpless until a guide appeared with a coil of rope. One end he left in trusty hands, and with the other he plunged into the boiling tide. When he reached the poor painter the old man still held in his hand the putty knife with which he had been working. He shifted the knife to his pocket, tied the painter to the rope, and they reached the shore safely. In another case a boatman was crossing the river above the falls, when a fog suddenly came up. He lost his bearings and knew he was drifting to death. His cries alarmed the village, and bells were rung for him to row towards them.

THEN AN OAR BROKE. His only hopes then lay in a paltry little anchor, and a common rope, which was, moreover, much worn. He examined every foot, nay, every inch of it; he tugged at the knots at each end. Time and space were precious, but he could not afford to make a mistake. Then he threw it over. It bumped along the stones, and his heart beat each time it failed to catch a grip. At last it caught and brought the boat up standing, while the tense string throbbed like the bass gut of a herb. For the moment it held. How soon would it part. He shrank from feeling along the strands. He was more afraid not to, least he should read his fate in the twine tense and twaning under the current. Inch by inch his fingers travelled to his arm's length. So long as it held there he was safe. Time and time again through the long night he did this but never, he said, without a heart lick lead and hands quivering like a leaf. When morning dawned, as at last it did, he was easily saved. In another, the danger to life, though considerable, was not imminent. A tug was towing three scows, when one went adrift. With admirable promptness and address the captain of the tug cut loose the rest of his tow and steamed for the drifting barge. There he held it by steam power, and when the others came along a line was passed, the throttle was thrown dead open, and it was sought to make way up stream. But they had drifted fairly within the grasp of the spirit of the waters, and for a time it seemed he would not let go his own. Finally a foot was gained in a few minutes another, and then the tug-of-war was virtually over. An "escape" of another sort was that of a murderer. The sheriff was behind him, the river in front, and only the wires of the old bridge at Lewiston to help him across. Hand over hand he began the passage. His hands quickly blistered, and then they bled. Again and again he rested his arms by hanging by his legs. At last he reached the opposite bank and lay panting full an hour before he continued his fight. The feat was certainly a remarkable one for an amateur.

THE GREAT FRENCH REMEDY, DR. LeDuc's Periodical Pills.

For the cure of Leucorrhoea or White's Effluvia or Painful Menstruation, Green Sickness, Falling of the Womb, Catarrh of the Uterus or Vagina, Hysteria, pain in the Back, or Piles, or for the purpose of invigorating and giving tone to the Generative Organs, two pills should be taken twice daily, or in very severe cases, one pill three times a day. To effect cures in chronic cases it will be necessary to continue the use of the remedy for some months. A reasonable trial will create sufficient confidence in the remedy to insure its being taken until a permanent cure is effected.

Dr. Bennet, Halifax. DEAR DOCTOR,—Just a few lines as promised by me. I am more than pleased with the "Liver Pad" I got from you when in Charlottetown, and can conscientiously say that it is the best thing I ever saw or heard of. It has done for me what all kinds of medicine and different physicians could not do for me. I.e. removed a very nasty body eruption, which had given me a great deal of annoyance for more than two years; and more than that, I have not been troubled with a single headache since I have used it. Before wearing the Pad I was troubled with severe headaches continually; and that very objectionable feeling of sluggishness and dullness has entirely left me—in fact I am a new man, to what I was before wearing it. I am truly thankful to you for what you have done for me, and I hope that you may be long spared to the benefit of the public. Believe me, Yours sincerely, FRANK ELLIOTT.
