GENERAL TELEGRAPHIC NEWS.

WINNIPEG, Sept. 9.—Manitoba has every reason to be proud of its magnificent crop this year. There will be close on to twenty million bushels of wheat, nearly five million more than last year, and every particle has been saved without the slightest damage from frost or wet. The great bulk of it will grade No. 1 hard. Of 75 cars received recently from all points by the Ogilvie 72 graded number one hard. Fifteen million bushels will be exported. This means at present low prices, about \$6,000,000 are to come into the province this fall. As the farmers have been very economical for the past two or three years, this amount of money ought to be immediately available for the purchase of new supplies instead of having to pay old debts, as in the years when the future had been heavily discounted. Further, since the purchasing power of a dollar is now greater than a few years since, this amount of money means a good supply of necessities and comforts for our population during the coming winter. The whole situation is such as to lead to a very hopeful view of the future.

LOSOS, Eng. Sept. 9.—The letters of Lord Brassey continue to make a stir here in circles favorable to or interested in the fast Atlantic line. Lord Brassey makes this time saying so directly, insinuates that the Earl of Jersey has reported to the imperial government in favor of the fast Atlantic subsidy, basing his request on the discussion of Ottawa on that subject. The impression that the earl had so recommended has been prevalent here among those interested for the past few days. Now the assumption of Lord Brassey makes this feeling more of a certainty. Lord Brassey points out that when the imperial government shall have paid £75,000 subsidy, Australia must contribute £50,000 and Canada £25,000 for the respective Pacific and Atlantic services. His lordship is an ex-member of the Rosebery government, and his espousal of Mr. Hildart's scheme has drawn still more attention to the matter.

NEW YORK, Sept. 9.—The attitude of the striking tailors remains the same. There is no change in the situation today. A conference was held between the brotherhood's strikers and the executive committee of the contractors, but no satisfactory agreement could be arrived at. The contractors say they will proceed to fill the places of the strikers. The Knights of Labor, who struck a few days ago, are still out. They hope to come to an agreement with their employers tomorrow.

HALIFAX, Sept. 9.—Newfoundland mail arrived by steamer say the Gloucester schooner Effie M. Morrey arrived at Bay of Bulls from the Banks. She picked up in an extremely exhausted condition Lewis Dwyne and Joseph Atwood, of the Gloucester schooner Bessie Dwyne, who had been conveyed in a fog and had been six days drifting about in a dory when rescued.

LOSOS, September 9.—The Daily News comments on the prospect that work on the Panama canal is to be resumed. "The good will of the concern as it stands, cannot be worth much, nor are American or French capitalists the sort of people to pay overmuch for sentiment. If £20,000,000 can complete the work there seems no reason why commercial success should not dawn on the enterprise at some distant day."

A despatch received by the Standard from Paris this evening says:—The issue of the new shares in the Panama Canal company is fixed for the 18th. The capital is to be 65,000,000 francs, of which 5,000,000 will be handed to Columbia for prolonging the concession until Rev. D. 900 have already been disposed of by the liquidator, whose legal actions compelled contractors and others associated with the old company to take up that amount, leaving about \$20,000,000 to be subscribed. The shareholders and bondholders of the old company have preference rights to subscribe. The directors include representatives of the Credit Lyonnais, Credit Industriel and the Societe Generale. The liquidator will hand over all the machinery, plant, etc., of the old company to the liquidation fund, getting in return fifty per cent of the profits in the new one.

TREBO, N. S., Sept. 9.—The congregation worshipping in the First Presbyterian church here, was first organized 124 years ago. The first pastor, Rev. D. Cook, began his ministry here in 1770, and labored till 1802. Since that time there have been three pastors: Rev. John Wadley, Rev. Dr. McCulloch, Rev. John Robins, the present pastor.

LOSOS, Sept. 10.—The Daily News publishes a despatch from its Paris correspondent saying: "I learn from a Royalist, who was in frequent correspondence with the Comte de Paris, that the Comte's private income, apart from his wife's, or the interest on the fortune that the Duchesse de Galliera gave him for political purposes, amounted to 1,500,000 francs yearly."
