NEWLY INTRODUCED.

Sensation Caused in Barnaby River, N. B., by Dodd's Kidney Pills.

Barnaby River, N. B., May 14.—Quite a sensation has been caused here lately by the introduction of a new medicine—Dodd's Kidney Pills. Although there had been many deaths in this village and surrounding district from Bright't Disease and other kidney troubles, yet strange to say Dodd's Kidney Pills had never been tested. Our people had little faith in patent medicines.

Now, however, Dodd's Kidney Pills are creating a sensation. A large number of people are using them and expressing surpise and delight at the result. "From the first week I began to improve," says Cornelius Crottie, of Barnaby River, who had been given up by the doctors. The fact seems to have surprised him, but it is always true where Dodd's Kidney Pills are used.

Galt has sent $800 and about eight tons of clothing and merchandise to the Ottawa and Hull fire sufferers.

Proud of His Labels.

A distangy looking young man boarded a Fourteenth street car at Massachusetts avenue the other night. He was carrying a leather suit case. Pasted all over the suit case were labels indicating much foreign travel—steamer pasters slapped on at Dieppe, Havre, Ostend, Bremen, Cherbourg, Liverpool, Yarmouth, Naples, and railroad labels that bore the names of all lines all the way from Constantinople to St. Petersburg. The young man of distangy appearance put the suit case down between his legs, and all the people in the seats opposite began a fascinated sort of inspection of the labels. A stout man with several of the component parts of a jag who sat next to the young man seemed to regard the labels with particular interest. He stooped over and deciphered them carefully and elaborately, and then he looked up at the owner of the suit case with a leer.

"Been around right smart, hain't you, podner?" he inquired.

The young man regarded him with a smile.

"Never been farther away from Washington than New York in my life," he replied, without any hesitation whatsoever. "I got that whole bunch of labels for half a dollar at a little money exchanging joint, down near the Battery, in New York. Hot scheme, isn't it?"

The frankness of the statement so dazed several of the passengers who overheard it that they got off at the wrong theater.—Washington Post.

The Stag Beetle.

As you walk by the hedgeside a strange noise suddenly arrests your attention. It is the buzz of an insect, but loud enough to startle you. It might be mistaken for the reeling of a night jar, but it is perhaps more like the jarring hum of a fastly driven motor car.

The reason of the noise is that the beetle has with great pains climbed up a certain height from the ground, and in order to ascertain whether he has got far enough, he erects himself on his stand, lifts his wing cases, shakes out his wings and begins to agitate them violently, turning this way and that to make sure that he has a clear space.

If he then attempts to fly—it is one of his common blunders—he instantly strikes against some branch or cluster of leaves and is thrown down. The tumble does not hurt him in the least, but so greatly astonishes him that he remains motionless a good while; then, recovering his senses, he begins to ascend again. At length, after a good many accidents and adventures by the way, he gets on to the topmost twig, and, after some buzzing to get up steam, launches himself heavily on the air and goes away in grand style.—Longman's.

Looking Out For Alma Mater.

No doubt the casual observer has often noticed how unceasingly bequests flow into the treasuries of certain universities, but he may not know that the alumni of those institutions, particularly the lawyers, have it always on their minds to secure, or at least to suggest, bequests.

One of these men, a prominent corporation lawyer of this city, was speaking of the custom the other day. He explained that a lawyer and his client usually sit down to talk over the general subject of a will. If the client has more than enough money to meet the actual needs of his family, he commonly says something of charitable or educational institutions, generally in a vague way, which makes it quite natural for his lawyer to suggest as a definite object his own alma mater. The lawyer referred to had himself secured several bequests, one of them for the sum of $500,000. "But," said he, smiling, "a young lawyer in my office has just cut me out of $100,000, which he put in a will for his own alma mater. It was a very good stroke on his part, the more so because our respective universities have been bitter athletic rivals for years."—New York Mail and Express.

Rather Cold Blooded.

Of the tactics of infantry there is no end, but there are some simple rules for the individual foot soldier to remember when lost in the chaos of battle. If you cannot bayonet your enemy, shoot him. If he goes away, aim at the base of his spine. But do not let your attention be distracted from business by the consideration that other people are making a mark of you. It is your duty to kill the highest possible number of those opposed to you, not to save your own skin.—"How Soldiers Fight," by F. Norreys-Connell.

Good Cheer.

"Now tell me, doctor, candidly, is there anything really the matter with my wife?"

"Yes. Her vocal cords are sadly affected. I'm afraid she may lose her voice."

"Say, drop in on your way back from the office and chat awhile, will you? Things have been going badly with me lately and it's so comforting to hear you talk."—Chicago Times-Herald.

A Strong Hint.

Harry wanted to give Lucy a birthday present, but could not make up his mind what it should be; so the next time he called he frankly told her the difficulty under which he was laboring.

"Want to make me a present, Harry?" exclaimed Lucy in well counterfeited astonishment. "Why, Harry, you forget yourself!"

Harry took the hint and offered himself on the spot.

Life In a Flat.

"Where is my folding pipe?"

"I don't know, James, but the folding matches are on the folding mantelpiece."—Chicago Record.

HEARING COMPLETELY RESTORED.

Catarrh caused the deafness, but Japanese Catarrh Cure cured the catarrh, allayed all inflammation and restored the hearing after physicians in Toronto and Winnipeg failed.

Mr. D. N. Spencer, 11 Coolmine ave., Toronto, writes:—"For over twelve years I have suffered from catarrh, white, in spite of doctoring with specialists in Toronto and Winnipeg, became worse, until finally my hearing became much affected. About a year ago I procured a sample of Japanese Catarrh Cure, afterwards used in all four bottles; since I have been completely free from catarrh, and my hearing has altogether returned. I can cheerfully and conscientiously recommend it." All druggists, 50 cents. Write for book on Catarrh and Deafness, free. Griffiths and Macpherson Co., Limited, 121 Church street, Toronto.

"THIS IS CANADA YEAR"

WHY RIDE A CLEVELAND?

Because it is the highest type in the art of bicycle construction to-day—it's popularity is world-wide.

It is beyond competition and courting criticism in a constituency that has been well grounded in the appreciation of all the fine points in construction, development and improvement.

It is a Canadian wheel, made by Canadian mechanics and in a Canadian factory—by Canadian machinery and employing Canadian capital.

The ideas embodied in its construction are acknowledged the best by leading cycle manufacturers, and some of its newest and most important features and improvements for 1900 are:

Hardened block and pin which prevents the chain from wearing—combined ball and roller bearings—automatic oiling hubs—dust proof skeleton gear case—improved ball head spokes—dust proof pedals—improved sprockets—improved handle bar and seat post adjustment—chainless models, combined coaster and brake, and it's one of the handsomest and most perfectly equipped machines on the market—ladies and gents'.
