Strange But True

By F. H. MacArthur

K. Y. Parker of Durham, Pictou County, in Nova Scotia, is the proud owner of Siamese twins, joined at the wrist, and having two complete organ systems. Both females, they have eight legs, four ears and a couple of throats, one mouth, one nose, a pair of eyes and one head. No they are not girls. They are a pair of freak pigs which arrived recently among a litter of sixteen. The mother, a 2-year-old Yorkshire sow, is every bit as proud of her odd youngsters as is her owner.

The man was Milton M. Tuck. A waitress in the diner said Tuck ordered steaks for himself and a friend, commenting as he passed over \$5 for the steaks that he had changed his last \$10 bill.

No sooner had Tuck started to luck away the meat when he started choking. The waitress sent out an s. o. s., but Tuck passed in his checks before he could be removed to hospital.

When there's valuable ore in them that hills nothing can stand in the way of getting it out. A Chicago engineering company is moving a lake near Aitkakan, On-tario to dig iron ore from its bot-tom.

Steep Rock Lake measures about one square mile. Test drilling showed that 400 feet under the surface of the lake was a huge iron ore deposit, called the Hogarth. Two hundred tons of water and 70,000,000 tons of mud will have to be moved before mining operations can get into full swing.

A suction pipe, fitted to a dredge, operates like a giant vacuum cleaner, sucking up the mud and pumping it 400 feet uphill to an old excavat-ion. The over-sized vacuum cleaner has a capacity for lifting 75,000 tons of clay every 24 hours.

IMPORTANT NOTICE To Eczema Sufferers. Scientists' Discovery - Successful Treatment Found. Discovery by eminent scientists that one of the main causes of skin diseases can be a lack of essential fatty acids in human nutrition, has already brought blessed relief to many thousands of former sufferers. It took ten years research to extract from pure vegetable oils essential fatty acids with a high concentration and found in F "99" - the Swiss treat-ment for Eczema. F "99" is taken internally (capsules) and applied externally (ointment). To many thousands who have already benefited by the F "99" Two-Way Treat-ment, this is an important reminder to replenish the system at this time of the year by taking a course of F "99" capsules, one per day, for a few weeks. If you are not an F "99" user, obtain a copy of the fully descriptive 16 page F "99" booklet. Simply write to Diva Laboratories, Dept. 175, Saanichton, B.C.
