MASONIC.—A special meeting of St. John's Lodge, of A. F. & A. M., will be held at their Lodge Room this evening, at 8 p. m., to confer Degrees.

PLANKWAY WANTED.—We again direct the attention of our civic authorities to the need of a good plankway on Water Street sidewalk, between Prince and Hillsborough Streets.

THE STRENGTH OF THE RIOTERS.—Good authorities do not estimate the total number of strikers all told as over ten thousand. But as for the turbulent spirits whom their example has spurred on to riot and destruction, their name is legion—*U. S. paper.*

UNITED STATES IMPORTS.—The United States importations for the past eleven months, ending May 1, amount to about $442,000,000. Of this $296,000,000 was dutable, and $145,000,000 free of duty. The domestic exports in the same period amounted to about $590,000,000.

MINERALS IN P. E. ISLAND.—While boring out a well with a three-inch auger, on the farm of Mr. Frank James, between the Marie and Migell Road, a few days ago, Councillor Millner struck a vein of lead ore. He brought a specimen which he "panned out" to town, and showed it to several of our leading citizens yesterday. The vein struck is about thirty-seven feet below the surface and eight feet in the rock. Its size is yet unknown.

SAD EVENT.—A very sad affair is reported from the north end of the city. It appears that a poor woman whose infant child was sick, purchased a gill of brandy, for the purpose of giving the infant an occasional teaspoonful. The cup in which was the brandy, was left on the shelf; a child two years old got at it unobserved, and drank the contents. The natural result followed. The child was thrown into a stupor, from which it never recovered.—*Hx. Herald.*

CAPTURED.—On Tuesday morning Marshall Flynn and officer Shea left for Georgetown in search of two chaps—James Kelly and James Goodman—supposed to be implicated in the burglary committed on Byrne's liquor store. Shortly after arriving in Georgetown they traced the parties to a vessel in which they were hiding at the time the marshal and officer arrived. They immediately boarded the vessel, and after searching for some time found Kelly hid in the stern. He was taken from his hiding place and searched, but no money was found on his person. Marshal Flynn detected him struggling to swallow a lump which he said was tobacco, but the Marshall thought differently and immediately seized him by the throat and compelled him to spit out the contents—a five and one dollar note. Goodman was found in the forecastle and immediately arrested, and both were imprisoned for the night. Yesterday morning they were transferred from that place to the jail in this city.

Local and Other Items.

OPENING OF UPTON DRIVING PARK.—A number of gentlemen, members of the Upton Driving Club, met at the Park yesterday. They were much pleased with the track and the beautiful appearance of the Park generally. It was quite a pretty sight to see the horses in training going round the track, with now and then an exciting struggle for the lead. A very fine mare, owned by R. R. Hodgson, Esq., showed much speed for an untrained one With a little more teaching she will be quite a trotter.

STIPENDIARY MAGISTRATE'S COURT.—At the Stipendiary Magistrate's Court yesterday morning, Miss Mary Young was fined $3.00 or 14 days for being drunk and incapable; committed. James Nicholson, for being drunk and incapable, fined $3.00 or 14 days, paid; James Gates, drunk and incapable, fined $1.00 or four days; Michael Purcell and Francis McCarthy, on complaint of Bridget Meade, for larceny—Purcell was imprisoned for six calendar months with hard labor, and McCarthy was remanded for 8 days.

The tenders for macadamizing Pownal, Euston and Water streets were read and deferred till after the Civic Election.

A large number of monthly accounts were read and ordered to be referred to the Finance Committee to be certified.

Adjourned till Saturday morning at ten o'clock.

THE LABORERS' SIDE OF THE QUESTION.

A United States' correspondent of the Halifax *Morning Chronicle* says:—

"To illustrate the way in which wages have been reduced fifty per cent. within the past four years, I will give you a specimen case, and this will apply not only to railroading but to nearly all the industries of the country. Four years ago John Smith, a brakesman on the Erie Railroad, was earning $12 a week. On this sum he could support himself, wife and children, and even live luxuriously. But the panic of 1873 came and John's wages were docked 25 per cent., leaving him $9 a week. This was a big come down and he grumbled mightily, but after a while rents fell, a trifle, clothes became cheaper, and by paring down a few of his luxuries he managed to jog along pretty comfortably. Eighteen months go by; but no reaction, no revival in trade is visible, so the rival railroads having nothing better to do take to cutting each other's throats and their own by underbidding each other for freights and passengers. Of course the game of "beggar my neighbor" is not a paying one, and who is to make good the deficit but honest John? The companies may quarrel among themselves, but they agree in thinking John an overpaid man, and so a further reduction of 16½ per cent is made from his $9, leaving him a balance of about $7.50 per week. John storms, swears and threatens to strike, but he is not organized for resistance. His children must have bread and fire; the companies talk sweetly about better times ahead, etc., and he moodily submits to his fate. Being a sensible man he stops his grog, cuts down his beer, and wears last year's clothes. His cup of tea may not be so good and strong, and there may not be much meat seen on the table, but there's a good time coming, boys, and it's a long lane that has no turning. Another year is past but the good time fails to come—indeed, the prospect is darker than ever. Savings banks one after another go to the wall, until two-thirds of them are closed against the depositors, and if John had anything laid up in them for a rainy day—a death in the family for instance—he will be a lucky man if, after long delays, he gets a dividend of fifty per cent."

To the Editor of the Examiner.

DEAR SIR,—Mr. Horn asks me, in his letter to Mr. Booth, on the 27th July, why I did not "publish" the facts concerning the McKenzie Harrow; and he goes on to state about a good harrow that I returned on purpose to injure a party. Now, he knew that it was a very different cause and reason at the time that he was writing so. Because in his letter, a few lines before where he makes this demand, he states that he saw it in the Champion Journal, and the letter which he alludes to there, contains the whole facts. Well, I will state the facts again on my own account, and to show what he stands on. There are simply these: I had two Cultivating harrows in view. They were both made on the same principle, but one was much more improved than the other, and each party said that his Harrow was the best.

I needed one of the said harrows and wished to find out by testing on my farm which of the two would please me best, and each of the parties willingly agreed to this, and I kept the harrow that I liked best although I had to pay five dollars more for it than I would have to do for the one that I returned. Mr. Horn says something in the same letter to Mr. Booth, that people living in glass houses should not throw stones, and I thought this speech very unlucky from him. Let him look into his own house a little more than a generation back and he will find something there that the law of the Jews would make us throw stones at. And, as it is a law of nature that like produces like, and that bad shows itself in many forms, hence all this wind.

CIVIC CARD.

HAVING been urged by a number of influential citizens living in Ward 5, who deem a change at the Civic Board an absolute necessity, to offer myself as a candidate for their suffrages at the approaching election, I do so, and I beg to assure you, Gentlemen, that should you think proper to elect me, I shall endeavor, as far as possible, to keep the city's expenditure within the limits of its income. With regard to the Water question I shall not support any measure for its introduction until it shall have recommended itself to my judgment as being thoroughly practicable. All other matters concerning the general weal of the city shall receive my careful attention.
