Trains are run by Eastern Standard Time.

**J. UNSWORTH,**  
Superintendent.

Railway Office, Charlottetown, May 27th, 1889—all pre 6i

### Local and Other Items.

**QUEEN SQUARE.**—What about that fence?  
CIVIC.—This is civic election day in St. John, N. B.

**CITY COUNCIL.**—The regular monthly meeting of the City Council will be held on Monday evening next.

**CUSTOMS RECEIPTS.**—The Customs receipts for St. John, for May, were \$71,246, a decrease of \$7,000 from last year.

**SCOTT ACT.**—It is said that another effort is to be made to enforce the Scott Act in the north end of St. John, (late Portland).

**ALL HUMORS** of the scalp, tetter sores, and dandruff cured, and falling hair checked; hence, baldness prevented by using Hall's Vegetable Siccilian Hair Renewer.

**INDIAN OUTBREAK.**—News has been received of an Indian outbreak in Keys, Paha County, on the northern frontier of Nebraska. Families from all parts of the country and along the Dakota line are hurrying into the town of Nordon, and the place is being fortified.

**THE VOCAL ORGANS** are strengthened by the use of Ayer's Cherry Pectoral. Clergymen, lawyers, singers, actors, and public speakers find this preparation the most effective remedy for irritation and weakness of the throat and lungs, and for all affections of the vocal organs.

**AN IMPORTANT DECISION.**—Judge Gill, of Montreal, has decided that a commercial traveller cannot recover the value of a trunk destroyed on the train while he was travelling on a reduced rate ticket, on the back of which the company denies the responsibility in such cases.

**AFTER INCORPORATION.**—The St. John sugar company (limited) is about being incorporated under the Joint Stock Companies Act, with a total capital of \$140,000. The present annual consumption of molasses and syrups, in the Maritime Provinces, amounts to 24,000,000 gallons, or nearly 15,000 tons.

**YACHTING.**—The match of the Royal Thames Club, on the 2nd, was, according to a London despatch, the most important event had on the Thames this season. The course was 60 miles, with prizes of £100, £10, £20. The Valkyrie won, the Irex was second and the Yarana third. The wind and tide were favorable over the whole course. The official time was: Valkyrie, 6h. 21m. 5s.; Irex, 6h. 25m. 50s.; Yarana, 6h. 35m. 55s.

**A FICKLE WOMAN.**—At Carthage, Mo., on Sunday week, J. S. Pritchett, of Idaho, and Miss Bettie Imel were married. An hour after, as the two were standing in a store, Henry Ulmer, an old admirer of the girl, entered and spoke to the bride. She left the store in company with Ulmer. Pritchett waited a while and started in search of his wife, but has as yet been unable to find either of the elopers.

**CAUSE AND EFFECT.**—A California philosopher evolves the theory that the many divorces in that state are due to the coldness of the climate and the high price of coal. In the evening, he says, it is so chilly that the husband and wife can't sit down comfortably as they do in the east, and with coal at \$15 a ton they can't afford to use it. So the husband gets into the habit of going out for a walk in order to keep warm, and the wife often gets into the same habit. Divorces soon follow.

**AN ATHLETIC EQUINE.**—The North Sydney, C. B., Reporter says: A most extraordinary horse feat occurred Monday. A big white equine owned by a man named McDonald, apparently terrified at something in the barn in which he was, decided to make his escape. When somebody went to the barn in the evening the horse was missing and so was a window sash, composed of 8x10 panes of glass, from the side of the barn. The horse was found down the Barrack Point with the window sash on him. He was badly skinned, but no bones were broken.

**ADVICE TO MOTHERS.**—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. (April 1 '88)

**DIPHTHERIA'S RAVAGES.**—St. John's, Nfld., advices of the 20th say that diphtheria is still raging with unabated fatality. Everyone seems to be in dread of this now terrible plague. There were thirty deaths in ten days, or an average of three deaths per day—all victims of diphtheria. The Board of Health have advised the closing of all schools and churches, as convalescents have been known to attend those institutions before they have been properly free from infection. All infected houses are quarantined.

**SHE DIDN'T SEE IT.**—A very good story is told in the St. John Progress about the Metropolitan of Canada. His Lordship was travelling some years ago in one of the thinly settled districts of the province, making a tour of inspection with a view to the establishment of future missions in those parts of the country where there were a sufficient number of church people to make it advisable. Hotels were unknown in this primitive spot, so the Bishop put up at a farmhouse. And in course of conversation he asked the good wife if there were any Episcopalians in the neighborhood. She gazed at the head of the church in puzzled silence for a moment, and then said: "Well, I don't know, sir, I'm sure; the men killed something under the barn yesterday, and it might have been one for all I know, but I did not see it."

### LETTERS TO THE EDITOR.

#### The Check Rein.

SIR,—Would you kindly allow me space in your valuable paper for a word or two in respect to the Society for the Prevention of Cruelty to Animals. I was very much pleased to see that a number of ill-favored horses were removed through its influence. But there is another matter which I think should be attended to at once, that is the use of check reins. It is most unfair to prevent poor men from working poor horses, when it may be the only means they have for getting a living and allow rich people to torture them with check reins. Hoping this may start some one thinking, I am  
Yours, &c.,  
S. CHAMPION.  
Charlottetown, June 4, 1889.

#### Renouncing The Creeds.

SIR,—In your summary report of Mr. Carney's address at the Lyceum, there are several important omissions, which should be made public. In speaking of Protestant creeds, he avowed his disbelief in infant baptism, the doctrine of fore-ordination, close communion and future punishment, adding that he favored the doctrine of the annihilation of the wicked. As reported in your paper, he looked forward to a new universe, a new God, a new man and a new destiny, and said that from the new heaven would smile, a grander God, &c.  
I think it is only just to the people with whom Mr. Carney has associated to know what he has to say about their creeds, therefore I ask you to publish this short communication.  
Yours truly,  
CITIZEN.  
Ch'town, June 4, 1889.

#### Souris Notes.

Last Thursday Captain Anderson caught 40 and to-day 64 mackerel in a net.

Last Saturday the Gertie Evelyn called here for bait, but got none. She is fishing for halibut.

Capt. John McDonald, West Point, on his way down round Cape Breton Island, reports good prospects for mackerel. He says the mackerel are schooling all along the coast.

The schr. Georgina, Capt. Myers, of Lunenburg, arrived this morning, loaded with flour from Boston to Souris merchants.

#### Boston Markets.

BOSTON, May 31.

**POTATOES.**—Receipts past six days 42,500 bush; previous six days 46,000 bush. Trade in old potatoes continues dull and unsatisfactory. Rose are now but very little called for, and the best of them hardly quotable at over 50 cents. Choice hard eastern Hebrons are fairly steady at 55 to 60c. Burbanks plenty and have to be sold at low prices. P. E. Island Chenangoes in full supply, and ranging from 45 to 50c, as to quality and condition. Receipts of new potatoes are increasing, but are running irregular in size and quality, and sell at a wide range accordingly, some of the best selling at \$6.00 to \$8.50 with inferior marks dragging at \$3.00 to \$4.00 per bbl. Culls are not wanted at any price.

Advices of June 1st say that potatoes are firmer and are quoted higher for Chenangoes and Burbanks. Trade is fairly good. P. E. Island Chenangoes, 55c.; New Brunswick and Nova Scotia prolifics, 40c.; Burbanks, New York, 35c.

**EGGS.**—Receipts for the week 267 boxes, 74 bbls., 13,397 cases; last week 3 boxes, 209 bbls., 13,751 cases. The market has been quiet for the past week, with little if any change in prices. P. E. Island receipts continue liberal and sell fairly at 13 1/2 cts. Most lots of western are also selling at 13 1/2 cts, and it takes a strictly extra mark to bring anything more. Eastern extras continue in light supply, and work out in small lots at about 15 cts.

**MACKEREL.**—There is but little to report in the fish market. The market is in a very quiet state and no improvement will be noted until new mackerel begin to arrive. Old mackerel are practically out of the market. Dealers are holding the few on hand at \$25 for Is and \$28 to \$30 for extra Is. The trade is all waiting for new mackerel. As the trade has been much broken up by the scarcity of fish, and high prices that have ruled during the past season, it is not known what the new fish will open at, as the trade must practically be worked up again. Some schools of mackerel are reported, but not definitely enough to form any basis for an opinion as to the prospects for a catch. Those that have been reported may have been mackerel or porgies, which 'tis not certain. Vessels continue to fit out and start for the fishing grounds, but the number of vessels in the fleet is sure to be considerably less than last year, at least at the start.

**CUSTOMER.**—"You sell cracked eggs at half-price, do you not?" Clerk—"Yes, sir, we always make a fifty per cent. reduction on cracked goods. Anything else to-day?" Customer—"Yes, you may give me a dollar's worth of cracked wheat, and here's your fifty cents."—*Omaha World.*

**"MY DAUGHTER** was greatly troubled with Scrofula, and, at one time, it was feared she would lose her sight. Ayer's Sarsaparilla has completely restored her health and her eyes are as well as ever, with not a trace of scrofula in her system.—G. King, Killingly, Conn.

**BANKRUPT'S WIFE.**—"Well, at any rate, the Thompson failure was worse than ours," Sympathizing Friend—"Why, I thought it was just the other way." Bankrupt's Wife—"No, indeed; Edward only failed for ten cents on the dollar, while Mr. Thompson failed for fifty."—*Harper's Magazine.*

### The School Board.

THERE was a meeting of the School Board last night. The members present were J. Ings, A. Kennedy, T. Handrahan, J. B. Macdonald, T. Foley and D. Farquharson, Esqs. In the absence of the Chairman, T. Handrahan, Esq., presided. We understand that arrangements were made for the yearly examinations of the schools which are to be held on the 26th, 27th and 28th inst. The retiring members of the Board this year are D. Farquharson and A. Kennedy, Esqs. The schools are to close on the 28th inst., and open on the 19th of August. After some discussion on other matters in connection with the city schools the meeting adjourned.

### News Notes.

The Parnell-Times libel suit has been postponed.

Great damage has been done by storms in France.

After the hens have been there the oft-quoted line is revised to read: "Come into the garden mad."

A Boston statistician states that seven-tenths of the marriage engagements that are broken are broken by women.

A housewife at Gridley, Cal., while dressing a chicken for dinner, found in its crop a diamond, which was sold for \$185.

There are more than 80 national cemeteries in America, containing in all 315,555 graves. Of these 133,146 are the graves of unknown soldiers.

An ingenious machine for making cork-screws is one of the curiosities of the American department of the Paris Exposition. It ministers to a great and growing industry all over the world.

Prominent citizens of Seattle, W. T., declare that the Canadian Pacific Railway should be supported by the people of that section as the only hope of counteracting the monopolistic tendencies of the Northern Pacific.

The Brooklyn bridge was six years old on Friday. Since its opening 21,596,935 persons have walked across the structure and 125,138,594 passengers have gone over on the cars. The total receipts have been \$4,287,497.90.

Professor Selwyn, in a letter addressed to Hon. John Carling, expresses the opinion that natural gas does not exist under London, Ont., but intimates that the gas might be found along a line between Kingsville and Stratford, and suggests that the latter place is favorably situated for a trial.

Dr. W. D. Johnston, who is delivering a series of scientific lectures in San Francisco on the lower forms of animal life, says the oyster is capable of being educated in a limited way. As a little learning is a dangerous thing this explains why the oyster is always getting into a stew.

Miss Lighted—"I was very much admired at the wedding reception last night. I noticed one gentleman who never took his eyes off me the whole evening." Miss Sharpe—"Did the gentleman have a black moustache, waxed on the ends?" "Yes; do you know him?" "I know of him. He is a detective. He was there to watch the presents."

### Personal.

Daniel Cameron, of Meat Cove, Victoria, N. S., died at that place on Monday week, at the advanced age of 102 years.

It is understood that Professor A. H. McKay has resigned the Principalship of Picton Academy to accept the position tendered him by the Halifax School Board.

Lady Randolph Churchill is about to make her debut in literature, it is said, with an article in *Longman's New Review* on her experience in Russian society life.

The New Glasgow *Enterprise* says:—George Kennan, the Siberian traveller, has given up his Washington home. For the next year or two he will be busy with lecture engagements and in the summer will live in Cape Breton.

### A Far-sight Machine.

Mr. Edison is reported, in a conversation with a reporter who solicited his ideas on the subject of the projected world's fair in New York City, as saying that he would take an acre of space in such a fair and completely cover it with his inventions, of which he has no less than 70 now under way. "One of the most peculiar, and now promising good results," said Mr. Edison, "is what I call a far-sight machine." By means of this extraordinary invention the *Electrical Review* says, he hopes to be able to increase the range of vision by hundreds of miles, so that, for instance, "a man in New York could see the features of his friend in Boston with as much ease as he could see a performance on the stage." "That," he added, "would be an invention worthy a prominent place in the world's fair, and I hope to have it perfected long before 1892."

### Your Life in Danger.

Take time by the forelock ere that rasping, hacky cough of yours carries you where so many consumptives have preceded you; lose no time, but procure a bottle of the rational remedy for Lung and Bronchial Diseases, Scott's Emulsion of Cod Liver Oil, with Hypophosphites. It will cure you. Sold by all Druggists at 50c. and \$1.00.

**AN OLD CHURCH.**—Trinity Church, in Kingston, King's County, is the oldest in New Brunswick. Its frame will have been raised 100 years on the 27th inst., and the parishioners intend to celebrate the event on that day by holding a commemoration service in the church.

### DIED.
