Black and White Effects.
 Black and white effects again figure largely in the domain of both fashionable dress and millinery. Black and white silks, satins and brocades just brought from over the sea are set forth by leading importers. Black and white taffetas, surahs, failles and other fancy silks and liberty textiles appear. Black and white checks and plaids are being formed into stylish spring costumes by the fashionable dressmakers, and Frenchwomen are now wearing black and white satin brocade shirt waists with their stylish black cloth skirts. Waists of black and white or gray and white stripes or dots are always good style, whether made in the manner of the cotton shirt waists or with full fronts turned back with white revers over a tucked chemise of fabric to match. A full blouse of cream white silk or satin, covered everywhere with a drapery or veiling merely of jetted black net, often proves the most becoming of all waists a slender woman of indifferent complexion can select. Sometimes cream ribbons matching the blouse are the most satisfactory additions she can make to the waist; again, a bow of soft pink or brilliant cerise satin works wonders of improvement.—New York Post.

Crossing Swords in the House.
 Away back in the seventies, during the famous deadlock fight on the civil rights bill, the question of the adjournment of congress was under discussion one Saturday afternoon. Ben Butler, that born wit, had stepped over to Sam Randall's desk for a private consultation. Butler favored a Sunday session, while Randall opposed it vigorously. "Bad as I am, I have some respect for God's day," said the famous high tariff champion, "and I don't think it right to hold a session on the Sabbath." "Oh, pshaw!" responded Butler. "Doesn't the Bible say that it is lawful to pull your ox or ass out of the pit on the Sabbath day? You have 73 asses on

The Deal Was Off.
 A German university professor received a large package containing six boxes of cigars, with a letter saying: "Permit us to send you these six boxes of cigars. We believe that they will give you every satisfaction and trust that you will recommend them to your friends. Kindly send the amount, 6 marks (\$1.45), by postoffice order." The professor replied: "I have the honor to remit to you 12 dissertations, which will no doubt afford you the utmost satisfaction. Should you wish for more I am at your command. The cost is 3 marks each."

Pride of Ancestry.
 "Mamma, the Smytheses are claiming that they, too, are descended from kings and are just as good as we."
 "The insufferable upstarts! Why, they have to go back 37 centuries to find a king in their lineage, while we have to go back a scant 35. The very idea!"—Detroit Journal.

None For Him.
 "The doctor would like to see you inside," said the maid to the caller who was waiting in the reception room.
 "Not much!" said the startled patient, "he can't try any X ray on me."
 —Yonkers Statesman.

INSOMNIA.
SOUTH AMERICAN NERVE RESTORES REST AND HEALTH.
 If the digestive organs refuse to do their work, indigestion and dyspepsia follow like lightning's flash—the nerves are shattered and then insomnia runs riot, and the patient is on the road to the mad-house or insane asylum. A well known Toronto newspaper man was a victim of nervous prostration and insomnia through overwork—retiring at night was more of a dread than a welcome to rest—prejudiced against medicines and remedies, he spurned the thought of resorting to what he called nostrums—he became almost incapacitated for work—he was recommended to try South American Nerve, procured a bottle and when half of it had been taken, he found himself improving—sleep was induced, the nerves grew quieter, the appetite returned—he continued to take the remedy until he had used six bottles, and at the end of that time the twenty pounds he had lost in worry and for want of rest was put on again—to-day he says, "I feel strong enough to do two days' work in one."
 South American Nerve is without a peer in the cure of nervousness, indigestion and insomnia. A few doses will convince the most sceptical. It gives immediate relief and effects a cure in every case. Strong as this statement may seem it is absolutely true.
 South American Rheumatic Cure is never baffled—relieves in six hours and cures after years of agony have been suffered.
 South American Kidney Cure cures Bright's disease, diabetes and bladder troubles. A few doses will convince. 11

TARIFF TINKEERING.
 (Continued from first page)
 the revenue principle, and put into practice the free trade system of Great Britain, his ideal system, as rapidly and to the very largest extent possible.
THE VIOLATED PLEDGE.
 Now, there is no use elaborating that further. That was the pledge made, that was the contract made with the electors of this country. Has he carried that out? Has he to-day a tariff that is based upon free trade according to the English ideal? He knows that he has not. Has he a tariff based on principles of bringing in revenue with no vestige of protection for protection's sake, a tariff that levies no tax except that which goes directly into the treasury? Can he say that not a fraction of a cent goes into the pockets of what these gentlemen formerly used to call the monopolists and obbers and men who were despoiling the country? He knows that the tariff he has is

NOT A REVENUE TARIFF.
 He knows that his tariff is based upon the principle and involves the practice of protection, and that the so-called revolution that he has made has simply made an increase of duties in some cases and a lowering of them in some others, and on the whole only a slight reduction in the taxation of the country.

THE COUNTRY DISSATISFIED.
 Mr. Foster then proceeded to point out the dissatisfaction of the people of the North-West as voiced in the newspapers controlled by Mr. R. L. Richardson, M. P. for Lisgar, and Mr. Frank Oliver, M. P. for Alberta, and by the Liberal Association of Regina demanding the fulfilment of the Liberal pledges of tariff reform. He also showed how the city of Winnipeg is roused so far as the Liberals are concerned with reference to the statement lately made by Mr. Sifton at Perth that the tariff question was settled.

NO CENSORSHIP.
 In Giving the News of the Great Cures Effected by South American Nerve—It Has Saved an Army of Sufferers From the Pangs of Indigestion and Nerve Troubles.
 L. M. Holmes, of Parrboro, N. S., was taken severely ill about a year ago with nervousness and indigestion, and for some time was completely prostrated. He consulted best doctors, but they failed to help him. A newspaper advertisement brought South American Nerve to his notice. He tried it with the result that he was greatly benefited from the first bottle, and six bottles completely cured him, and he would be pleased to give all details of his case to any person asking him.—Sold by Dr. S. W. Dodd and Geo. E. Hughes.

PAINT & PROSPER
 Painting and prosperity go together naturally. Paint is the outward sign of prosperity. Paint saves property. Increases its value. Twenty dollars worth of paint often adds two hundred dollars to the market value of a property. All owners reckon with this strange fact. But many put off painting too long, or paint without putting enough brains into the choice of paint, and their property "runs down." The paints that are made by thoughtful people for thoughtful people are
