 Feb 13 td

Local and Other Items.

THE WEATHER.—Moderate to fresh southerly to southwesterly winds, fair and milder.

THE MAILS.—The boats left Tormentine this morning with 72 bags of mail matter, leaving 22 bags behind. The mail special will be due about 5.30.

THE GASPESIA SIGHTED.—A telegram from Keat Cove, C. B., says: "Gaspesia was seen this morning steaming around the west of the Magdalen Islands. She was in loose ice and making good headway."

GOOD TEMPLARS.—The annual dinner and reception given by Charlottetown Lodge to Bethel Lodge will take place in Wright's Hall at eight o'clock on the evening of Thursday, Feb. 23rd, inst.

SPECIAL TRAIN.—Go up to Summerside with the boys to-morrow and see two great games of hockey between the senior and junior champions of Charlottetown and Summerside. Special leaves at 4 p. m.; return fare \$1.00.

HOCKEY MATCH.—The third match for the intermediate trophy will be played in Hillsborough rink on Monday evening next. The opposing teams will be the Second Victoria's and St. Dunstan's. The contest promises to be a lively one.

AFTER A DIVORCE.—A Chicago woman, a month married, has applied for a divorce having found out that her husband does not own the gold and silver mines that he claimed before his marriage. What base deceivers some men are, to be sure.

WELL WORTH SEEING.—In the show window of Messrs. Johnson & Johnson's downtown drug store may be seen a very handsome peacock. This bird was stuffed and mounted by Mr. Harry Winchester, of Messrs. Prowse Bros., and is a splendid specimen of taxidermy.

DISCOURAGING MATRIMONY.—A dozen young bachelors in Appleton, Wisconsin, have formed a society called "The Marble Hearts," which has for its object the discouragement of matrimony, and now the young women of the town declare they will never marry an Appleton man. That reads like a first-class matrimonial advertisement sent out on behalf of the feminine population of Appleton.

FUNERAL YESTERDAY.—The funeral of the late William Egan took place yesterday afternoon, and was largely attended. Master Egan was a member of the League of the Cross, and his associates in that society turned out in a body. There were the usual services at the church and at the grave. The funeral was to have taken place on Tuesday afternoon but had to be postponed because of the storm.

SERIOUS ACCIDENT.—An Alberton correspondent of the Guardian reports that a somewhat serious accident happened in the basement of Mr. B. Roger's store, a few days ago, by which one of the clerks, Mr. P. Clarke, got his face burned. Mr. Clarke, assisted by a boy, was looking after the acetylene gas apparatus when, by the boy putting the lamp too near, an explosion occurred burning Mr. Clarke's face quite seriously and the boy slightly.

KILLED IN BOSTON.—Mr. James Burns, longshoreman, who lived at the corner of Libeston and Wiggen Street, Boston, and who was employed by the Clyde Steamship Company, fell into the hold of one of the Company's boats, which was lying at the south side of Lewis' wharf on the evening of the 8th inst. He received fractures of the skull and jaw and other injuries and died later at the Emergency Hospital. He was a son of Mr. Andrew Burns, Dorchester Street east, this city, and was 32 years of age.

THE ENGINEERS' ENTERTAINMENT.—The programme of the engineer's entertainment is one that is designed to please everyone. There is nothing rough about it, and ladies can take as much, if not more, interest in it than the sterner sex. The fencing contest will prove most interesting, particularly as it is the fashionable exercise at the present time and in all the larger cities there are classes for ladies in fencing. It is about the only exercise where the eye, the hand and the nerves are brought into play at the same time, and for this reason it is commended to all as a healthy past time.

BOARD OF HEALTH.—A meeting of the Board of Health was held last evening for the purpose of passing additional bye-laws regarding the plumbing of houses connected with the sewerage system. A board of examiners was appointed, of which the Mayor is Chairman, to see that all plumbers are properly qualified and before whom they must pass an examination preparatory to receiving license to work in the city. The other members of the examining committee are Councillor Crabbe, Mr. Shaw (who already holds a license) and Mr. Thorpe, the resident engineer of the Sewerage Commissioners.

HEARTZ'S HALL.—The basket social and band entertainment in Hertz's hall last evening was well attended notwithstanding the bad roads, and the proceedings throughout were most enjoyable. During the evening the band gave several choice selections and Mr. Lorne Robertson sang a solo and Mr. Hatfield favored the audience with a reading. The disposal of the baskets was an interesting feature of the proceedings, and the subsequent discussion of the "good things provided" proved most enjoyable. The sum realized was \$20. It goes towards the Prince Edward Island Hospital.

"The Davisons" next Monday night.
 Carpet wars, all colors—T J Harris.

FATHER BURKE WANTS FULL HOUSES.

Sir.—I hope that the very imperfect advertising of Professor Robertson's lecturing tour may not effect the attendance of the people at those agricultural meetings and thus deprive them of much useful, and in many cases, absolutely necessary information. Kindly lend the great assistance of your columns to the securing of big houses for the visiting lecturers. Professor Robertson is the ablest all round agricultural authority in Canada, a man remarkable alike for his singular ability and the practical purposes to which he has turned it for our farming interests. Professor McCoun is able to speak to our horticultural wants directly. It would be a pity, then, to have them come here to speak to empty benches as has occurred at Charlottetown and elsewhere in recent years. The western meetings, especially, O'Leary, Wednesday, March 1st, at 2 o'clock, and Alberton same night at 7. I hope to see crowded to the doors.
 A. E. BURKE.

WHAT STOPPED THE TRAIN.

Sir.—Your item which declared the Tignish train of last Friday "detained at DeBlois" should have read "owing to the gross neglect of the authorities in having but one engine at Tignish at this season of the year, the Tignish train is stuck in the first snow bank it struck a hundred yards this side of DeBlois Station."

PERSONAL

Rev. J. J. McDonald, Kinkora, came to town this morning.

Mr. L. P. McLaughlin was a passenger from the east to-day.

Rev. J. W. Godfrey was a passenger by the train from Georgetown today.

Dr. Morrison, who has been laid aside by the grip, is, it is pleasing to hear, all right again.

The friends of Judge Warburton were glad to see him out yesterday afternoon after the grip.

It is pleasing to hear that Mr. S. C. Moore, who has had a bad attack of la grippe, is able to be about again.

Miss Mamie Hunt, St. Eleanor's, who has been spending several weeks with friends in Charlottetown, returned home yesterday afternoon.

It will be pleasing news for the many friends of Judge Alley to hear that he is recovering from his illness. It is expected that he will be able to be about again in a few days.

Rev. Marcel Conisa crossed at the capes yesterday and came to town by the western train this morning. The first service in connection with the mission which he is to conduct in St. Peter's church will be held on Friday evening of next week.

Messrs. J. E. Prowse, of Prowse Bros; W. Stanley, Stanley Bros; S. A. McLeod, Moore & McLeod; Chas. Leigh jr, Weeks & Co; and W. A. Huestis, of F Perkins & Co all leave this evening for the Capes on the regular trips to England. Mr. J. A. McLaren of Jas Paton & Co., left last night.

Things to Make a Note of.

Mission Postponed.—On account of the prevalent sickness in town the mission in St. Peter's Cathedral will not begin until Friday of next week.

Hockey Practice.—The Crecents will practice tonight at 10 o'clock.

Mr. Thomas May, will read a paper upon Some Geological Reminiscences at the Natural History Society meeting next Tuesday.

St. Dunstan's will make it lively for the 2nd Victorias in the hockey league series next Monday evening. See them.

"The Davisons" next Monday night.

LOCAL NOTICES.

Snowshoes.—a couple of pairs of men's left at R K Jost's.

Snowshoes.—a few pairs of men's left at R K Jost's.

"The Davisons" next Monday night.

See Geo. Carter & Co's advertisement of North West Wheat and Red Fife Seed Wheat.

Hats, caps, gloves, etc, at half price at the Bargain Corner. 31.

Japanese Catarrh Cure—use six boxes—buy them at one time—apply exactly according to the directions—and if you are not cured see your druggist; he will arrange to pay you your money back. There's a positive guarantee with every box that Japanese Catarrh Cure will cure. No cure, you get your money back. Guarantee in every package. 50 cents at all druggists. 115

Sold by Geo. E. Hughes.

HORSE WANTED.—A quiet driving horse. Apply at this office. 40 31

Local and Other Items.

TO NIGHT.—Band at the rink tonight. Ice in perfect condition.

THE STANLEY.—Still no news from the Stanley. Two weeks to-day since she left Picton.

I. O. G. T.—Lodge No 68. meets to-night at 8 o'clock. Important business. Every member, please attend.

SUMMONSES OUT.—Summonses were today served on several citizens who have neglected to clean the snow off their sidewalks.

CROSSING YESTERDAY.—Contrary to report the boats did cross at the Capes yesterday and brought four passengers but no mail.

SONS OF ENGLAND.—Lodge Eton meets to-night at 8 o'clock in the lodge rooms. R R degree. Business of importance. Full attendance requested. Visiting brethren welcome.

ALL ON TIME.—The trains were all on time to-day. The train which left Tignish yesterday morning reached Summerside at 5 o'clock in the afternoon and came right through to Charlottetown.

NEXT MONDAY.—The Davidsons will be here on Monday evening and will give an exhibition of trick and fancy skating well worth seeing by every citizen who takes any interest in the graceful art. Secure your reserved seat early at C. D. Rankin's.

MEETS THIS AFTERNOON.—The Mothers Study Class in connection with the Kindergarten will meet this (Thursday) afternoon at four o'clock. An interesting and helpful paper on the nervous diseases of children will be read by Dr. Harry Johnson. Teachers and others interested in the little ones are invited to be present.

THE YOUNGEST BUGLER.—The youngest bugler in Canada has hitherto been a member of the St. John Fusiliers, but now the Charlottetown Engineers carry the proud distinction. Their new bugler is less than six years of age, but a soldier from the sole of his shoes to the top of his head. He will do his share of the work on Friday evening, and all our citizens should see the stuff that makes the British Empire.

AN INTERESTING ARTICLE.—It is pointed out by the reviewer of the Montreal Gazette that in the fourth volume of Canada: An Encyclopedia, "under the heading of Art in Quebec and in the Maritime Provinces, Mr. Robert Harris, president of the Royal Canadian Academy, has brought together a mass of hitherto inaccessible material concerning the early stirrings of the artistic faculty amongst us for expression and recognition." The article is in the fourth section of the work.

SOME QUEER SIGNS.—Among the odd signs to be seen in out-of-the-way places in New York are these: "Come in and try a cup of coffee your mother used to make for 5 cents." "Laundry—Society for the encouragement of wearing clean shirts." In a Bowery window appear the following placards: "These socks are 50 cents. Nit. They're only 25 cents." "Suits that wear and suits that fit at highest prices—nit." A Third avenue customer's shop far up town also makes a startling announcement by means of a sign which reads: "Eve dresses for ladies for sale or to hire."

THEY'RE BOTH DEAD.—A sad affair occurred at Ardsley, N. Y., one day last week which resulted in the death of Dr. H. E. Keyes and his wife. They had both come from their home to attend a ball at that place given by a kinsman and soldier. Mrs. Keyes was the most beautiful woman at the ball, and she and her husband were much admired. As they could not go home easily that night, they went to the Ardsley Casino and the next day both were found dead in bed. The room was lighted both with electricity and gas. On turning out the electricity one of them had evidently turned on the gas by accident. The bodies were warm when found, but every effort to reanimate them was unsuccessful. Their death created a profound sensation in the town.

TURNING INTO BONE.—A Binghamton despatch says: A case of ossification, the first in this section, is puzzling the medical fraternity. The victim is Miss Orilla Hornung, of Auburn, and it is thought possible that she may be cured. If this is effected it will be the first case of the kind on record. The girl is sixteen years old. Some time ago she noticed that a spot on her cheek had become hard. Soon the hardening process spread rapidly to her face and neck. The lips were spared, but the features assumed a bone-like expression. There was no pain or discomfort accompanying the transformation. Dr. Glasgow says he has discovered the cause of the disease and the remedy. Meanwhile the girl is rapidly turning to bone.
