

THE DAILY EXAMINER.

JUNE 19, 1895.

"JUSTICE"

The Guardian prefers "Free Trade as it is in England" on the ground of justice. Let us see. The farmers of England have to pay heavy taxes to the English Government, and the English Government lets in the products of the farmers of all the world free of tax! Is that "justice" to the farmers of England who are shut out of, or heavily handicapped in, every market but their own? It may be that the Guardian will define its idea of justice in the premises. Then, perhaps, we shall be able to see how such "justice" applied to Canada will make our farmers rich.

MORE POLICEMEN WANTED.

The frequency and boldness of robberies in Charlottetown, as well as the increasing character, point to the necessity of a larger force of policemen. At present we have six policemen and a marshal. Three policemen and the marshal are required for day duty; so that for the greater part of each night there are on duty only three policemen, one of whom must necessarily remain in the police station. It is, of course, impossible for the remaining two policemen to patrol all parts of the town each night. Our thieves and drunkards evidently appreciate the situation. They are but taking advantage of their opportunities.

BUSINESS AND CAPITAL.

The General Manager of the Bank of Hochelaga delivered an address to the shareholders a few days ago, in the course of which he said:

"During the past two years we have passed through a crisis of extreme gravity; this is admitted by all. In times of commercial and financial stress, as in times of war, each one gives the main cause, if not the one cause of his financial troubles, that which he feels most directly. It is needless to say there is a variety of causes, but if this variety is general, the causes of the different crises are many. We are not less in a position to realize that the immediate cause of the greater number of failures in the Dominion of Canada is the want of sufficient capital, viz., that a greater number of persons engage imprudently in business without possessing the necessary capital for the operation they are going to engage in. I will undertake the liberty of pointing out an abuse which we should do all in our power to correct. I refer to the abuse into which certain merchants and manufacturers fall in wishing to show an exaggerated volume of business compared with their capital, and which consists in obtaining several lines of credit at different banks, and thus making the latter furnish the capital they themselves do not possess. An eminent American banker compares the inevitable result of such a state of things as that which an attempt to construct an inverted pyramid would obtain. It is quite evident that for stable business, as for stable construction, a solid foundation is required, and for business a sufficient capital."

These are words of truth and soberness. They are worthy of consideration by young men anxious to engage in business, as well as by the managers of banks. Bradstreet's Commercial Agency establishes that during 1894 out of 1,490 failures that took place in Ontario and Quebec, 1,141, that is seven-tenths, are the result of a want of sufficient capital.

NOTES AND COMMENTS.

—Advices from Ottawa state that, as a result of the representations of Hon. Senator Ferguson, holidays will this year be granted to station masters, dispatchers and telegraph operators on the P. E. Island Railway.

—Lord Rosebery has been speaking at Clerkenwell and telling his hearers that he intends retiring from the premiership at an early date. I will undertake the liberty of marking that fortune is dealing kindly, as usual with her favorite. He is being endowed with the spirit of resignation just at the moment that he needs it most.

—Montreal Gazette: Though Rev. Dr. McLeod got for his services on the liquor commission \$6,718, which was twice as much as the chairman received, and \$3,000 more than any other member asked for, he still demanded \$480 extra for forty-eight Sundays he spent away from home. It is a good thing for the treasury the commission was not made up entirely of prohibitionists.

—The Victoria, B. C. Colonist has been carefully studying the political situation, and has arrived at the conclusion that the "Liberals will have to decide a new trade policy before they face the electors at the polls." The Mail and Empire remarks that if this is an unavoidable necessity it is also a most lamentable one. Already there are several Liberal trade policies, "free trade as they have it in England" being the chief among them. To had another one and a better one than any of those that have already been promulgated will be extremely difficult, unless the National Policy is selected in toto. It is sincerely to be hoped that one or more of the old Liberal policies will be again made use of, and further confusion may be obviated.

—Straw Hats: Did you see the new Hats. Just the thing for weather that ranges from 80 to 110 in the shade. Prussia Bros., the stylish hat makers.

—Summer underclothing from 45 cents a snit up to \$3. All sizes and qualities in stock. Don't make any mistake as we have the best and cheapest in the town.—Prussia Bros.

—"Nothing new under the sun" may apply perhaps to certain elemental passions of the race, but it certainly has no application to the world of dress goods. Those who have been wearing Priestley's dress goods did not suppose improvement possible, and yet this is found in "Eudora" which has all the virtues of their several black dress fabrics, with a number of additional attractions, among which may be mentioned greater width and weight, superior wearing quality, imperviousness to dust or rust, and an exquisite surface which gives it a character of refinement all its own. Warranted on the "Warranted Board," and the name, Priestley, stamped on every five yards.

IMPROVEMENTS ON STREETS AND SQUARES.

It is indeed gratifying to observe the beautiful appearance of Queen Square with its fountain, its flower beds, and its trees, protected by the vigilance of civic officials. The improvements now being made on Great George Street, by fencing in and improving the space between the sidewalk and the street traffic, will be a good protection to the trees on that street, from the water up to the front of the Provincial Building. All this work at a considerable outlay of civic funds, is justifiable, and no taxpayer having the interest of the city at heart, can object to such a praiseworthy expenditure. It may, however, be remarked that other Squares of the city are in a dilapidated condition and receive no attention whatever at the hands of those City Fathers, Owners and occupiers of private residences fronting on Hillsborough Square, having during the past fifteen years contributed annually towards the buying and planting of trees for that Square, and received no aid from city funds save an occasional coat of whitewash on the fence, which at the present time would be very desirable. However as many of the trees planted by the City Council, not even to the extent of putting in force their own by-laws, to suppress rowdies from making the night hideous by their yelling and screaming.

SPECIAL DESPATCHES TO THE EXAMINER.

The Manitoba School Question.

Another Gift by Sir Donald Smith.

LONDON, Ont., June 19. The Manitoba School Question was discussed by the Presbyterian Assembly yesterday. The discussion is to be resumed to-day. The following resolution, submitted by Principal Caven, is to be disposed of:

Resolved, That it is the duty of the state to see that the people receive such a measure of education as shall qualify them for the duties of ordinary citizenship. Whilst the state may not arrogate to itself the function of prescribing the religious belief and directing the religious duties of its members, yet the education provided by a Christian country should, in its general characteristics, be in harmony with the principles of Christianity and should in no way controvert them. The principle, therefore, that public funds should not be expended for denominational purposes should be faithfully observed in the Dominion, and in all its provinces, as being in its right and as essential to public peace. Separate schools, maintained or subsidized by the state are a distinct violation of the above principle, and it is in form especially objectionable, and at the same time hindering the formation of that unity of sentiment and feeling which is so valuable to the body politic. The general assembly, therefore, expresses its sympathy with the province of Manitoba, in asserting its just rights in education matters. Rev. Dr. Reid, agent of the church, resigned; Rev. Dr. Warden, of Montreal, was elected his successor. Announcement was made to the Assembly before adjournment of a gift by Sir Donald Smith of \$5,000 to pay off the last instalment of debt upon Manitoba College.

PARLIAMENT OF CANADA.

OTTAWA, June 19. The Curran Bridge scandal was the theme of yesterday's discussion in the House of Commons. The attack on the ministry was opened by Mr. Davies, who spoke for an hour and a half. Mr. Laurier and others also spoke. Mr. Haggart took the floor after Mr. Laurier, and made an able speech, defending the course of the Government, and showing the prompt steps taken to discover and punish the thieves.
