P.E.I. Department of Agriculture

P.E.I. DIRECTORS

The Directors of the P.E.I. Artificial Breeding Association headed by President Donald MacLeod of Victoria Cross are attending today and tomorrow, the Semi-Annual meeting of the N.B. Central Artificial Breeding Co-op Limited in Fredericton.

The other members of the executive are: Vice-President, Parker Newson, Kingston; Directors, Wilbert Wright, North Carleton; William MacEachern, Mermaid; George MacPherson, Kilmuir; Past President, Frank Jardine, Wilmet Valley and the Secretary, Treasurer Dr. George C. Fisher, P.E.I. Department of Agriculture.

On Wednesday evening the P.E.I. Directors will meet in session with the N.B. Directors to discuss mutual problems and hear the Semi-Annual report by Dr. D.G. Moore, Manager of the New Brunswick Central. Also on the same evening there will be a general meeting of the Inseminators and a panel chaired by Dr. Moore.

INSEMINATORS MEET

The Inseminators from P.E.I. and N.B. will meet all day Thursday. An official welcome will be extended by Mr. R.D. Gilbert, Deputy Minister of Agriculture for New Brunswick. The guest speaker for this year's meeting is Dr. R.J. MacDonald, Manager of the Oxford and District Artificial Breeding Unit from Woodstock, Ontario.

He is also President of the Ontario Veterinary Association. His first talk will be entitled "Recent Advances in A. I. Techniques and Sire Evaluations". The next speaker on the program is Dr. George C. Fisher, P.E.I. Director of Veterinary Services and President of the Canadian Veterinary Medical Association.

His topic is "How to Better the Relationship Between the Inseminator and His Client". Mr. J. C. Bennett, Director of Livestock Services N.B. Department of Agriculture will speak on "Herd Improvement". To conclude the morning's program Dr. R. MacDonald will give an account of his trip to Europe and the title of his talk is "Observations on A. I. Program in Europe".

A buffet dinner held at the Central Unit Laboratory is being provided by the staff of the Central Unit. Mr. E.P. Jarvis, Maritime Holstein Fieldman is arranging a judging class and type demonstration at the Bull Barn.

The last item on the afternoon's program will be a review of the sire in the Unit.

The Inseminators attending these meetings from Prince Edward Island are: Norman Warren, West Prince; Winfred Bridges, O'Leary; Russell Dymont, Tyne Valley; Ken Walker, Eastern Prince County; Jim Heffell, Kensington and District; Lyman Harvey, Crapaud; Charlie Carr, New Glasgow; Charles Lank, Cornwall; Lloyd Vessey, York; Gordon Sheidow, Millview; Garth Webster, Morell; Lloyd MacKinnon, Montague and Joe Mallard, Souris.

HOLSTEIN SIRE

The Holstein Sire Selection Committee of the Central Artificial Breeding Co-op Limited is meeting next Monday, October 19th in Moncton. The purpose of this meeting is to consider several topics. One of the topics is the purchase of outstanding Holstein brood cows as dams for future herd sires. The calibre of these cows would be the best in Canada if they can be purchased.

The second item for consideration is that of young bulls now born under the nomination of cows for selected matings. Under this policy a number of cows were nominated from New Brunswick. However, the response on the part of the pure bred breeders on P.E.I. was only slight. The third item on the agenda is a review of the bulls presently in the Battery.

VETERINARY COUNCIL

The Veterinary Council of the Prince Edward Island Veterinary Medical Association met last night in Charlottetown. Dr. James I. Higgins, President of the Association announced that the Annual Meeting will be held in Charlottetown on December 9th. The feeling of regret was expressed by all those present in the loss of two of the members of the Association.

The outstanding services which these two men had extended to the Province were cited. Those remembered were: Past Secretary-Treasurer, Dr. M.I. Lowrie who was Inspector in charge at Canada Packers Plant in Charlottetown and Dr. Oscar Nordland who was a Past President of the Association and had been associated in a general practice in the Charlottetown area.

A.I. MEETINGS

The development of the program for the thirteen meetings being held in each of the Artificial Breeding Club centers on the night of November 3rd is progressing very rapidly. The meetings will be held in Alberton, O'Leary, Tyne Valley, Summerside, Kensington, Crapaud, New Glasgow, Cornwall, York, Millview, Morell, Montague and Souris.

At each meeting there will be two special speakers, one from the P.E.I. Department of Agriculture and one outside speaker. Detailed announcements of the respective programs will be published shortly.

MILK AND HEALTH

There is no parallel between fat intakes and incidence of heart disease. Dr. E.W. McHenry stated at the 40th annual meeting of the National Dairy Council of Canada held recently at Banff.

Dr. McHenry, Professor of Nutrition, University of Toronto, was discussing the current interest in the relation of food to heart disease and said there is no sound reason at present for urging people to reduce the quantity of fat

eat, nor for assuming that a decreased intake of milk, fat or butter will prevent heart disease. There is no good evidence Dr. McHenry said to indicate that these commodities are anything but beneficial.

There is one established relation between heart disease and, indeed, several other diseases, and nutrition. Several degenerative diseases are more likely to occur in overweight people. There is of course only one cause of overweight states Dr. McHenry; the eating of more food than is needed. The remedy and means of prevention are equally simple. Eat moderately, and accustom yourself to exercise of a kind suited to you. He urged that an increased use of milk and cheese, sources of essential nutrients, would be in the public interest from the point of view of health.

FALL GARDENING TIPS

Continue giving lawns the same care that they received during the growing season. Don't cut the grass too short or leave it too long before winter arrives. A height of about three inches is ideal. Continue watering the lawn in the fall as a prevention against winter kill. It is not necessary to apply commercial fertilizer at this time of year.

BULB PLANTING TIME

A wide selection of bulbs have now arrived in the local stores and now is the time to plant says P.D. McCalla, Supervisor of Horticulture in Alberta.

For indoor culture plant in good quality garden soil. Cover all but the top 1/2" of the bulb. Firm soil well and leave a space of about 1/2" for watering. Water and store in a dark place at a temperature of 40-50 Deg. F.

Root making will soon begin so do not disturb except for rare watering. Excessive watering may rot the bulb. After 8 to 10 weeks bring bulbs into light gradually, first putting them in a warmer place for a few days. If bulbs are brought up a few at a time a continuous blooming period can be achieved.

Set the bulbs in the ground before freezeup, a well drained loamy soil will give best results. Single early tulips should be planted from 4 to 6 inches deep. Taller growing species like the Darwins should be planted from 6 to 8 inches deep. For narcissi 8 to 11 inches is the planting depth. The bulb should rest on firm soil and the earth packed well around the entire bulb.

After the first stiff frost, apply a mulch of clean straw or evergreen boughs over the tulip planting to prevent heaving of the soil and too early growth in the spring. Avoid planting close to foundations particularly those which face south or west.

Elderly Resident Dies In Amherst

SUMMERSIDE—The death of Mrs. William Lockhart of Coleman, occurred at the home of her son, Reginald Lockhart, Amherst, N.S., on Sept. 19th.

Mr. and Mrs. Lockhart went to the home of their son to spend the winter just one week previous. Although Mrs. Lockhart had been in failing health for the past year she had only been seriously ill for a few days prior to her death.

She was in her 87th year and was the former Margaret K. Ramsay. Daughter of the late Robert Ramsay and Ann (Ellis) Ramsay of Freeland, P.E.I., and had resided most of her married life in Coleman except for a brief time in Belmont, Lot 16, and Perth Amboy, N.J.

Her first husband, William B. MacDougall died in 1907, and of this union she is survived by four daughters and one son: Bruce MacDougall, O'Leary; Gertrude, Mrs. T.R. Palmer, Summerside; Ruth, Mrs. Thomas Wall, Edmonston, Alta.; Lulu, Mrs. P.J. Martin, Pinesook, N.H.; Floyd, Mrs. Oliver Smallman, O'Leary; two sons, William and Claude died in Alberta in early manhood.

From her second marriage to William Lockhart who survives, three daughters and one son survive. They are Reginald, Amherst, N.S.; Zelma; Mrs. William Bryant, O'Leary; Hazel, Mrs. William Coughlin, and Freda, Mrs. Edwin Coughlin, both of Coleman.

The funeral service was held at 2.30 on September 21st at the Brae United Church where service was conducted by Rev. Keith Rogerson with burial in the church cemetery.

There were many beautiful floral tributes to a loved one. Pallbearers were grandsons; Reginald and Bertram Bryan, Ray Lockhart, Lorne Palmer, Arnold Smallman and Rankin Cornish.

BEDEQUE

Mr. and Mrs. Carmen Johnson, Kazabaza, Quebec, are visiting at the home of Mr. Johnson's father, C.M. Johnson, Central Bedeque. Mr. Frank Newsome, Rose Valley, was a week-end visitor with relatives in this community.

Mr. and Mrs. Davis Murray, Halifax, spent the holiday in this village, with relative.

Mrs. Carrie Leard, is the guest of her friend, Miss Alice Harrison, Moncton, N.B.

Miss Catherine Calbeck, student at Mt. Allison, spent the weekend at her home Central Bedeque, and Mr. Clare Muttart, also a student at Mt. Allison, was the guest of his parents, Mr. and Mrs. Kenneth Muttart, Seabrook, during the holiday.

Mrs. Al Smith, Kazabaza, Que., was a visitor to Bedeque on Sunday last.

Mr. Aiden Leard, Sackville, spent the holiday with his parents, Mr. and Mrs. Walter Leard.

Govt. 1959 Savings Bond Issue Is Offering Highest Yield Ever

OTTAWA (CP)—The government's 1959 Canada Savings Bond issue went on sale across the country Tuesday offering the highest yield ever.

The new bonds are unique in more than one aspect. In the past any individual could purchase a maximum of only \$10,000 but this year the limit has been doubled to \$20,000.

Furthermore, for the first time the bonds may be registered in the name of the estate of a dead person, or legally constituted executor, trustee or administrator of an estate.

This would make it possible to exchange other holdings of an estate for Canada Savings Bonds.

This year's bonds have an interest rate intended to encourage buyers to hold them their full nine years to maturity.

NON-TAXABLE BONUS

For one thing, a non-taxable bonus is made possible if they're held the full time by offering the bonds at a three-per-cent premium; that is, at \$3 below par value. This is another "first" for this year's offering.

The annual interest coupons also are scaled upwards from

four per cent in the first year to a record five per cent for each of the final six years.

This means that if the bonds are held to maturity Nov. 1, 1968, the over-all average return will be a record 4.90 per cent, compared with an average of 4.19 on the 1958 issue and the previous record yield of 4.46 in 1957.

CASH ANY TIME

As usual the savings bonds will be cashable at any time for their full face value plus accrued interest and will be available in denominations of \$50, \$100, \$1,000 and \$5,000. All must be registered as to principal in an individual's name and bonds of \$500 denomination or more will be available in fully-registered form with buyers getting interest payments by cheque.

The nine-year term is the shortest for a Canada Savings Bond at least 10 years. Last year's bond has a 15-year term and bonds of the previous five years were for 12 or 13 years.

A total of \$921,000,000 worth was sold last year, including \$207,000,000 bought under the payroll savings plan. This was offset, however, by sales of previous

Gatt. Is Approved By Export Group

By FORBES RIUDE
Canadian Press Business Editor

SEIGNIORY CLUB, Que. (CP)—The General Agreement on Tariffs and Trade, commonly known as GATT, was upheld Tuesday by the Canadian Exporters' Association as the most effective medium for keeping world trade in fair channels.

Approval was given by resolution at the association's annual meeting with particular regard to the dangers which may arise from the formation of large trading blocs.

The resolution said there appears to be some danger to the principle of multilateral trade by the formation of certain economic groupings, and that the best way to protect Canada's interests appears to be in the continued and serious support of GATT.

PRaise GOVERNMENT

The association commended the

government for its effort in GATT negotiations and urged it to continue trying to safeguard the interests of Canadian exporters by active participation in the GATT organization.

Discussion on the resolution brought out two views. One was that GATT may have lost much of its effectiveness and the other was that without GATT there would be no medium through which to counter protectionist influences in various countries.

B. C. Wright of Du Pont of Canada Ltd., Montreal, said the spirit and letter of GATT had been violated by almost every country except Canada.

W. B. Lambert of Alcan International Ltd., Montreal, said that without GATT countries like Canada would be powerless in the face of such trading areas as the European common market.

SEES CHANGE

Frank T. Smerk, president of H. J. Heinz Company of Canada Ltd. and retiring association president, said the European common market may not end up in the form it now appears and, in

15 years time, may not be called the common market.

He saw it as an attempt to raise standards of living and, if it succeeded in that, it would need many items from Canada. Some Canadian industries might suffer, but others would share in a bigger market.

He predicted that Canada would do increased exporting in the future, not only of goods but of talents, and he envisaged the setting up of branch plants in various countries.

Under another resolution the Canadian Tax Foundation will be requested to investigate the possibilities for helping the export industry through tax relief.

In connection with Canadian trade negotiations with the West Indies Federation, the association suggested continuation of a preferential tariff system which should give preferred and unrestricted entry of goods from the one area to the other; and removal of all discriminatory import restrictions against Canadian goods in the West Indies, both in the federation and the non-federating territories.

BURIED WITH SKULLS

KUCHING, North Borneo (Reuters)—A chieftain, Pengulu Gani Anak Chaong, has been buried here with the skulls of 26 men he decapitated in his youth. Relatives said this was the last request of the chief who died Oct. 4.

Trade Bans In Dollar Areas May Be Scrapped By UK Govt.

By DAVE OANCA
Canadian Press Staff Writer

LONDON (CP)—Britain's re-elected Conservative government is expected to move soon to scrap some of the remaining dollar-area trade restrictions hampering Canadian exports, it was learned Tuesday.

This is one of the steps that likely will be taken as part of a program to remove remaining controls in the trade and payments fields now that the election is over.

The move is viewed partly as a response to Canadian Finance Minister Fleming's plea for an end to restrictions and partly as a result of Britain's much stronger economic position.

During the recent finance ministers meeting in London and the World Bank meeting in Washington, Fleming stressed that he hoped Britain and other countries soon would dismantle the controls hampering freer trade.

STEADY PROGRESS

The British delegate to the Washington meetings, Sir Roger Jenkins, replied that Britain had been making steady progress in carrying out its policy of removing discriminatory import restric-

tions.

He stressed, however, that timing was important in moves to dismantle the barriers. Some observers believe he left the impression that the country's Oct. 8 election was one of the major elements in the timing.

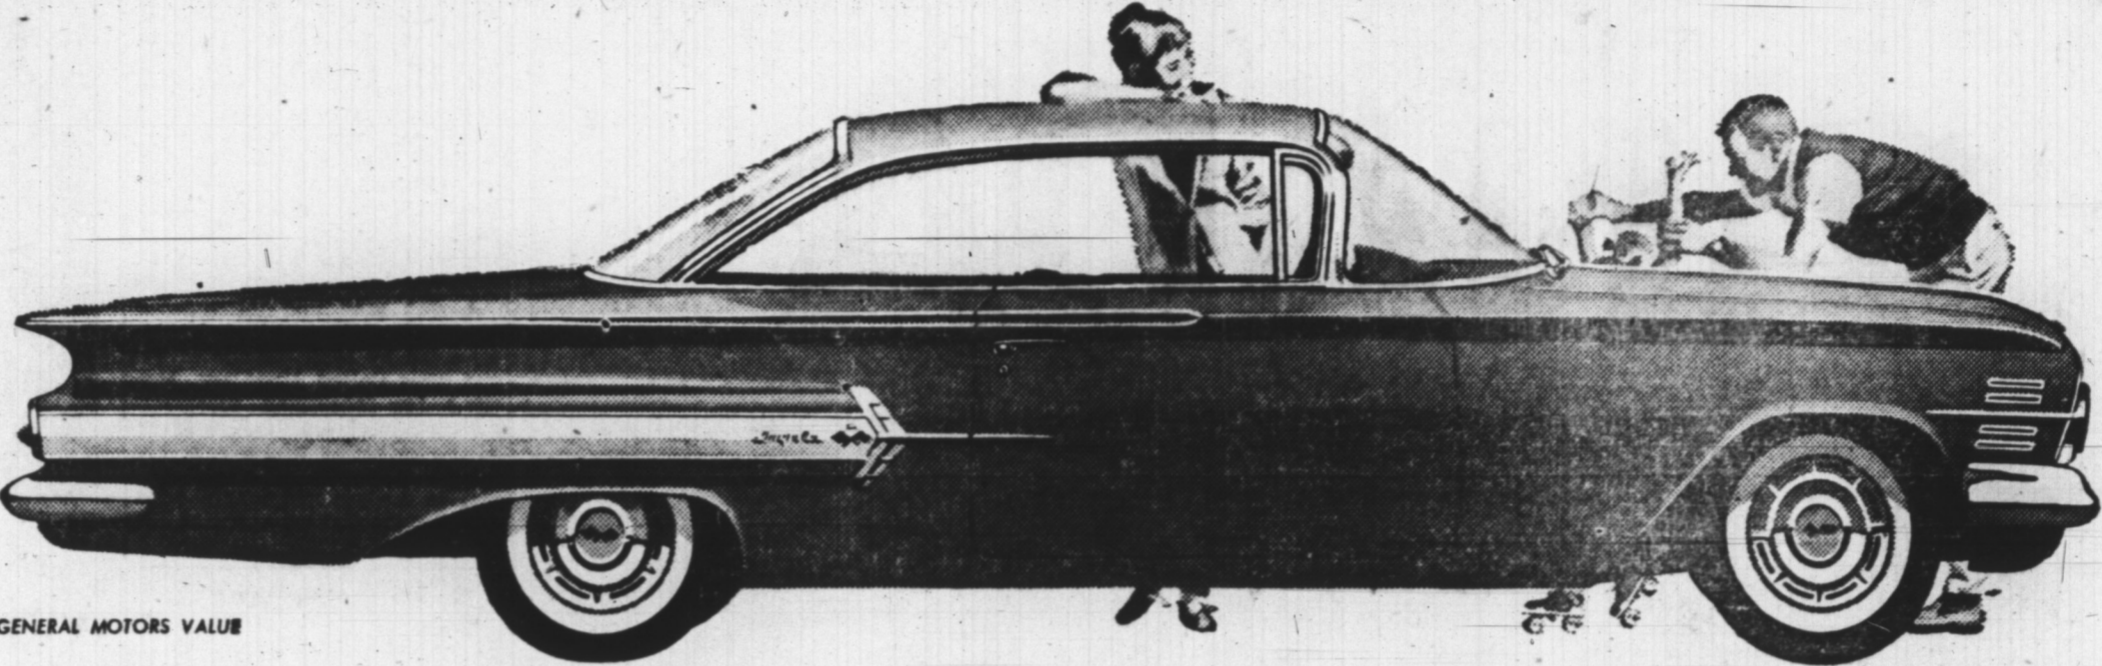

The remaining restrictions are hard to justify on balance-of-payments grounds. Although exports to Canada have not been showing any buoyancy, Britain now is running a substantial trade surplus with the U.S.

The first move towards more liberalization is expected within the next two weeks when the government announces the size of the travel allowance for the next year. Informants said a final decision has not been taken but it is believed the allowance will be increased substantially.

At present it stands at £250 (\$700) for the Scandinavian countries and £100 (\$300) for the rest of the non-sterling world. Expectations are the government will bring it up to a uniform level of £250.

MISSING DATES

When England adopted the Gregorian calendar in 1752 it was necessary to change Sept. 2 to Sept. 14.

A GENERAL MOTORS VALUE

There's nothing like a new car — and no new car like a Chevrolet. This is the elegant Impala 2-Door Sport Coupé

SEE IT NOW AND SEE ALL THESE

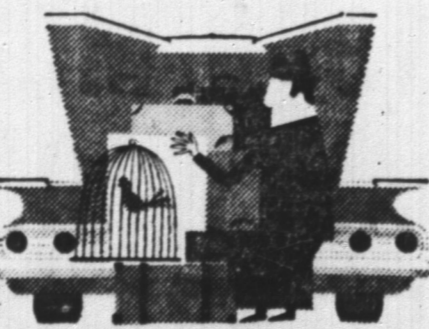

new and different things IN THE 1960 Chevy!

completely
!!NEW!!
completely
FRESH STYLE

One look tells you this new Chevy's a beautiful eye-ful—from the new full-width grille to the shallow "V" of its unique rear deck. Chevy's Slimline contours cut a fresh clean swath in the field of design. In every important styling detail, it stands apart from the crop.

!new!
easy loading
luggage compartment

New convenience has been built into Chevy's extra-roomy luggage compartment by lowering the loading height. You'll find space for a vacation-size luggage load under that sleek rear deck.

NEW
spaciousness inside

Inside the Body by Fisher you'll find room and more room. There's room to sprawl in, room to sit tall

in—and the roof-line has a respect for hats. A new flatter transmission tunnel is a boon to the "middle man". Here is the kind of space that invites the family.

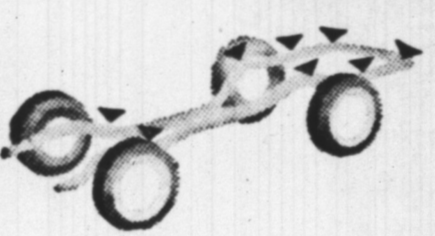

THRIFTIER
!!!new!!!
VS POWER

Under the hood thrift is accented in a new standard V8, engineered to deliver up to 10% more miles for every gallon while giving you more zest at normal speeds. Or you might choose its strapping teammate — Chevy's Hi-Thrift 6 — the engine that starts saving the moment you flip the ignition switch. Its precision carburetion and automatic choke will show you new heights in performance and new lows in cost.

NEW QUIET
AND COMFORT

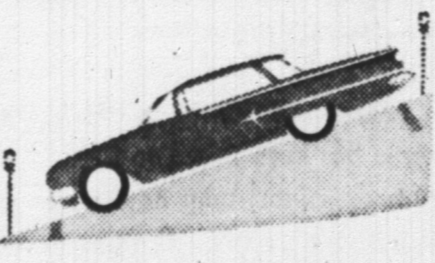

Thicker, newly designed body mounts insulate you from road shock and noise, insuring an almost cocoon-like quiet. Full Coil spring suspension melts bumps as no other suspension can. Oil-

hushed hydraulic valve lifters reduce engine noise to a whisper, adding still more to your sense of well-being as you cruise along in the 1960 Chevy.

!NEW!
refinements
for the driver

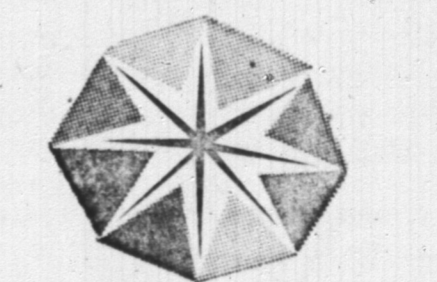

Everybody will want to be the driver when he sees the kind of pleasure a turn at the wheel brings. The driver finds Chevy has further cushioned him from engine impulses by an improved clutch linkage system. He'll also find that superior weight distribution lends stability in handling and stopping.

There's a new parking brake. When you press down the brake pedal, the T-handle below the instrument panel pops out to indicate "brake is on". And Chevy offers a choice of 24 engine-transmission hookups to meet the requirements of the most discriminating driver.

DRAMATIC
new colors
!!!new!!!
TWO-TONE
STYLING

Choosy about color? You can afford to be. Chevy for '60 provides a palette full of hues, both solid and two tones. If you don't see the color or combination of colors you want on the showroom floor, you'll be sure to find it quickly in a handy color chart. There's a trim new two-toning motif available in all 16 coin-bright models of the superlative 1960 Chevrolet.

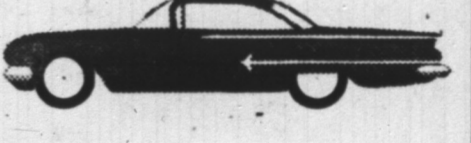

Magic-Mirror finishes will keep the color tones you choose looking like new for years to come. Interiors also offer new, 1960-new, color styles. The inside styling changes extend to luxurious new upholstery materials and — in some models — a bright metal instrument panel facing. The big surprise is still ahead of you — when you spot the low price all this elegance and quality sells for!
