SPECIAL DESPATCHES TO THE EXAMINER.

The Tobique Tragedy.

ANDOVER, N. B., Aug. 30.

The examination of the charge of wilfully murdering Mrs. S. L. Howes was resumed by the Attorney-General this afternoon. The chief witnesses examined were Annie Phillipine and Eugene Phillipine, sister and brother of one of the prisoners. Miss Phillipine's testimony greatly strengthened the case against Traiton as the one who fired the fatal shot. She told her story in a manner that deeply impressed all hearers. On Saturday night, when her brother went out to catch some fish in the pool from which he was driven by Major Howes. Miss Phillipine wrote that there was not a mouthful of food in the house. She reproached herself for not preventing her brother from joining in the attack on Major Howes party though she believed it was only their intention to souse them in the river. When the sheriff went to Phillipine's family were actually starving, and yet only a few years ago they were in affluent circumstances in England. Miss Phillipine is highly educated and lady-like in her deportment. The examination will be continued to-night and then adjourned for some days, pending the arrival of Howe's Indians, who are now some distance away. To-day's evidence bears very strongly against the accused.

Canada Defended.

OTTAWA, Aug. 30.

Sir John Thompson, in his address at Hagarville yesterday, strongly resented Mr. Laurier's charge of unfriendly treatment of Yankee fishermen. He said the United States chose themselves to go back to the treaty of 1818; and its provisions were being enforced. There was nothing unfriendly in that conduct. In seizing American vessels, Canada was not harsh. She was borne out by the support of the British Government on enquiry into every case.

The President's message was an interruption to the unrestricted reciprocity campaign. It led the people to believe that the policy of the development of the country, of making it a united nation from the Atlantic to the Pacific, was a much better policy for the country than to hand over its destinies to a people who were ready to sacrifice them to their own political exigencies.

The Guillotine.

PARIS, Aug. 30.

The execution of the Corsican band of Rochini has been fixed for Monday next. The French executioner has been ordered to ship a guillotine to Sartena and there carry out the sentence of death. The Corsicans are aroused and a vendetta is feared. The Government intends to make an imposing display of military strength on the occasion.

The Soldiers Mutiny.

LONDON, Aug. 30.

Advices from Lorenzo Marquez, a Portuguese town in Africa, say that a mutiny broke out among the soldiers of the garrison, and the marines have been landed from the warships to quell it. Fighting is expected.

St. John, Aug. 30.

In the base ball match yesterday between the Socials of Halifax, and the Nationals of this city, the latter were victorious. The scores were: Nationals, 12—Socials, 2. Over two thousand persons witnessed the game.

The Fisheries Protection Service.

OTTAWA, Aug. 30.

The report of the fisheries department on the protection service of last season has just been issued. It shows that very little friction occurred between the cruisers and fishermen as compared with the previous season.

Horse Race at Summerside.

SIR.—From every quarter we hear favorable reports concerning it, the weather perfect, the horses beautiful, and working with machine-like regularity; the drivers skillful and honest, the course and stand very suitable—save the latter, might safely be enlarged; the sobriety, discourse, and good behaviour of nearly 10,000 people, drawn together from all parts of P. E. Island, the absence of drunkenness, gambling, rioting and murder, and the very quiet manner of betting (indeed, its scarcity was marked).—all these cheering circumstances tend to make yesterday a red-letter-day for P. E. Island. Naturally, our minds, from astonishment at such unlooked-for results on a race course, (often notoriously the reverse) begin to wonder and try to account for these phenomena; and our optical powers are brought into play, and scanning the crowd with a double-milium magnifying microscope—a la Sam Weller—the staid forms of well known temperance officers, church members, Sunday school teachers and superintendents cross our field of vision, and lo! all mystery ceases, and all things puzzling to ordinary humanity are at once resolved into crystalline clearness.
