COMES FROM NIGERIA

DOLLAR-EARNER

EDMONTON—(CP)—Many students come long distances to attend the University of Alberta but few have come farther than Robert Nyang, first year student in dentistry. His home is at Calabar, Nigeria.

BRIGHTON, England—(CP)—Antique dealers here are earning dollars with a Victorian-type brass coach lamp. Americans who visited this famed seaside resort liked them for porches, and hundreds now are being exported.

-NEWSY NOTES-

AN "ATOMIC PIG"

From time to time we learn a little about the important uses to which the radio active isotopes have been put, that are made at the Chalk River Canadian nuclear pile. These have been used largely for scientific agricultural experiments and medical treatments, replacing to some extent X-Ray and radium. More recently "Cobalt 60," a powerful and very much cheaper form of a radio active isotope, has been released for certain exploratory purposes. Perhaps one of the most extraordinary uses so far tried was the sealing of a small vial, containing Cobalt 60, about the size of 308 rifle bullet, in the tail of a mechanical pig.

A mechanical pig is a device used to scrape or clear away obstructions in large pipe lines. It is made of metal and rubber in the form of a spool. It is about the diameter of the pipe to be cleared, and is forced through the pipe by either liquid or air pressure. Its rubber surfaces are in contact with the pipe, while the two heavy discs and the connecting central section of the spool are of tough metal to withstand the pressure necessary to clear the obstruction. Last spring the contractors building the Ontario pipe line from Sarnia to Toronto ran into a series of difficulties between Oxbow Creek and London, Ontario, a distance of about thirteen miles. Twice, with great difficulty, they had located a "pig" stuck in the line, and had laboriously rescued it by cutting the pipe to get it out, with all the accompanying excavation and work to repair the line at a depth of three feet below the surface. During the tests on a finished section of the line, a pig, that because of the difficulties mentioned previously, had been equipped with a steel chain with cowbell attached to its tail, to mark its progress from Oxbow Creek by clanging, as it proceeded on the thirteen-mile trip to London. This pig also stuck, and for four days gave no sound to indicate its location. The pipeliners then decided to send another pig after it, that could be traced by the scintillometer and geiger counter, and when it caught up with the lost pig, they could both be rescued.

Whim Road and Vicinity

A number of residents from the district attended the recent plowing match held at Dundas.

Miss Ruby MacLeod, Montague, was a weekend visitor to her home at Whim Road.

Rev. Alexander T. MacDonald, United Church minister, returned to his home in Merigomish, Nova Scotia, after visiting friends and relatives here. While at Whim Road he was the guest of Mr. Norman MacDonald and Mrs. MacDonald and in Montague he attended a dinner given in his honour by Mr. and Mrs. W. F. Fraser.

Mr. and Mrs. Ernest Molyneux, Charlottetown, were Sunday visitors of Mr. and Mrs. Garnet Moore at Whim Road.

Mr. John MacPherson, Bellevue, was a weekend guest of Mr. and Mrs. Robert Campbell at Whim Road.

Mr. Lloyd Farquharson, Cross Roads, spent the weekend in Killmuir with his parents, Mr. and Mrs. E. Farquharson.

Mrs. Murdoch MacDonald and son Kenny, Whim Road, were visitors to Lewes during the weekend.

Mrs. A. Steele, Charlottetown, is visiting at Whim Road, the guest of her brother, Mr. John Clary and Mrs. Clary.

The Ivy Junior Red Cross held their meeting on Friday afternoon, September 19th at the schoolhouse at Whim Road. After roll call and the usual business procedure, the following committees were appointed: Health, Donnie Munro and Edith MacDonald; program, Vernon Nicholson and Jean Ann Munro; water, John Clary and Vernon Nicholson; tidiness, Jean

Ann Munro and Betty MacBeth; police, Edith MacDonald and Betty MacBeth. The penny auction sale was won by Jean Ann Munro who will be in charge of this at the next meeting. The meeting adjourned in the usual manner.

HUNTER RIVER W. I.

Mrs. Lloyd Carew entertained members for the September meeting of Hunter River Women's Institute. The president, Mrs. Emmett Bernard, presided.

It was moved and seconded that joint membership be paid the Canadian Association of Consumers and it was suggested that Mrs. Lawson's report on soap flakes, etc., as given at a district convention, be forwarded to Institute News. Outstanding bills were ordered to be paid.

The library committee is to hold a meeting. Capsules for school children were ordered, and the secretary was asked to contact a music teacher for the school. It was decided to canvass the district for the Cancer Fund.

Committee appointments are as follows: Refreshments, Mrs. Chesley Wood, Mrs. Garfield Wood, Mrs. Emmett Bernard and Mrs. C. B. Matheson; entertainment, Mrs. W. I. Bowman and Mrs. Reagh Bagnall; school, Mrs. Emmett Bernard and Mrs. Howard Christie; visiting, Mrs. J. D. Burns and Mrs. Chesley Wood. The hostess assisted by committee served refreshments. The October meeting will be held at the home of Mrs. Robert L. Smith.

For Quality Mildness Value

CANADA'S FASTEST SELLING CIGARETTE TOBACCO

HALIFAX—(CP)—Christine MacKay, 22-year-old brunette, is the first "Wren" to take a quarter-master's course at H.M.C.S. Chipewewa. She has already served one year, completing her seamanship training.

Advertisement for Bras d'Or coal, featuring an illustration of a coal bucket. Text: "Bras d'Or is BEST! BEST because of its high-heating value and low ash content. BEST because it's dry-cleaned to remove all slate and inferior coal. BEST because it's oil-treated to prevent dust filtering through your house. Better ask for Bras d'Or coal. Your dealer has it or can get it for you. BRAS D'OR COAL CO. LTD. BRAS D'OR - NOVA SCOTIA S. GUNARD CO. LTD. - HALIFAX Wholesale Distributors"

Additional Air Women Needed

to take their place with the men of the RCAF in defence of freedom, more Airwomen are needed now — to take over duties suitable to the special abilities of women, in a continually expanding Air Force. Women accepted into the RCAF receive the same pay, rank and trade groupings as for airmen. To qualify, you must be single, between 18 and 29 and have Grade 10 education, the equivalent or better. Women, up to 40 years of age, with previous Air Force experience are eligible.
