Veteran Arthur Gormley, dean of the City Council, won his eighth straight victory in Ward 1 and did it the hard way with a clear majority over his two opponents.

Newcomer Dr. Douglas MacNeil drove his way to top the balloting in Ward 6 with

Debt Of E.I. Tops \$36 Million

Liabilities of the province during the fiscal year ending March 31, 1963, were increased by \$2,136,295, according to the Public Accounts for that year tabled in the Legislature yesterday.

The table of the accounts was greeted with desk thumping by the Opposition. Usually the accounts are tabled much later in the session and it was suggested that this was the earliest tabling of the accounts since the Conservative Government came into power.

The increase in liabilities brings the total liability of the province, as of the end of last March, to \$36,298,262.

According to the Public Accounts, ordinary estimated expenditures were over budget by \$9,105,791.

Beattles Create Bedlam In N.Y.

NEW YORK (AP)—The Beatles, the long-haired musicians whose music is not, to the root of Caracas, Hall Wednesday night.

The appearance of the mop-headed British quartet on the venerable Carnegie hall stage set off a crescendo of teen-age squeals.

And the Beatles, who play and sing a violent form of rock 'n' roll, may actually have been playing and singing. The audience couldn't tell. All it heard most of the time was its own screaming.

The concert, which began 45 minutes late, climaxed a day of near-riotous, day in which a strange and violent malady spread over midtown Manhattan. It infected thousands of teenagers and created day-long bedlam at three of the city's landmarks.

Turnip Meeting Planned Friday

Problems of the turnip industry which became particularly troublesome in some sections last year, will be discussed at a meeting to be held in Birch Cove, Experimental Farm on Friday, it was learned last evening by David W. Rogers, provincial agronomy fieldman.

The aims are to create an awareness of cultural practices needed, of market requirements and to create an interest in better turnip production and marketing.

The hope of the organizers is that recommendations for solving some of the marketing problems will come from the meeting, though implementation of the suggestions will have to wait until the next year.

Murder Crime Laid Following N.S. Shootings

OTTAWA (CP)—All 18 members of the Canadian Jesuit mission in Haiti have been expelled from the Haitian republic and are en route to Canada, External Affairs Minister Martin announced Wednesday night.

Mr. Martin, who termed the expulsion of the Canadian missionaries "a serious act of defiance in the eyes of the Haitian government," said he instructed the Canadian chargé d'affaires in Port-au-Prince, Charles Bedard, to inform the Haitian government that Canada rejects vague allegations of improper activities against the Jesuit mission.

He said Mr. Bedard also was asked to advise the Haitian government that "we are displeased with the Haitian government of Haiti to expel a mission which has been working in the interests of the Haitian people for some years."

Six missionaries, including two arrested earlier, left Haiti Wednesday morning for Miami en route to New York.

They were identified only as Poulin, Hamel, Turcotte, Jean, Deschamps and Hardy. It was not known whether all were priests or whether some were religious brothers.

HEADED FOR NEW YORK
A second group of 12 was scheduled to reach New York later Wednesday. This group included missionaries identified as Grégoire, Bourassa, Hardy, Goulet, Lussier, Joseph Goulet, Charlier, Lachance, Sabourin, Roy, Clothier, Laramee and Ross.

The latter two were Rev. Paul Laramee and Brother Francis Xavier Ross who were arrested in the Haitian government's visit to the religious order of the Brothers of the Holy Spirit.

The expulsion was the second mass exodus of missionaries on the part of the Haitian government in recent years. About two years ago a number of French missionaries were expelled after ordered to leave the country.

Sir Alex, LBJ Are Opposed On Cuban Issue

WASHINGTON (AP)—President Johnson and Prime Minister Douglas Home opposed the Cuban issue Wednesday and quickly ended up in opposing camps on curtailing trade with Communist Cuba.

Diplomatic informants said Douglas-Home made it clear Britain has no intention of joining the United States in holding down commerce in non-strategic goods with Cuba.

Johnson, the informants said, restated the U.S. position that the Western allies must find a formula harmonizing their policies with the Communist world.

The differing stands on Cuba were no surprise and the two heads of government quickly agreed on the need to continue and speed up efforts to reach agreement with the Soviet Union on the central issues of Germany and Berlin.
