**U.S. Leads In Aviation**

(A.P. By Guardian's Special Wire) LONDON, May 29—The United States naval air forces are 100 per cent ahead of Great Britain. Admiral of the Fleet Sir Roger Keyes declared in the House of Commons today.

The reason, Sir Roger said, is because the United States navy has divorced itself from outside control in the development of its aviation.

His assertion came during a review of the British naval position disclosing it is intended to resume battleship construction as soon as the 1930 London naval treaty is no longer effective.

Lord Stanley, financial secretary to the Admiralty, announced Britain has no intention of invoking the "escape" clause of the naval treaty in respect to cruisers.

Such a policy, he said, would save five small, old cruisers from the scrap heap but would automatically entitle Japan to retain more numerous serviceable cruisers.

"It would surely be a high price to pay for those five ships; whose course is almost run," he asserted.

Winston Churchill declared the taxpayers resented the "absurdity" of sinking five cruisers when Britain had only 53 and would immediately embark on a goal of 70 as soon as freed from the treaty which expires Dec. 31.

The House, at the conclusion of the debate, rejected a Labor amendment to reduce the supplementary naval estimate at £10,300,000 (\$51,500,000) and confirmed the figure 182 to 85.

**Frosts Kill Apple Blossoms in Valley**

KENTVILLE, N. S., May 29—Severe frosts during the past week have shattered hopes of Annapolis Valley apple growers for a record crop this year.

The trees were at the height of their bloom and growers were estimating a crop of approximately 2,000,000 barrels when the cold weather struck, killing growth. Estimates throughout Kings, Annapolis and Hants counties placed the average loss at 10 to 30 per cent.

Some orchardists claimed it was the worst loss suffered by the industry since 1932 when a windstorm in late September swept the valley and dropped a crop of 300,000 barrels to the ground.

MRS. LAURETTA BERNARD GOULD

At the Royal Jubilee Hospital, on Saturday, May 9, Lauretta Bernard Gould, aged eighty-two years, wife of Captain Isaac Archibald Gould, of 553 Simcoe Street. The late Mrs. Gould was born in Prince Edward Island and had been a resident of this city for forty-five years. She was a member of First United Church and was well known for her work in the interests of the Aged and Infirm Women's Home, being one of the founders of this institution. She is mourned by, be-

**Retired Ministers In Alberta Will Suffer**

(C.P. By Guardian's Special Wire) EDMONTON, May 29—Funds from which pensions are paid to aged and retired ministers of the United Church will be seriously affected by Alberta government reductions of interest rates, it was stated today at the meeting of the Alberta conference.

Reporting for the pensions committee, Rev. R. E. Finlay Hardisty, said the pension fund of the church has \$300,000 invested in Alberta bonds, drawing interest at five and six per cent. If the government carries out its announced intention of reducing the interest rate to 2-1-2 per cent, Mr. Finlay observed, the pension revenue will be so much the less.

**Prof. W. H. Abell Again President**

INTERESTING SESSIONS HELD HERE BY MARITIME ART ASSOCIATION—OFFICERS ELECTED.

(Sackville Tribune) The first annual meeting of the Maritime Art Association, which was held at Mount Allison last week, proved very successful. Some interesting talks and discussions on art were given during the two days' sessions, and many expressions of appreciation were voiced regarding the exhibitions which have been shown in various centres of the Maritime Provinces. A large number of collections are available, and it was decided to endeavour to select those likely to have the greatest appeal among the people. The opinion was expressed that a collection of pictures comprising the better work done by children artists would be appreciated by patrons.

The last business meeting was conducted Friday afternoon by Prof. Walter H. Abell, of Acadia University, who was re-elected president of the association.

The meeting dealt with the proposed activities of the association for the coming year. During the year an exhibition by Maritime artists, including water colors, pastels and craft works, will be held. A Canadian art group, collected by the National Gallery of Canada, will also be shown. Four other exhibits were discussed, tentatively, including one on the design of pictures, industrial architecture and the general trend of modern design.

The President's and secretary's reports indicated a good year. Several new centres enlisted as members, and the association showed a favorable balance for the year. A resolution, formerly passed by the Nova Scotia Museum of Fine Arts, dealt with adoption of space in the old Halifax post office for an art museum in Halifax.

President Abell in his report revealed that the association had increased from 11 organizations in seven parts of the Maritimes to 17 organizations in 13 centres.

Several other groups are expected to come in shortly. In presenting the financial report in the absence of the treasurer, he reported a receipt of \$943 and an expenditure of \$627.

At the closing meeting last Friday evening, held in Beethoven Hall, the topic discussed was "Attitude Toward Modern Art." Some of the speakers gave very critical remarks regarding modern trends in art. It was generally agreed, however, that works of art, whether old or new, should be viewed from the standpoint of "good or bad."

Before closing a vote of thanks was extended to Mount Allison for their hospitality, and also to Mr. N. A. Hester, President of the Sackville Art Association, for assisting in entertaining the visitors.

The officers for the coming year are: President, Prof. Walter H. Abell, Acadia University; vice-presidents, New Brunswick, N. A. Hester, Sackville; Nova Scotia, John N. Meagher, Halifax; Prince Edward Island, James Harris, Charlottetown; secretary, Miss Violet A. Gilbert, Saint John; treasurer, Miss Louise Mahny, Newcastle.

The executive committee consists of the above officers and Dr. H. H. Hagerman, of the Provincial Normal School, Fredericton; Dr. A. G. Bailey, of the New Brunswick Museum, Saint John, and Mr. Coxb, Halifax.

The next annual meeting will be in Halifax. Among the art clubs represented

**Costly "Saving" Habits**

I am quite sure that if one were to tell some people that their funny little saving ways often cost them quite a lot in the end, they would be extremely surprised, yet it is an undeniable fact.

Now I am sure you have seen someone spending ever so long trying to undo a refractory knot in a piece of string rather than take a pair of scissors and cut it. Personally this habit nearly drives me crazy when I am busy and pressed for time, for those minutes to me mean actual cash with which I could buy yards of string.

Paper saving easily takes second place on the list of false economies. Perhaps one of the most irritating results of someone's passion for paper saving is to receive a letter which is written on the back of one of one's own letters to the person in question. It does not pay to save paper to this extent for you may have to pay very dearly for doing so, if this happens to be the recipient's pet aversion!

Stamps savers are others who believe that it is always better to send a post card for a penny, than a letter for three halfpennies. They may actually save a halfpenny by doing so, but if it costs them pounds in the end (and I have known this happen before now), it can hardly be considered an economy. Personally, I hate postcards; they are very unsatisfactory in every way, and often cause far more trouble than they are worth.

It never pays to cut down on food bills to the extent of having to spend money on doctor's bills which are usually far more costly than the food would have been. A penny saved on a bus fare, sometimes means a drenching and a week in bed. Cheap electric lamps are a snare and a delusion as far as economy goes, for they burn twice as much power as the proper lamps, while giving out an insufficient light which usually means eye trouble from strain sooner or later.

Cutting down on tips often means that your journey or service is far from comfortable, whereas the expenditure of a shilling or two in this direction would have made all the difference.—Exchange.

**THE COOK'S CORNER**

**DANDELION WINE**  
 This wine has medicinal properties which render it especially suitable for liverish persons. Dandelion wine should be made only from flowers picked on a dry sunny day, preferably about midday, for the dew has then had time to dry.

To a gallon of water allow six quarts of dandelion petals. If the whole heads are used the wine is usually bitter and rank. Put the petals into a pan, pour over the boiling water, cover and stand in a cold place for ten days, stirring daily. Strain the liquor on to 4 lb. preserving sugar and the rinds of two lemons, then add two pieces of bruised ginger.

Boil for three-quarters of an hour, allow to cool, then add a piece of toast spread with yeast. Cover with a cloth and leave for four days. Pour into a jar and bottle off in three months.

**CHOCOLATE MASQUERADE PUDDING.**  
 Two squares unsweetened chocolate, 3 cups milk, 1-3 cup sugar, 4 tablespoons cornstarch, 1-4 teaspoon salt, 2 slightly beaten egg yolks, 1 teaspoon vanilla, 2 egg whites, 4 tablespoons sugar, 1-4 cup shredded coconut.

Add chocolate to milk and heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Combine sugar, cornstarch and salt; add small amount of chocolate mixture, stirring until smooth; return to double boiler and cook until thickened, stirring constantly. Continue cooking 10 minutes gradually, stirring well; cook 2 minutes longer, stirring constantly. Add vanilla and turn into greased baking dish. Beat egg whites until foamy throughout; add sugar, 2 tablespoons at a time, beating after each addition until sugar is blended. Then continue beating until mixture will stand in peaks. Pile lightly on chocolate mixture and sprinkle with coconut. Bake in moderate oven (350 degrees Fahrenheit) 15 minutes, or until delicately browned. Serve warm or cold. Serves 6. This pudding may be baked in individual custard cups if desired.

**Market Your Wool Co-operatively Through THE CANADIAN CO-OPERATIVE WOOL GROWERS, LTD.**

Wednesday and Thursday, June 17th and 18th will be the Big Wool Days in Prince Edward Island

The Sheep Breeders' Association is asking farmers to ship their wool collectively on these two days to the Wool Station, Charlottetown. Arrangements have been made in different districts with Secretaries of Shipping Clubs, and others, to take charge of collective shipments. Farmers who are not able to combine lots may ship individually.

If arrangements cannot be made for shipment on above date, subsequent shipments will be received until early in July.

Tie all fleeces separately with PAPER TWINE or WOOLEN STRING. Do NOT use binder twine. Order TWINE and SHIPPING TICKETS from the Sheep Breeders' Association, Charlottetown.

Wool should NOT be washed. Washing lowers its value. Ship freight collect, and use old bags or useless rugs.

Write your name and address plainly on the shipping tickets. Put one ticket inside the sack and the other on the outside, for fear the outer one may be torn off and then the lot could not be identified. On this ticket also give the number of bundles you are shipping.

Address all bundles to THE SHEEP BREEDERS' ASSOCIATION, CHARLOTTETOWN.

REMEMBER: JUNE 17th and 18th will be the Big Wool Days in this Province. We are trying to get the bulk of wool moved from local points on these dates. Co-operate with us! Get your wool in readiness! Get in touch with your neighbors and the secretary of your local organization, and make one of these days the Big Wool Shipping Day in your district. You will find the Co-operative method of marketing the most profitable, and satisfactory.

**Young Fascist Leader Convicted In Madrid**

MADRID, May 29—Jose Antonio Primo de Rivera, Fascist son of the former monarchist dictator of Spain, was ordered to jail for five months today in a riotous courtroom.

The young Fascist leader, convicted of possessing arms, defended himself. He tore off his lawyer's robe and stamped on it when the court handed down its verdict, declaring he no longer desired to be a lawyer.

"In a country where judges are at the service of the government instead of justice," Many of the spectators packing the courtroom shouted: "Long live Fascism! Long live Primo de Rivera!"

**Restless Nights - Pepless Days Take the Joy Out of Life**

The potent cause lies in the hurried life we lead, in the extreme nervous tension and fever heat with which we follow in the pursuit of wealth, position and pleasure.

Late hours, want of necessary rest, excessive mental or physical exertion all put a strain on the system it is unable to withstand. No wonder then you pass restless nights and get up in the morning with no ambition to go about your daily tasks.

Take Milburn's H. & N. Pills and see what they will do for you.

**Running Water Anywhere**

Wherever you live you can have fresh cold running water, just by turning a tap. No more priming, no more heavy pumping—all the water you want always. We have installed Myers Automatic Water Systems in hundreds of homes. They start themselves. They stop themselves.

They use a minimum of electricity or gasoline. We can also supply Myers Force or Lift Pumps—the easiest for hand operation. Send for catalogs.

Easy Terms.
