Will Wonders Ever Cease?

It has been discovered that by means of the circulating blood any organ of an animal can be paralyzed or stimulated into renewed activity if the proper material is administered. Cocaine, which has revolutionized delicate surgical operations, is only one of the results of this discovery. The use of Atropine by oculists is a remarkable example: For it matters not how administered, [even if injected into the big toe] the first effect seen is the enlarging of the pupil of the eye. Another application of this discovery, as practical as any, was the idea that the great loss suffered by poultry raisers, owing to the fact that hens stop laying during cold weather, when eggs are worth fifty cents per dozen, could be overcome, if the ovaries of the hen could be reached and stimulated to egg-producing activity. The experiment was crowned with success, and the chemical compounds deficient in the ovaries of the hens at this season are now very important components of Sheridan's Condition Powder to make hens lay. And with its aid some of our most successful egg-raisers believe it is as easy to obtain plenty of eggs in mid-winter as to raise early vegetables. Last December the poultry Editor of the N. E. Farmer said to a subscriber, "the office of Sheridan's Condition Powder is to animate the ovaries. A hen to lay profitably must be in *condition*. I use Sheridan's Powder because I believe that hens can be *made* to lay even in winter by using it, and fully twice as much profit can be made in a year from a flock of fowls where it is used." Is not that good evidence? Then force your hens to laying now, or later you will reflect.

And a glance we backward cast!
We know just the thing we should have done,
When the time for doing it's past.

For 50 cents I. S. Johnson & Co., Boston, Mass., will send two 25 cent packs; five packs for $1; or for $1.20, one large 2 1-4 pound can of Sheridan's Powder, postpaid; six cans for $5, express pre-paid. THE "Myrtle Navy" plug correctly represents the whole plan upon which its manufacture is conducted. There is not a fractional part of a cent expended upon it for mere appearance. It is neither wrapped in tin foil nor worked into fancy shapes, nor put in fancy cases, nor subject to any kind of expense merely to please the eye or captivate the fancy. The manufacturers rightly believe that tobacco was not purchased for ornament, but for smoking, and therefore all extraneous expense was avoided and added to the quality of the tobacco. The public have testified in its case that they prefer paying their money for a high quality of article than for ornament out out of place.

MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat, in fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c. and $1 at Charlottetown drug stores.

The Telephone Company
—OF—
P. E. ISLAND.

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear just as if you wished to shut out all other sounds Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.

SAVED!

The testimonial below refers to a patient who was pronounced incurable by leading physicians in England:

From Rev. Dr. Hill.
M. F. Eagar, Esq. HALIFAX, N. S.

Dear Sir,—I feel that it is due to you that I should say publicly what I have said privately very many times, namely, that I firmly believe your PHOSPHOLEINE was the means of restoring a near relative of mine to ordinary health. The patient was apparently in the last stages of Consumption, but with the concurrence of skilled physicians your PHOSPHOLEINE was tried, and, I am happy to say, with results that I certainly did not anticipate. My friend is to-day in the enjoyment of excellent health.

Believe me, yours very truly,
GEORGE W. HILL, D. C. L.
Rector St. Paul's.
