

THE EXAMINER.

VOL. 6.

CHARLOTTETOWN, PRINCE EDWARD ISLAND, TUESDAY, NOVEMBER 25, 1879.

NO. 4.

Hewson, McDougall & Seaman

BEG leave to acknowledge thanks to the public generally for the very liberal patronage extended to them since commencing business, and intimate that they have on hand a large and select stock of material for the manufacture of Sleighs, etc. They have recently received photos of all the latest prize sleighs of the Ottawa Exhibition. Parties requiring new sleighs would do well to call at their factory and examine before ordering elsewhere.

They keep on hand and make to order Top Buggies, Phaetons, the famous Dexter Spring Wagons, and carriages of every description. Repairing of all kinds done with neatness and despatch, and warranted to give satisfaction to those who favor them with a call, at prices to suit the times.

N. B.—Parties having their Sleighs repaired and painted would do well to leave them at once in order to have them in time for the first snow.

Wagons stored at moderate charges. Parties having their wagons repaired and painted in the spring will have them stored free of charge for the winter.

Ch'town, Nov. 4, 1879.

NEWS BY TELEGRAPH.

UNITED STATES.

NEW YORK, 22.

Gen. Grant is to go to Cuba. His pas-
sage on the steamer from Havana is se-
cured for Dec. 27th, from this port.

PHILADELPHIA, Nov. 21.

Frank Bavilli, charged with the murder
in Jersey City of a school-boy by hitting
him with a stone during a disturbance be-
tween a number of school-boys and Bavilli and
other Italian street musicians, has been
delivered in the custody of a New Jersey
officer. This is the crime which an Italian
in Montreal confesses he committed, possi-
bly with the intention of shielding
Bavilli.

St. Louis, Nov. 22.

A party of 120 Latter Day Saints from
the Southern States, in charge of Elder
John Morgan, passed through here last
night en route to Morassa, in San Luis
Valley, Colorado, where there is already a
colony of between 300 and 400. This is
the fifth party from the South that has gone
to this locality this season. They get their
lands in Colorado at a low price, and con-
form to the law of the State, which pro-
hibits polygamy.

IRELAND.

LONDON, Nov. 23.

A large meeting of Irishmen and Irish
sympathizers was held at Newcastle-on-
Tyne on Saturday.

Meetings were also held on Sunday at
Leeds and at Manchester, where only 300
persons were present, and at Birmingham,
where the hall was crowded.

At all of the meetings resolutions were
passed protesting against the arrests of
Davitt, Daly and Killen.

One of the greatest demonstrations that
have ever occurred in County Mayo, was
held at Swinford on Sunday. Nearly 20,-
000 farmers were present. Parnell made a
speech in support of a resolution, which
was adopted, condemning the action of the
Government.

The Sligo prisoners will be charged before
County Magistrates to-day. Only members
of the press will be admitted. Two solici-
tors will defend Davitt and Daly. Killen
will defend himself. The request of the
solicitors to visit the prisoners on Sunday
was refused.

The Standard's correspondent at Balla
describes the meeting at Looemore as
being singularly tame. Less than 1,000
persons attended.

FRANCE.

PARIS, Nov. 22.

The Minister of Public Works has sub-
mitted to the Cabinet an estimate of 600,-
000 francs for the expenses of preliminary
inquiries into the Trans-Sahara Railway
project.

Ex-Empress Eugenie, yesterday, had in-
terviews with Prince Napoleon and the ex-
Queen of Spain, and left in the evening for
Madrid, to be with her dying mother.

AFGHANISTAN.

CABUL, Nov. 22.

The Afghan leader at the battle of Chara
Saib is reported to have crossed the Balkh
frontier and taken refuge with the Rus-
sians.

Inquiry into the conduct of the ex-
Ameer, Yakoub Khan, and his ministers in
connection with the massacre of the British
Embassy has been concluded. The report
of the commission of inquiry has been for-
warded to the Viceroy of India. Nothing
has transpired to allay the unfavorable op-
inion hitherto current regarding the
Ameer's course. The Viceroy of India tele-
graphs that five more Afghan regiments
from Turkestan have arrived near Cabul,
and will disband and go home. Probably
the remaining regiments of the Cabulites in
Turkestan will follow this example, as they
have not any prospect of pay.

EUROPEAN.

LONDON, Nov. 22.

The Daily News despatch from Berlin
says that a private letter from well-infor-
med persons at St. Petersburg, states that
the intelligence is received in official cir-
cles at St. Petersburg that the British Gov-
ernment intends to occupy Herat next
spring in alliance with Persia, and the
writer adds that the news is generally
credited.

This year Christmas Day falls on Thursday.

The old rhyme says:—

If Xmas day on Thursday be,
A windy winter ye shall see;
Windy weather in each week,
And hard tempests strong and thick;
The summer shall be good and dry,
Corn and beasts shall multiply;
That year is good for lands to till,
Kings and Princes shall die by skill;
If a child born that day shall be,
It shall happen right well for he;
Of deeds he shall be good and stable,
Wise of speech and reasonable.
Whoso that day go thieving about,
He shall be punished without doubt;
And if sickness that day betide,
It shall quickly from the glide.

We learn that Messrs. Shedd & Moore
have put up a starch factory at Eldon, Bel-
fast. They have the necessary machinery
on hand, large quantities of potatoes pur-
chased, and they will, we hear, commence
active operations in a short time. We can
only hope that their enterprise will be
eminently successful.—Argus.

MISCELLANEOUS.

It is expected six hundred guests will be
present at the banquet to Sir John Macdon-
ald. Hon Mr. Chapleau and Dr. Church
will be present.

A young woman applying for the situ-
ation as teacher to a village school being
questioned by the trustee as to her quali-
fications, replied: "I ain't much of an
arithmeticker, but I'm an elegant gram-
marist."

Mr. Inspector McTavish, of Fort Garry,
is authority for the statement that the
people of Manitoba expect the immigration
into the North-West during the next twelve
months of forty thousand people.

MONTREAL SEWERS.—The city of Mon-
treal has eighty-three miles of public sewer,
of which seventy-two miles are of brick,
six of wood, four of pipe, and one of stone.
The Craig street sewer, 8,765 feet in length,
or 531 rods, has a fall of 7.85 feet, and
cost \$25,900 including the tools and
machinery used in its construction, or nearly
\$49 per yard.

A butcher enters the office of a lawyer in
France: "Sir, I want your advice. Is the
owner of a dog responsible for any damage
that the animal may do?" "Certainly."
"Then your dog has run away with a leg
of mutton from my stall, and I will trouble
you for 10 francs." "Very well, my friend;
have you five francs change?" "Yes, sir."
(Produces them). "That just makes it
square; my fee for advice is 15 francs."

A FAMOUS RIDE.—Genl. James Mills,
V. C., has eclipsed Forbes's ride. He was
about starting from Candahar to Astrabad
when news of the Cabul massacre reached
him. Volunteering for service with Gen-
eral Roberts, he left Candahar one day, and
the next reached Darwaza, having ridden
180 miles, with two hours' rest; after six
hours' sleep he left Darwaza and rode on to
Jacobabad, 130 miles farther on, almost
without rest.

A million and a quarter dollars is the
sum which it is estimated Gen. Grant's visit
brought to Chicago. The calculation is a
very probable one:—The number of out-
side visitors is placed by reasonable esti-
mate at 75,000, each of whom is supposed
to have spent \$5 per day for three days,
making a total of \$1,125,000. Four leading
hotels alone estimated their increased re-
ceipts at \$30,000. The cost to the city,
chiefly expended in decoration, is estimated
at \$50,000, which generally went into the
pockets of citizens.

In replying to the address presented to
him by the officers and clerks of the im-
portant department of which he is the head,
the Hon Mr. Langevin said:—I thank you,
gentlemen, for the kind wishes to which
you have given expression for the restoration
of my health, and, although I cannot con-
sider my services indispensable to the pro-
gress of the country, nevertheless, I am
happy that Providence has permitted my
excellent physicians to bring me back to
health, and thus to furnish me with an op-
portunity of contributing for several years
more, I hope, to the consolidation of this
confederation which I have aided in found-
ing, and which I would like to see assured
by the construction of the railway which is
to make of Canada an immense empire and
of our people a great, prosperous and
powerful nation.

"DRINKS ON TICK."—The Halifax News
Reporter and Times says:—"A case was
tried a short time ago which illustrates the
kind of law dispensed in some courts not
over a hundred miles from the Halifax
Post-office. The executors of a grocery and
liquor estate sue a delinquent debtor
for an unpaid account, principally groceries.
Debtor's attorney produces a pass-book,
and the debtor swears that all the
"sundries" entered therein are "drinks,"
which articles, under the laws of Nova
Scotia, are not collectable. All these
"sundries" were struck off and yearly set-
tlements were ignored, the credits for a
long time being set off against the solids,
while the liquids were set aside to such an
extent that the plaintiff was actually made
defendant, and vice versa. The conclusion
of the matter was that the plaintiff was
brought in debt to the debtor. This deci-
sion will cause a general 'shutting down' of
drinks on tick.

FISH AS FOOD FOR ANIMALS.—"The cattle
at Provincetown feed upon fish with ap-
parently as good relish as upon the best
kinds of fodder. We have seen the cows
at that place boldly enter the surf in pur-
suit of the offal thrown from the fish-boats
on the shore, and masticate and swallow
every part but the hardest bones. A Pro-
vincetown cow will dissect the head of a
cod with wonderful celerity. She places
one foot upon a part of it, and with her
teeth tears off the skin and gristly parts,
and in a few moments nothing is left but
the bones. It is said that some cows there
will, when grain and fish are placed before
them, eat the whole of the fish before they
will touch the grain."—Barnstable (Mass.)
Journal, Feb. 7, 1833. We have accounts
of the feeding of fish to stock in the East
centuries ago. It is a regular practice in
Northern Norway, where dried codfish are
used to piece out the stock of hay that does
not suffice for the long winter. In 1856
Prof. Stockhardt, of Saxony, received a
sample of Norwegian fish-gnaw, which he
fed to a half-year old pig, "which did ex-
ceptionally well on his northern food."—
American Agriculturist.
