

Personal.

On the 14th inst., a fine able looking fellow, named Angus McGillivray, belonging to Antigonish, while in the act of jumping on one of the cars of a loaded construction train on the Pictou Branch Railway, fell between two cars, the wheels passing over him near the shoulder, killing him instantly.

Miss Viola Meek, daughter of a prominent citizen of Graham County, N. C., was to have been married on Sunday, the 3rd inst., to John Ammons, of the same county. The match was opposed by the girl's father, who armed himself on the day of the proposed wedding and swore he would kill Ammons if he appeared on his premises. The daughter said she would prefer to marry with her father's consent, but would marry Ammons that day or die. The father violently refusing, she stepped into an adjoining room. The father went into the room shortly afterwards. The daughter was a corpse, and in her hand was a vial labelled strychnine.

The Ottawa Citizen says: "It is understood that Sir Donald A. Smith has taken stock to the extent of \$25,000 in the new Liberal-Conservative paper to be established in Toronto. John Livingston is now engaged in organizing the staff."

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

According to a report on the sea fisheries of the coast of France, the various coasts of that country were formerly well stocked with fish, every variety of migratory and non-migratory fish being found abundantly. Now the breeding grounds are ruined and the waters are void of life; in fact the whole of the coast fisheries of France are in a complete state of decadence. The change is attributed chiefly to the improper use of drag nets, although the increase in the number of porpoises is believed to have something to do with it. Porpoises were formerly destroyed for their oil, but cheaper substitutes having come into use they are allowed to increase and multiply at the expense of sardines and other fish.

WASHING MADE EASY.—I have on exhibition in my shop window a washing machine that does away with the old and laborious way of washing clothes; you can sit in your easy chair and rest while your washing is going on. It has been tried and proved genuine. Please call and examine this great Washer and Bleacher. Purchase one and thereby save labor and expense. They are sold for \$2.00 each. G. G. Jury, sole Agent for the Monarch Washer and Bleacher, North side Queen Square, opposite Post Office. may 12 dy 2aw wy 2m

Notwithstanding all that has been said about the decadence of the British brigade of guards, the household troops appear to have made a most favorable impression upon foreign royalties at the jubilee festivities. The Times relates that after inspecting the guards, Prince William of Prussia expressed the wish that he could take them away with him.

Blowing up Hell Gate has been a laborious and costly work, but the end justifies the effort. Obstruction in any important channel means disaster. Obstructions in the organs of the human body being inevitable disease, they must be cleared away, or physical wreck will follow. Keep the liver in order and the pure blood courses through the body conveying health, strength and life, let it become disordered and the channels are clogged with impurities, which result in disease and death. No other medical equals Dr. Pierce's Golden Medical Discovery for acting upon the liver and purifying the blood.

A curious law case, which has arisen out of the recent earthquake at Diano Marino, will shortly be decided before an Italian court. Two adjoining houses at Diano Marino, belonging to two different families, were destroyed by the earthquake and the inhabitants were all killed. When the ruins and corpses were removed, the sum of 200,000 francs in gold and bank notes was found among the debris. As it was impossible to ascertain to which house the money belonged, and as no member of either family was saved to decide the matter, the surviving relatives have brought their case before the Judges, whose decision is expected in Italy with much interest.

SHIP NEWS.

A Standard Medical Work

BY YOUNG AND MIDDLE-AGED MEN

ONLY \$1 BY MAIL, POSTPAID.

Illustrated Sample Free to All.

KNOW THYSELF.

A Great Medical Work on Manhood.

Exhausted Vitality, Nervous and Physical Debility, Premature Baldness, Errors of Youth, and the untold miseries resulting from indiscretion or excesses. A book for every man, young, middle-aged and old. It contains 125 prescriptions for all acute and chronic diseases, each one of which is invaluable. So found by the Author, whose experience for 25 years is such as probably never before fell to the lot of any physician. 260 pages, bound in beautiful French muslin, embossed covers, full gilt, guaranteed to be a finer work in every sense than any other work sold in this country for \$2.00, or the money will be refunded in every instance. Price only \$1 by mail, post-paid. Illustrative sample free to any body. Send now. Gold medal awarded the author by the National Medical Association, the President of which, the Hon. P. A. Bissell and associate officers of the Board, the reader is respectfully referred.

The Science of Life is worth more to the young and middle-aged men of this generation than all the gold mines of California and the silver mines of Nevada combined.—S. P. Chronicle.

The Science of Life points out the rocks and the quicksands on which the constitution and hopes of many a young man have been fatally wrecked. Manchester Mirror.

The Science of Life is of greater value than all the medical works published in this country for the past fifty years.—Atlanta Constitution.

The Science of Life is a superb and masterly treatise on nervous and physical debility.—Detroit Free Press.

There is no member of society to whom The Science of Life will not be useful, whether young, parent, guardian, instructor or clergyman.—Averana.

Address the Peabody Medical Institute, or Dr. W. H. Parker, No. 211 South Street, Boston, who may be consulted on all diseases requiring skill and experience. Chronic and obstinate diseases that have baffled the skill of all other physicians a specialty. Such treated successfully without an instance of failure. Mention EXAMINER AND ARGUS, Charlotetown, P. E. Island, May 13, 1886—cod & wky
