

Ethletic Culture For Boys.

Now that our boys and girls through the streets on their way to and from school, it is only natural for us mothers to think of the accomplishments of the girls.

Any must go on with the drawing she so much loves, while May ought to practice harder than ever. But there is one member of the family who is apt to be neglected. It is awkward, bashful, Jack, or careless Henry whom every body snubs and calls rough and rude.

Under this culture even their outward appearances would improve. No more collars awry; shabby hands, uncombed hair or unblackened boots.

Let Harry, who was punished for drawing pictures on his slate in school hours, feel that he has a right at the right time to draw as Amy does. A little competition will do them both good. And Jack, who has had "twenty lines" to write as punishment for whistling "Over the Garden Wall" while entering the class-room, encourage him to join a "musical union."

At home or abroad, in society or in church work, this "voice culture" will always be an advantage. If the strumming of a banjo sometimes call you to an out-of-the-way corner of the house, where bashful Jack, afraid of being laughed at, has, ostich-like, hidden himself away, take this as a good sign.

Let May's teacher encourage him in the beautiful study of music. Latin grammar is sometimes dry and arithmetic bothersome for boys as well as girls. Give them, then, a pleasant study for recreation. "Music hath charms to soothe a savage," so the poet says.

Extravagant.

Every man before God and on his knees must judge what is extravagance. When one goes into expenditure beyond his means he is extravagant. When one buys any thing he cannot pay for is extravagant. There are families in all our cities who can scarcely pay their rent, and who owe all the merchants in the neighborhood, and yet have an apparel and their circumstances, and are all the time saving so near the shore, that business misfortune or an attack of sickness prepares them for pauperism.

It is well known that there are thousands of families in our great cities who stay in neighborhoods until they have exhausted all their capacity to get austed. They stay in the neighborhood until the druggists will let them have no more medicines, and the butchers will give them no more meat, and the bakers will give them no more bread, and the grocery men will give them no more sugar. Then they find the region unhealthy, and they hire a truckman, whom they never pay, to take them to some new quarters, where the merchants, the druggists, the butchers, the bakers, and grocery men, come a-bowling and give them the best ground of beef, and the best sugar, and the best merchant se of all sorts, until they find out that the only compensation they are going to get is the acquaintance of their patrons. If a man buys anything he does not mean to pay for, he is a thief.

Gems of Thought.

Great joys weep, great sorrows laugh. Spend less than you earn, and you will be rich.

He who does not appreciate does not possess.

Sin, left alone, always goes from bad to worse.

It is impossible to be just if one is not generous.

Every one has a fair turn to be as great as he pleases.

Solid love whose root is virtue can no more die than virtue itself.

We shall know if we have been happy; we do not know if we are so.

Success shows off our good qualities; lack of success shows off our defects.

Life is passed in desiring what one has not, and regretting what one has no longer.

Firmness and stiffness of the mind is not from adherence to truth, but submission to prejudice.

No man is ever likely to accomplish any more than he resolutely sets himself to accomplish.

Three warnings from the grave—"Thou knowest what I was; thou seest what I am; remember what thou art to be."

DIRECTIONS TO VOTERS.

The following is the form of ballot to be used in the election for Queen's County marked as it should be by all voters for Campbell and Ferguson:

Election for the Electoral District of Queen's County, P. E. Island, February 23, 1887.

CAMPBELL, I. William Campbell, of Milleville, Park Corner, Queen's County, Farmer and Mill Owner. X

DAVIES, II. Louis Henry Davies, of Charlotteown, Queen's County, Barrister-at-Law.

FERGUSON, III. Donald Ferguson, of Talloch, Queen's County, Farmer and Stock-raiser. X

WELSH, IV. William Welsh, of Keppoch, Queen's County, Farmer and Ship-owner.

The following is the form of ballot to be used in the election for King's County, marked as it should be by all voters for McDonald and Muttart:

Election for the Electoral District of King's County, P. E. Island, February 22, 1887.

MACDONALD, I. Augustine Colin McDonald, of Montague, King's County, Merchant. X

MACINTYRE, II. Peter Adolphus MacIntyre, of Souris, King's County, Physician.

MUTTART, III. Ephraim Bell Muttart, of Souris, King's County, Physician. X

ROBERTSON, IV. James Edwin Robertson, of Montague, King's County, Physician.

HOW TO MARK THE BALLOTS.

Be sure to mark your ballot for the Liberal Conservative Candidates.

The elector, on receiving the ballot-paper, shall forthwith proceed into one of the compartments of the polling station, and there mark his ballot paper, making a cross with a pencil on any part of the ballot-paper within the division containing the name of the candidate for whom he intends to vote, and shall then fold up such ballot-paper, so that the initials on the back can be seen without opening it, and hand it to the Deputy Returning Officer, who shall, without unfolding it, ascertain, by examining the initials, and the number upon the counterfoil, that it is the same he furnished to the elector, and shall first detach and destroy the counterfoil, and shall then immediately, and in the presence of the elector, place the ballot-paper in the ballot-box. Ballot Act, Sec. 47.

No voter should make any mark on the ballot-paper save one cross on any part of the ballot-paper within the division containing the candidate's names for whom he intends to vote. If the voter writes his name or initials, or any marks, except the X he makes his ballot worthless.

A simple cross upon the ballot for your candidates will assist in electing them. Any other mark or writing will contribute to their defeat.

- 1. Poll opens at 9 o'clock a. m., and closes at five o'clock p. m.
2. Vote early.
3. See that your Liberal-Conservative neighbor votes early also.
4. If you have a sleigh, place it at the service of your Committee to bring tardy voters to the polls. Give the information to the Secretary of Committee.
5. Do not "pair" on polling day with your Grit neighbor. Poll your own vote and let him look out for his.
6. Poll every possible vote; the loss or gain of a single vote in each polling division may make all the difference between victory and defeat.
7. Each Liberal-Conservative should vote as though the result of the election depended upon his individual exertions.
8. Remember that any bribery, corrupt treating, hiring of vehicles, paying of voters' expenses, or any undue influence, will not only void the election, but is punishable by law.
9. Electors can only vote at the polling division where their names are registered.
10. Any elector's vote may be challenged who has received anything on account of his vote, or has been promised anything directly or indirectly, either to induce him to vote at the election or for loss of time, travelling expenses, hire of teams, or any other service connected therewith; or even if the said elector has directly or indirectly paid or promised anything to any person, either to induce him to vote or to refrain from voting at the election.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites

is not only very palatable, but the remedial power of these valuable specifics is greatly increased, and as a remedy for consumption, scrofula, emaciation, or where there is loss of flesh and nerve power, it is remarkable in its results. Take no other.

Do not hawk, and blow, and spit, but use Dr. Sage's catarrh remedy.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower will make them free from disease, as when born. Dyspepsia and liver complaint are the direct causes of seventy-five per cent. of such maladies as biliousness, sick headache, costiveness, nervous prostration, indigestion, dizziness of the head, palpitation of the heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottle, 10 cents. Try it.

Deception vs. Fairness.

THE HYDRA-HEADED POLY (9) OF THE GRITS.

Free Trade in Prince Edward Island. Protection in Ontario. Race and Revenge in Quebec. Reciprocal in Nova Scotia. Annexation in New Brunswick. Lawlessness in Manitoba. Slander and misrepresentation everywhere.

Grit vs. Tory Rule.

GRIT RULE. Public Debt. In five years the Grits added \$40,543,007 to the net debt and left nothing to show for it—but Fort Francis Lock and a few other monuments!

TORY RULE. Public Debt. In seven years, the Tories added \$30,000,000 to the net debt, and there is to show for it the Canadian Pacific Railway and other public improvements in all parts of Canada.

Public Works.

During the Grit term the total expenditure upon public works chargeable to capital was \$23,388,922, or \$6,774,137 less than the increase of the debt. That is to say the Government of the Grits added to the permanent obligations of the country nearly seven millions more than they expended upon public works having for their object the development of trade and cheapening of the cost of transportation.

Interest Charges.

When the Liberal party came into office the average rate of interest payable upon the public debt was 5.00 per cent., and five years later they had reduced it to 4.65 per cent., or by .35 per cent.

Assets.

In 1873 the assets of the Dominion amounted to \$23,215,779, and yielded an average rate of interest of 1.56 per cent. In 1878 the assets had increased to only \$31,583,191, and the average rate of interest was 1.63 per cent., a gain in five years of \$8,367,412 in assets and an increase of .07 per cent. in the rate of interest.
