Hands Off In Oil Industry
By HAROLD MORRISON
Canadian Press Staff Writer

OTTAWA (CP)—The government has decided to maintain a "hands off" policy on Canada's oil industry...

"REAL BAIT" IN CANADA
In the U.K. Parliament, Harold Wilson, the Labor party's chief financial critic, said the "real bait" for the Americans was not the oil production of Trinidad but the very big prospects of expansion in Canada.

More Skilled Workers Needed
OTTAWA (CP)—Canada needs more professional and skilled personnel, Labor Minister Gregg said Friday.

Unless there was an increase in scientists and technicians Canada might well lose the battle against totalitarian forces in this field.

Should Exempt Students
William Blair (PC—Lanark) said students working their way through university should not be required to pay income tax, particularly in view of the apparent shortage of skilled persons in the country.

Persons in charge of regional offices of the national employment service across the country should be instructed in their responsibilities in event of sudden disaster.

Notice to Workmen
It is important to you to know whether or not you are covered under the Workmen's Compensation Act. Ask your Employer when hiring on with him if he is registered with the Board.

Notice to Employers
All employers of Labour within the Province, both Resident and Non-Resident, employing three or more workmen must register their operations promptly with the Workmen's Compensation Board.

Technical Training
Claude Richardson (L—Montreal, St. Lawrence-St. George) said the people of Quebec are taking an increasing interest in technical education.
