Legislature To Reconvene Briefly Today

The special session of the Legislature which was called on September 7 last to consider the situation resulting from the railway tie-up during the railway strike, resumes this morning at 11 o'clock. Originally the adjournment was made until Dec. 5, but it is meeting today under a proclamation issued by the Lieutenant Governor in Council. The proclamation is a statutory requirement when the Legislature stands adjourned for a longer period than sixty days. It is understood that this morning's session will be brief, and that prorogation will follow immediately. The session, which was opened by Lieutenant Governor Bernard, will be prorogued for the first time by His Honour Lieutenant Governor.

Coming Events

- "Mail your Films to Garnham Photo Studio, Charlottetown.
- "Buying Timothy seed daily. McEglin and Boyle.
- "Dance, Iona Hall, Wednesday. Last dance of season.
- "Cleaning and Buying Timothy Seed daily. John Leard, Crapaud.
- "Warning! "Ma, Pa Kettle Goes to Town", Montague, Thursday, Friday, Saturday.

- "Amateur contest, fiddling, dancing, singing, Tuesday, Dec. 12. Whelan Memorial Hall, Charlottetown. Send entries to Box 127 care Guardian.

Mysterious Ice Falls From Sky Reported

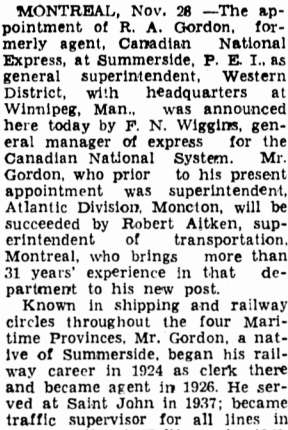

LONDON, Nov. 28 — (AP) — The Air Ministry set up "Project Ice-Bolt" today to find out if England is being bombarded by flying saucers—or what. Reports of strange ice falls from the sky have been pouring in from many parts of Southern England for two weeks. In Devon dozens of chunks whizzed down into a flock of sheep a fortnight ago, killing a ewe, said the reports. Last Friday a piece weighing five pounds crashed through the roof of a London garage. Yesterday D. J. Tummore said he saw a block 12 inches long and four inches thick plummet from the clouds as he was riding his motorcycle near Braughing, in Hertfordshire. It landed, unbroken, in a plot of grass only three feet from him. About the same time, a one-pound brick of an odd transparent material bounced to earth in front of the home of R. M. Butcher in the Essex village of Stebbing. "It is neither ice nor glass," Butcher told reporters. "I don't know what it is." The Air Ministry said the block which went through the garage roof and the one which landed on Butcher's lawn had been turned in and will be examined. A spokesman asked everybody who finds one of the frozen thunder-bolts to bring it in for examination by meteorological experts. The experts will analyze the blocks to determine whether they contain chemicals—such as airplane de-icing fluid—which would give a hint of their origin. "The only thing we can say quite definitely right now," a Ministry spokesman said, "is that these blocks of ice do not come from the Royal Air Force aircraft."

Summerside Man Heads C. N. R. Western District

Mr. R. A. Gordon

MONTREAL, Nov. 28 — The appointment of R. A. Gordon, formerly agent, Canadian National Express, at Summerside, P. E. I., as general superintendent, Western District, with headquarters at Winnipeg, Man., was announced here today by F. N. Wiggins, general manager of express for the Canadian National System. Mr. Gordon, who prior to his present appointment was superintendent, Atlantic Division, Moncton, will be succeeded by Robert Aitken, superintendent of transportation, Montreal, who brings more than 31 years' experience in that department to his new post. Known in shipping and railway circles throughout the four Maritime Provinces, Mr. Gordon, a native of Summerside, began his railway career in 1924 as clerk there and became agent in 1926. He served at Saint John in 1937; became traffic supervisor for all lines in Nova Scotia at Halifax in 1943, and assistant superintendent, Atlantic Division, at Moncton in 1944. Mr. Gordon was appointed superintendent in 1948. Born at Blackpool, England, Mr. Aitken came to Canada as a boy and joined the Canadian National Express as a clerk at Winnipeg in 1919. After serving successfully as cashier, traffic clerk and assistant chief clerk, he was transferred to Montreal in 1931 as chief clerk to the general manager and, while the war traffic was at its peak, in 1943, was promoted to special representative. Mr. Aitken was appointed superintendent of transportation in 1945.

Mr. Robt. Aitken

OTTAWA, Nov. 28 — (CP) — Canada's September milk production totalled 1,531,000,000 pounds compared with 1,598,000,000 in September last year, the Bureau of Statistics reported today. This brought the nine-month production total to 13,067,000,000 pounds, against 13,163,000,000 pounds for the corresponding period of 1949. The dairy butter make in September was 3,604,000 pounds, and decline of 10 per cent from the corresponding month of 1949. The Bureau said all Provinces shared in the decline, except Nova Scotia, New Brunswick and British Columbia.

Four American Divisions Faced With Disaster

MacArthur Calls Emergency Conference of Officers in Tokyo.

TOKYO, Nov. 29 — (Wednesday) — (AP) — Chinese Communist troops, swarming like locusts along "every road, gully and ridge-line" in a widening break-through, threatened Tuesday to overwhelm four U.S. divisions in Northwest Korea. Simultaneously, seven Chinese Red divisions opened an offensive in the snows of the northeast front against two more U.S. divisions. Two mysterious four-engine planes appeared over this front. An estimated 200,000 Chinese and 70,000 Korean Reds were in the combined offensives. Already their pressure had caused four South Korean divisions to crumple, exposing the right flank of the retreating U.S. Eighth Army in the northwest. Dangerous holes were opened in the centre of the line. Other Reds infiltrated back of the lines, setting up road blocks. The main supply road to the northwest front was menaced. Captured Chinese prisoners said the Chinese objective was to fight in Korea all winter "to destroy 50,000 or 60,000 Americans." The critical battle-front developments impelled Gen. Douglas MacArthur to summon his two top commanders in Korea to an emergency conference in Tokyo that lasted until 1:30 A.M. today. They were Maj.-Gen. Edward M.

Large Barn Destroyed By Fire At Springfield; Owner Painfully Burned

Fire, believed to have been caused by a gas lantern, completely destroyed a large and up-to-date barn belonging to Mr. Arthur Haslam, of Springfield, last evening. The blaze, which broke out about seven o'clock, was too far advanced for the Kensington fire brigade to be able to save the structure or any of its contents. The barn, which was 50 by 80 feet, housed his entire crop of hay and grain, also a tractor, a crusher and a threshing outfit, all of which were lost. Livestock in the barn, however, was saved with the exception of an unknown number of pigs, which perished in the blaze. Mr. Haslam had his hands badly burned while endeavouring to release the stock and was obliged to leave the scene of the fire and go to Kensington for medical attention. A strong wind was blowing in the direction of the house at the time and it was with difficulty that the residence was saved but due to the splendid work of the Kensington Fire Department, assisted by willing neighbors, the house was saved. The amount of the loss involved could not be learned last night but the barn and its contents was partially covered by insurance.—S.

Americans Charge Chinese Reds With Open Aggression

By FRANCIS W. CARPENTER
LAKE SUCCESS, N. Y., Nov. 28 — (AP) — American delegate Warren R. Austin today charged the Russian-backed Chinese Communists with "open and notorious" aggression in Korea. He used the term aggression on instructions from Washington after Gen. MacArthur reported: "We face an entirely new war." A poker-faced representative of the Peiping regime took notes as Austin told the U.N. Security Council the grave facts must be faced squarely by the world — and especially the Council. Austin asked the Red Chinese to direct questions which, in sum, boiled down to: Why have you thrown 200,000 troops into Korea against United Nations forces and what do you want? The American delegates called on the Council to act quickly on a six-power resolution demanding the Chinese Communists get out of Korea. This would promise to protect the Peiping and Soviet boundaries with Korea. Austin told reporters: "I am prepared to say here all night, if necessary, to get a vote on the six-power resolution." After Austin spoke, the Peiping representative, Wu Hsiu-Chuan, addressed the Council. He brushed aside Austin's questions on Korea and launched an attack on United States policies in China. Wu made it clear he would talk about Korea only if the Council took up his Government's charges that the U.S. is the aggressor in Korea. He also demanded the U.N. expel the Nationalist Chinese delegate, who was sitting across the table from him. U.N. officials said 3,000 persons were here for the meeting. Only about 500 could sit in the Council room. Austin and everyone else on the Council expected a Russian veto when a vote comes. That would free the Council of the resolution and permit the United States to appeal to the General Assembly for united action. Jakob Malik, Soviet Deputy Foreign Minister, fought for more than an hour to prevent Austin from speaking. He finally had a vote on a proposal to let Wu, the Peiping delegate, speak before Austin. Malik lost 8 to 1, with India and

TORONTO, Nov. 28 — (CP) — Minimum temperatures observed between 7.30 P. M. and 7.30 A. M., EST; maximum temperatures between 7.30 A. M. and 7.30 P. M. HALIFAX, Nov. 28 — (CP) — Official forecasts issued by the Dominion Public Weather Office tonight. Synopsis: Strong southeast winds were still blowing in the Maritimes tonight, accompanied by intermittent rain. A stationary high pressure area east of Newfoundland was blocking the motion of this zone of gales and bad weather, so little change is forecast for tomorrow. Extremely mild air over the district brought record high temperatures to at least two communities today. Both Saint John and Charlottetown had the mildest Nov. 28 on record. Regional forecasts, valid until midnight Wednesday: Prince Edward Island: Intermittent rain. Continuing extremely mild. Southeast winds 25 with gusts to 40. Low and high Wednesday at Charlottetown 50 and 55. High tide today at 12.27 A. M. and 2.26 P. M. Sun rises at 7.28 A. M. and 4.34 P. M. Summerside tide eighteen minutes later than Charlottetown.

Milk Production

OTTAWA, Nov. 28 — (CP) — Canada's September milk production totalled 1,531,000,000 pounds compared with 1,598,000,000 in September last year, the Bureau of Statistics reported today. This brought the nine-month production total to 13,067,000,000 pounds, against 13,163,000,000 pounds for the corresponding period of 1949. The dairy butter make in September was 3,604,000 pounds, and decline of 10 per cent from the corresponding month of 1949. The Bureau said all Provinces shared in the decline, except Nova Scotia, New Brunswick and British Columbia.

Cabinet To Study Korean Situation At Meeting Today

OTTAWA, Nov. 28 — (CP) — A deeply-concerned Cabinet will study the Korean crisis tomorrow and consider what Canada should do about it. There was no attempt in official circles today to try to minimize the sense of alarm felt here. The Chinese offensive already appeared to observers to have eliminated the qualifications barring Canadian support for enlargement of Gen. MacArthur's field of action. The General is reported to want the right to attack targets in Manchuria. Both Prime Minister St. Laurent and External Affairs Minister Pearson watched developments during the day through a stream of official and news reports reaching the East Block. Mr. Pearson will report to Cabinet tomorrow and is expected to head for New York and the General Assembly of the United Nations later, possibly tomorrow. He would carry Canada's official views.

Ayrshire Breeders Launch Top Sire Bonus Policy

An Ayrshire breeders' plan to bonus top notch red and white sires in the Province will be put into effect shortly, it was announced following a meeting of Ayrshire Breeders' Association directors yesterday. The plan was approved at the annual meeting of the Association last summer. An inspection committee of Messrs. R. C. Parent, Superintendent of the Experimental Farm, Fred MacRae, Deputy Minister of Agriculture and W. R. Shaw, Central Minister of Agriculture was appointed to examine about twenty sires and select those that meet the high requirements. Mr. S. C. Wright of the Provincial Department of Agriculture was appointed to act in place of Mr. Shaw in the event of the latter returning from Ottawa in time to aid in the selections. The policy is designed to improve Island herds. It will provide the Association with the knowledge of where the leading sires are located and will make it possible for the real value of the bulls to be determined before they are shipped to packing plants or sold out of the province. The policy provides for the payment of \$40 a year to the owner of grade XX sires and of \$25 per annum to the owner of grade X bulls. These sires must be made available to all purebred breeders in the community, the policy states. About twenty breeders have applied to have their bulls graded under the bonus plan. The breeders range across the province from Alberton to Eastern Kings. The animals must pass rigid inspection tests before they qualify. To grade double X a sire must be

Believe Agreement Near On U. K. Food Contracts

OTTAWA, Nov. 28 — (CP) — Canada and the United Kingdom appear to be edging toward agreement on 1951 Anglo-Canadian food contracts. An announcement may be made in the next few days. Possible completion of negotiations were indicated in official quarters with the return here of Sir Andrew Jones, head of the British Food Mission. Sir Andrew, after a week of consultations with his government in London, gave no hint of any developments. However, from other sources it was learned: 1. Britain has allocated an undisclosed amount of dollars to cover food purchasing in Canada next year. 2. Britain is prepared to sign new food agreements, on a slightly modified basis. 3. The agreements—if and when signed—will cover bacon and cheese. Canada's wheat shipments to the U. K. are being made under the international wheat agreement. Plans for other food purchases are not certain. With dollar reserves climbing, it is possible the

CCF Recommends Running Party Man For Queen's

As a result of action taken at the annual convention of the provincial party at Kensington yesterday, the C. C. F. will contest the coming bye-election in Queen's. The meeting went on record by resolution as recommending that the party contest the seat made vacant by the death of the Liberal member, Mr. J. Lester Douglas. A resolution was also passed asking the Federal Government to announce a floor price for potatoes to take effect not later than March. The retiring president, Mr. Roscoe Walker of Kensington presided and the following slate of officers was elected: President, Douglas MacFarlane, Bedouque; Vice-presidents, C.F. Gallant, Wellington and Murenick, McLeod, Irving Tombs, Albany, R.R. Present at the meeting were Mr. Fred Young, Maritime director of the party, and Lorne Ingles, national secretary. Referring to the death of Mr. Douglas, he said: "The party is saddened by the death of Mr. Douglas, but we will continue to work for the betterment of our province."

Commonwealth Program To Dam Red Threat In East

LONDON, Nov. 28 — (AP) — The Commonwealth today proposed a \$5,230,000,000 aid program to give 435,000,000 Asians a better life and to dam the spread of Communism in the Far East. The six-year program—known as the Colombo Plan—also calls upon governments outside the Commonwealth to help out with loans and grants. This is a clear invitation for the United States to link to the British plan its own "Point Four" program for aiding underdeveloped areas. The Asian governments would put up \$2,195,200,000. The remaining \$3,035,200,000 would be obtained by: 1. Drawing on the \$246,000,000 (\$688,800,000) in sterling balances held in London to the credit of India, Pakistan and Ceylon. These balances represent credits built up during the Second World War. 2. Private investment. 3. Government loans floated among private investors. 4. Loans from the International Bank of Reconstruction and Development. 5. Gifts and loans from other governments. Canada's Part In Plan OTTAWA, Nov. 28 — (CP) — The Commonwealth's six-year, \$5,200,000,000 program to avenge and save South and Southeast Asia was unveiled today, taking Canada to the verge of her first major plunge into Asia's misery and crying need. This vast co-operative effort to ward off Communism among 435,000,000 people by swelling farm
