H. H. COOK  
**Makes a Statutory Declaration Before a Notary Public.**

Toronto, Oct. 31.—H. H. Cook yesterday made the following statutory declaration before H. Gordon, notary public, for the province of Ontario:

"Having made a statement to the effect that I had been asked by a person acting on behalf of the members of the present Dominion Cabinet, or certain of them, to pay a sum of ten thousand dollars in consideration of my being appointed a member of the Senate of Canada, and this having been called in question, I deem it my duty to make a plain statement to the public of the transaction or attempted transaction. I am the more convinced that it is my duty to do this because the prime minister, Right Honorable Sir Wilfrid Laurier, has, I am informed, made a statement which he evidently desires the public to accept as a denial or authoritative contradiction of the aforesaid statement made by me. I therefore say that the facts in connection with this matter are as follows:

I was a candidate for election as the representative in the Dominion House of Commons of the East Riding of the county of Simcoe, in the year 1896, and in that contest was supported by Sir Wilfrid Laurier and other members of the cabinet as the candidate of the Liberal party. Failing of election for the East Riding of Simcoe, I made application to be appointed to a position in the Senate of Canada, then vacant. In connection with this application I had interviews with members of the cabinet and others and wrote and received letters from them, the original copies of which I have kept. After these negotiations had proceeded for a considerable length of time I received a telegram from Ottawa from one of the leading reform members known to possess the confidence of the Laurier government, requesting me to meet him at the Union station in Toronto. I did meet him as requested, and he then showed me a letter which had been written to him by one of the members of the cabinet, for the purpose, as he said, of being shown to me, in which he was authorized to inform me that I could have the position I had applied for providing I would "do something." I thereupon asked him what his expression was intended to mean, and what was the "something" I was asked or expected to "do." He then informed me that I would be required or expected to pay a sum of ten thousand dollars. I told him very emphatically that I would not pay that or any other sum. He thereupon said that he would not accept my answer as final, but would come again, after I should have had time to give the matter further consideration. Later I again met him in Toronto, when he again told me that he was authorized to say positively that if I would pay the sum he had formerly named, that is, ten thousand dollars, I would be appointed a senator. I again refused to pay any sum of money.

I further say that I have in my possession a large number of letters written by members of the Government and persons acting on behalf of one or more of such members, and copies of some letters, the originals of which I was requested to return after perusal, and did return, also copies of letters written by me in reply to letters so received, and that these letters and copies of letters bear corroborative evidence in support of the statement above made by me; and I further say and promise that should an investigation be made by a competent and impartial non-partisan commission into the whole matter of the sale or attempted sale of senatorships, as it has been recently intimated by the Hon. Sir Mackenzie Bowell, may be made, I will appear before such commission and give evidence and produce the correspondence and copies of correspondence which I have in my possession, and will also furnish the names of witnesses who can corroborate my statements.  
(Signed) "H. H. COOK."

**A VOICE FROM THE NORTH**  
LAKE TEMISCAMINGUE,

October 29, 1900.

Even in these distant regions the political swords are being crossed and wielded with great zeal. What must it be in the more advanced places and cities of Canada? To say the least it must be exciting. What causes most wonder in this country is that so many old life-long Liberal are hardest against the Government. They give as a reason that this Government has not worked on the lines of Liberal policy. Some say, "we will vote this spurious party down and will afterwards fall into line again and re-establish our good old Liberal party." Other

give general reasons—based on their ideas of good government from an up-to-date basis of reasoning.

I happened to fall in for a political meeting, which was quite a notable one, held in Ville Marie. It was decidedly a great change from 1896, as I have been informed. Ville Marie is our seaport town which went strongly and largely for the government in 1896, but will not do so on the 7th prox.

The Province of Quebec is reported to be undergoing quite a change, and it is said by our French people "That there will be a surprise in that Province."

We have an open fine fall, even in these cold regions, which, together with the fact that I am hedged in the wilderness, and as it were entirely apart from the busy marts of trade and politics, I am somewhat lonesome, but nevertheless quite well and happy, especially that I am fairly well in touch with my oldest and best friends in P. E. Island, where no doubt a certain change in politics is evident.

**SAILED UNDER THE SEA.**

The Minister of Marine of France Delighted with the New Submarine Vessel.

Minister of Marine Lanessan says: "France has solved a problem of submarine navigation. The dream of our novelists is more than realized. I have been under the sea in the Gustave Zede, and she behaved so well that I am thoroughly satisfied the desired solution has been reached. The simplicity of the apparatus delights me; the management is devoid of all complications, for the captain can steer and carry on conversation at the same time without seeming in the least preoccupied."

"It seems now as easy as sailing on the sea if the captain keeps his submarine boat well in hand."

"It is a veritable victory. Under the sea the Gustava Zede, which I take as an example, sails well in all positions and throws off torpedoes while ploughing her way under the ocean. Concerning the details of the interior arrangement I am not at liberty to speak."

**BANQUET AT ST. GEORGE'S.**

Rev. J. C. McLean, who had been pastor of St. George's Church since July 1st, 1892, and who recently assumed pastoral charge of St. Paul's Church, Summerside, was, on the eve of his departure from St. George's, tendered a farewell banquet. The pretty residence of Mr. R. H. McCormac, "The Birches," was the place where the festive board was spread, and, needless to say, presented an inviting appearance. At 8 o'clock about 30 of the residents of St. George's, most of whom were the rev. gentleman's schoolmates, together with Rev. J. J. McDonald, of Kinkora, sat down to dinner. The menu was all that could be desired, and reflected credit on the hostess and her assistants' culinary capabilities.

After partaking of the good things provided for the occasion, then was introduced the intellectual part of the banquet, Mr. J. A. McLellan acting as chairman. The toasts were drunk in cold water, and the speeches in response to each would be worthy of any gathering. All the speakers expressed regret at parting with such a true friend and adviser as Rev. Father McLean, and wished him many years of usefulness in his new field of labor.

It would be unfair to particularize any of the speeches, for they were all of uniform merit, but it must be admitted that the speech elicited by the toast, "Our Host and Hostess," was the speech of the

Toronto, Oct. 29.—The vast majority of Torontonians know and esteem Mr. R. Morrow, the able and popular general agent of the Toronto Auer Light Co.

For this reason the following statement made in writing by Mr. Morrow, possesses unusual significance.

"Two years ago I was attacked by Lumbago and Urinary trouble which caused me intense suffering I took several different remedies without any benefit. Then I began using Dodd's Kidney Pills, and was completely cured by them."
