## LAW VERSUS SAW.

Sitting in his office was a lawyer—
Standing on the street was a sawyer;
On the lawyer's anxious face
You could read a knotty case,
Needing law;
While the sawyer, gaunt and grim,
On a rough and knotty limb
Ran a saw.

Now the saw-horse seemed to me
Like a double X in fee;
While the saw,
Whichever way 'twas thrust,
Must be followed by the dust,
Like the law.

And the log upon the track,
Like the client on the rack,
Playeth its part—
As the tampered teeth of steel
Made a wound that would not heal,
Through the heart.

And each severed stick that fell,
In its fall seemed to tell,
All too plain,
Of the many severed ties
That in law suits will arise,
Bringing pain.

Then we thought the sturdy paw
That was using axe and saw
On the wood—
Had a yielding mine of wealth,
With his honest toil and health—
Doing good.

If the chips that strewed the ground,
By some stricken widow found,
In her need,
Should by light and warmth impart
Blessing to her aged heart—
Happy deed!

This conclusion then I draw,
That no exercise of jaw,
Twisting Indian Rubber Law,
Is as good
As the exercise of paw
On the handle of the saw—
Sawing wood.

A Rebel Canine Despatch Carrier.—An officer who came up from City Point to-day, had with him an ugly looking specimen of the genus canine, which he guarded very carefully. The dog, it appears, was a great pet with both our own and the rebel pickets, in front of Hancock's corps. The dog had been trained to carry messages between the pickets. A rebel paper would be placed in his mouth and he would scamper off to the Union lines, deliver up the paper and return with a Northern paper. He had been entrusted with packages of coffee and tobacco, and always delivered them promptly and safely. The rebs, however, tried to make use of him for transmitting information from one portion of their lines to another, and the four legged messenger having been caught with one of these messages, he was confiscated and sent North.

Fortifying New York.—The Federal authorities are making special efforts to render the defences of New York harbour secure. Besides adding to the strength of the fortifications already built, and pushing forward the new works, many heavy guns are mounting, particularly at Fort Hamilton, and nearly all are of fifteen-inch calibre. Six of these heavy guns are mounted at that post, others are ready to mount, and the whole number to be placed in position there is about thirty. A twenty-inch gun—reported to be the only one so far successfully cast and completed—is nearly mounted. A number of workmen are employed upon it, finishing the machinery and polishing the cannon. It will be ready for use in a short time. This gun is not far from six feet at the breech, and weighs 116,467 pounds, or fifty-eight tons. It is mounted on a carriage suited to its great size and weight, and is trained on the Narrows.

It appears from the published vital statistics of Ireland that in Connaught, the province in which decidedly the poorest people on the Island reside, the longevity is greater.

They hung a contractor out in Indiana a few days since. He had contracted so much that it was advisable to stretch *him* a little.

The Sackville *Borderer* states that a little girl at Westock, named Bagley, was poisoned last week by eating the seeds of a plant, commonly known as "Thorn Apple." Dr. Knapp was called in and administered medicine, and succeeded in getting the poison from the sufferer.

A Yankee has invented a new and cheap plan for boarding. One of his boarders mesmerizes the rest, and then eats a hearty meal—the mesmerized being satisfied from sympathy.

Musical.—A celebrated composer wrote to a friend requesting the pleasure of his company "to luncheon; *key of G.*" His friend, a thorough musician, interpreted the invitation rightly, and came to the composer's house for luncheon at *One, sharp.*

The bridge which is to span the Ohio river between Cincinnatia and Covington will cost a million and a half of dollars, and in length will exceed the Niagara bridge some 400 feet. It will be suspended 90 feet above high water, enabling the largest steamers to pass under without difficulty.

We are glad to learn—as we do from the *Home Journal*—that an effort is to be made to find the grave of Edgar Allan Poe, at Baltimore, and erect thereupon a monument to the memory of America's first distinguished poet.

Two new statues are shortly to be erected in Edinburgh—one to Allan Ramsay, the poet, the other to John Wilson, the "Christopher North" of *Blackwood*. Both will be placed in Princes-street Gardens.

Discoveries of gold are very common now-a-days—according to newspapers. Vancouver Island has been added to the list of happy auriferous places. Great excitement thereupon prevails on the Pacific coast.

Since the Turkish Government has adopted the plan of distributing cotton seed gratuitously to the planters, the produce has increased considerably. The exports from Smyrna have been quintupled since 1860.

A Good Story.—The following story is going the round of Paris:—"A small German baron had occasion, as it seems, to see Baron Rothschild, of Frankfort. The great financier was writing away for very life when Baron X. was announced. He did not even lift his eyes, but said, 'Take a chair, Sir.'—The baron, with true German touchiness about titles, said, 'Sir, indeed! I think M. le Baron did not hear my name. I am a baron, also—the Baron X.'—'Ah! a thousand pardons,' said the banker, still writing. 'You are a baron—take two chairs, then, if you will be so kind, and wait till I have finished this letter.'"

"The man who raised a cabbage head has done more good than all the metaphysicians in the world," exclaimed a speaker at an agricultural meting.—"Then," remarked a wag, "your mother ought to have the premium."

"I wonder where those clouds are going?" sighed Flora, pensively, as she pointed with her delicate finger to the heavy masses that floated in the sky.—"I think they are going to thunder," said her little brother.

"I thought I should have split my sides," hissed a steam-boiler on being re-filled with water.

Snowdrop.—Natures's delicate announcement that she is coming out in full dress.

A young gentleman with an enquiring mind, wishes to be enlightened on the following:—If brooks are, as the poets call them, the most joyous things in Nature, what are they always murmuring about?

Why is type-setting beneficial to a nervous man?—Because he can *compose* himself.

### Advice to the Farmers of P. E. Island.

AS the season for Harvest operations is approaching, and as the crops promise to be unusually abundant, the undersigned begs to remind Farmers throughout the Island that he has just received an Invoice of his Stock of

**Manny's Celebrated and Wonderful Mowing and Reaping Machines,**

which save immense time, labor and money to those who use them, as is proved by the well established fact that they will enable a Farmer to save his crops four or five weeks sooner, and at less than half the cost, than he could do the work by the old fashioned Hook and Scythe, now rapidly going out of use, with the older and still more useless Flail. No enterprising or temperance Farmer should be without one of those wonderful Machines; the cost is comparatively trifling, and no man who is able to bear the cost should think of hiring one, as before it came to his turn to hire one of the Machines that might be in his neighbourhood, he would, perhaps, lose the chance of securing or selling his crop to advantage.

The Mowing and Reaping MACHINES were never in greater demand in the United States than at present. The scarcity of manual labor in that country, caused by the number of Farmers killed and wounded in the present War, renders such LABOUR-SAVING MACHINES more desirable than ever, and it will be almost impossible to secure a sufficient supply hereafter for the use of the agriculturalists of this Island. Now is the time to secure them. The undersigned, knowing that they would be in great demand, ordered a considerable number of them for the use of the Farmers of this Island, but could not get more than half he required, which he is prepared to sell for Cash or approved credit, for one or two years, if they are ordered before the 25th inst.

The following Agents will act for the Subscriber in selling those extraordinary and beautiful MACHINES which are so well adapted for saving labour and money; and the Subscriber hopes that they will send their orders immediately and use their best exertions to promote their sale, and thereby advance the best interests of the Colony. The Machines have just arrived in the Steamer "Commerce," and one of them, together with some patent ploughs, will be on exhibition at the North American Hotel, where an office will be opened for the sale of all such goods, during the season.

## DENTISTRY.

**Dr. Louis de Chevry,**
**Surgeon Dentist, (from Paris.)**
Great George street, Charlottetown.

ARTIFICIAL TEETH inserted in every style, with such a close imitation of nature that the most skilful eye cannot discern the difference. The greatest care is bestowed upon the manufacture of the plates, and their make and finish bear evidence of fine workmanship. All dental operations are performed with professional dexterity. Teeth inserted with or without extracting the roots—the best substances are employed. All work warranted as represented. Prices moderate.

*Advice given daily free of charge.*

### DENTIFRICE ELIXIR,

For Purifying the mouth and Preserving the Teeth, prepared by DR. DE CHEVRY, Surgeon Dentist, (from Paris.) This Elixir strengthens the gums, renders the breath agreeable and keeps the mouth in a constant state of freshness and health, and is indispensable to those wear artificial teeth. Directions—Put a few drops of the Elixir in a little water, dip the brush, and clean the Teeth as usual.

### SUPERIOR TOOTH POWDER,

Infallible remedy for the Toothache.

☞ DR. DE CHEVRY will be found at his Office at all hours of the day.

September 19, 1864. 3m

### C. L. STRICKLAND,

**Surgeon & Mechanical Dentist.**

DECAYED Teeth filled and restored to their natural shape and usefulness with GOLD and PLATINA.

Teeth inserted on Gold, Silver and Vulcanite, the Vulcanite, although a new thing here, has been used long enough elsewhere to prove it to be one of the most valuable improvements ever made in MECHANICAL DENTISTRY.

Many persons who cannot wear Gold and Silver in the mouth can wear the Vulcanite with ease and comfort.

The acids of the mouth have no galvanic action upon it whatever.

It is free from all taste or smell.

It being one continuous piece, there is no possible chance for the lodgement of food or the secretions of the mouth.

It is kept clean with much less trouble than Gold or Silver.

It possesses more strength than a base of Gold or Silver and is at the same time much lighter.

In case of great absorption of the gums, the cheeks being thereby caused to look hollow and unnatural, this base can be built out so as to give the cheeks their former fulness in appearance.

The expense of the Vulcanite being much less than Gold is placed within the reach of those of more limited means.

☞ Chloroform used in extracting.

### DR. BRIDGE'S PATENT FOOD,

For Invalids and Persons of Impaired Digestion.

**Recommended by the Faculty.**

THE PATENT FOOD is so carefully and scientifically prepared that it is immensely superior to Arrowroot, Sago, Tapioca, Bread, Biscuit, Corn Flour, or any other kind of farinaceous food for Infants, not alone from its purity, strength, and nourishing properties, but also from its having been peculiarly and thoroughly cooked in its manufacture, which renders it more easily digestible. It cannot cause Acidity or Wind. It is very agreeable, and, from the nature of its composition, is exactly adapted for all conditions of the stomach. It can be made ready for use, without trouble, in two or three minutes.

Mixed in Beef Tea, Milk, or any other fluid, the Patent Food is pre-eminently suited to Invalids, from its wholesome and strengthening qualities. It is a real blessing, and from its remarkable cheapness accessible to all.

One trial will prove its efficacy—it will recommend itself. Sold by

### THE INVALID'S FRIEND!

**HOLLOWAY'S PILLS.**

#### Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer, or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of the Pills every night; eat plenty of solids, and avoid the use of slops. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

#### Mothers and Daughters.

If there is one thing more than another for which these Pills are famous, it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

#### Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water, or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

#### The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperate or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm—in fact they never fail in curing all disorders of the liver and stomach.

#### Bronchitis, Diptheria, Coughs and Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing, and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonory complaints.

#### Debilitated Constitutions.

In cases of debility, langour, and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

#### Biliousness, Loss of Appetite, Headache, and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

FARMERS will find it a saving to them of many dollars by using these powders. When fattening Stock, by mixing a little of these Powders with the food, you will find that it will make one bushel of Feed do more good than two bushels given without the Powders. In feeding one hundred bushels of grain, a man can save at least fifteen bushels by using these powders. Use them and you will find it so.

The many DISEASES of HORSES can almost all be prevented or cured by these Powders.

One Powder drives out Worms. One Powder cures Bots. One Powder puts a Horse in condition. One Powder makes a Horse shed his coat. One Powder gives a soft and glossy appearance to the hair. One Powder cures the Horn Distemper in Cattle.

The CARLTON'S CONDITION POWDERS, given according to directions, are the best thing in the world to strengthen a horse, and to restore him to health and vigor after severe exposure or hard driving.

These Powders cause a healthy action of the digestive organs, and purify the blood of animals, thereby equalizing the circulation of the blood and imparting vigor to the whole frame. This soon demonstrates itself by an improvement in the appearance of the coat, for it is a certain fact that no animal can be in perfect health if the coat be rough and unthrifty.

**Carlton's Condition Powders**

will be found a perfect tonic and restorer after attacks of any acute diseases, such as Inflenza, Strangles, Inflammation of the Lungs, Nasal Gleet, etc.

Every one who owns Stock of any kind should use this Medicine, it is always beneficial, and is so harmless that it can always be given without fear.

Farmers who are Fattening their stock should use these CONDITION POWDERS. They will keep all kinds of stock healthy and in good heart, and make them fatten much easier and quicker than they otherwise would.

**Hunnewell's Great Remedies.**

**Hunnewell's Eclectic Pills.**—THE TRUE FORM OF A CATHARTIC.—By the application of true Medical Laws, both character and economy are combined in this most valuable Pill. To prevent putting into the stomach such quantities of indigestible and injurious drugs usually contained in Pills that require from four to six to get a decent cathartic, and to prevent the *Griping Pains* so erroneously judged to be evidence of character, was the study in this development. The dose seldom exceeding *one* and never more than *two* Pills, settles the question of economy, and confidence is asked to test their true character in *Dyspepsia, Costiveness, Biliousness, Liver Complaints, Piles*, all derangements of the *Stomach and Bowels*, and as a true Family Pill. For *Worms* they are a sure cure.

**Hunnewell's Universal Cough Remedy.**—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which *Throat and Lung Complaints* can be effectually cured.

To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be sacred, in *Colds, Coughs, Hoarseness, Sore Throat, Bronchial* and *Asthmatic Complaints, Whooping Cough*, and to all *Throat* and *Lung Complaints*, which, when neglected, end in *Consumption*. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

**Hunnewell's Tolu Anodyne.**—This justly celebrated preparation, which has so truly earned the name and fame of a *True Anodyne* by results which had baffled every other attempt at cure or relief in *Neuralgia, Gout, Nervous Headache, Tooth* and Ear Ache, Cholera Morbus, Pains in the Stomach or Bowels, Hysteria, Distress after Eating, Loss of Sleep, General Nervous Debility, Paroxyms in Asthma and Whooping Cough, now declared to be largely nervous, and the pains in Monthly Menstruation, also declared to be one of the most important points in medicine. A lady writes from New York, "were it ten dollars a drop, I would not be without it in my family, and not one should be without it."

### DR. LA'MERT

ON

**SELF-PRESERVATION.**

PRICE WITH ENGRAVINGS AND CASES, 1s 6d., BY POST, 3s. CURRENCY.

SELF-PRESERVATION: A popular Essay on Nervous and Physical Debility, resulting from injurious habits contracted in youth, or excesses in maturity, which, by prematurely exhausting the functions of manhood, destroy the happiness of Married Life, or prevent the fulfilment of engagements that constitute the most cherished objects of existence.

By Dr. La'Mert, 37 Bedford Square, London, Licentiate of the Royal College of Physicians of Edinburgh; Member of the Royal College of Surgeons, England, &c.

The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigour upon which the hopes of posterity depend. It also points out how all the attributes of manhood can be preserved to an advanced period of life, how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions, and dangerous remedies so generally resorted to by persons, who, practising with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.

The author is the only legally qualified practitioner whose name stands on the 'Medical Register,' (the sole test of medical qualification) who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple and easy mode of treatment.

At home for consultation daily from ten till two, and from six till eight, either personally or by letter—37 Bedford Square, London, England.

Patients residing in the Colonies can be successfully treated by correspondence, and remedies can be forwarded in secresy and safety to any address.

### MOFFAT'S LIFE PILLS

AND

### PHŒNIX BITTERS.

THESE Medicines have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to porsens suffering under nearly every kind of disease to which the human frame is liable.

**IN MANY THOUSANDS**

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibably proved that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifost and sensible action in purifying the springs and channels of life, and indulging them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither *Mercury* nor *Antimony* nor *Arsenic* not any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmacentical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual Costiveness with all its train of evils, or sudden Diarrhœa with its imminen dangers. This fact is well-known to all regular anatomists who examine the human bowels after death; and hence the prejudices of these well informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible.

Dyspepsia, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind. *Flatulency, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Langour*, and *Melancholy*, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels costive within two days.

Diarrhœa and Cholera, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

Fevers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure *Rheumatism* permanently in three weeks, and *Gout* in half that time, by removing local inflammation from the muscles and ligaments of the joints.

*Dropsies* of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence they have ever been found a certain remedy for the worst cases of *Gravel*.

Also *Worms*, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

*Asthma* and *Consumption*, by relieving the air vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces those dreadful diseases.

*Scurvy, Ulcers* and *Inveterate Sores*, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

*Scorbutic Eruptions* and *Bad Complexions*, by their alternative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of *Salt Rheum*, and a striking improvement in the clearness of the skin. *Common Colds* and *Influenza* will always be cured by one dose, or by two even in the worst cases.

Piles. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well-known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of thirty-five years, and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. He, however, at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

**FEVER AND AGUE.**

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

**Bilious Fevers and Liver Complaints.**

*General Debility*, Loss of Appetite, and Diseases of Females—these medicines have been used with the most beneficial results in cases of this description:—King's Evil and Scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Colic, are speedily cured.

**MERCURIAL DISEASES.**

Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.

**BE CAREFUL OF COUNTERFEITS.**

Several have lately been discovered, and their nefarious authors arrested, both in the city of New York and abroad.
