Foreign Doctors Fail In Tests
CHICAGO, (AP) — Nearly half the number of foreign-trained physicians who sought licences to practice in the United States last year failed to pass required tests. This was disclosed by an American Medical Association council today in reporting that an over-all total of 218,522 physicians—an all-time high number—were licensed to practice in 1953. The AMA council on medical education and hospitals said 796 foreign-trained physicians were successful while failures numbered 667, or 43.5 per cent. Only 8.8 per cent of the graduates of approved medical schools in the U. S. failed, the report showed.

The sudden passing of Mrs. Ralph E. Dingwell in the City a few days ago is regretted. Born in this vicinity, she was Isabelle Leslie and a member of one of the finest families anyone could know. After her marriage, she moved to the city but later returned to this vicinity when her husband entered business with Mr. Rossiter under the firm name of Dingwell and Rossiter. Following the sudden passing of her husband a number of years ago, Mrs. Dingwell returned to the city with her family. The memory of Mrs. Dingwell will linger long in this vicinity where her old home still stands out.

The holiday was just another busy day for the farmers and fishermen here and others who had the day off spent the time cleaning up and painting around the home. There are about a dozen homes here in the running for the rural beautification contest this season.

The passing of Mrs. James McKenna at her home in Newtown Cross last week is regretted by those who knew her here from her many visits to the parochial house to visit her son who has been pastor of both Catholic Churches for 12 years.

Miss Ann Hickey of Seven Mile Bay, was a welcome visitor to Savage Harbour during the week where she was the guest of Mr. and Mrs. Cyril Morrison.

Good things can be dangerous. There is no better light than that produced by gasoline lamps or lanterns yet great care must be exercised in their use. At a house party held recently in this vicinity, the gasoline light was moved closer to the window than usual so that a little more space would be available. In a very short time the cur-

Mr. Fred Mosher of Savage Harbour, veteran of World War II, left on Thursday by ambulance and plane on return to Camp Hill Hospital at Halifax, where treatment will be continued. Some seven months ago Mr. Mosher underwent a serious operation and since that time his body has been almost entirely encased in a cast as is also one of his legs. Many men under like conditions would be morose and downhearted, but not so the genial Freddie, who is as full of fun as the day is long and goes along with the one thought that next time the doctors will find things better and he will be freed from some of his physical burdens. All join in the hope that Freddie's every hope will be fully realized and that very soon he will be restored to a full measure of health.

Fishing continues good, so say the fishermen who sail out of Savage Harbour. It is true that weather conditions are not always the best and on many days the boats swing idly at their moorings, but boy oh boy when they haul everybody's happy for the fishing is really good. It has been said so you can never tell how good fishing is by asking a fisherman for even if he were getting a boat loaded a day he would say "fair" or "there's a pick." But this season that is not true at Savage Harbour, of six fishermen met at random over the week-end and faced with the query "How's the fishing?" "Everyone of the six answered "Good". But then this is Savage Harbour so named because of the ferocious honesty of its people. Tom Smith of Mt. Stewart is at the moment leading boat there are many not too far behind May the good fishing continue right on down to the end of the road is the sincere wish of all non-fishermen as well as fishermen, for by the success of the latter can the prosperity of the

corner be measured.
