the PM. Not a word. "All we have received is criticism!"

Mr. Diefenbaker hadn't yet added up the NDP leader's promises; but they were even costlier than Mr. Pearson's...

These are the fellows that think it is "as simple as ABC" to run this country! All they have to do is "go into business, make big profits, pay social assistance and 'all is well'!"

Having studied Mr. Douglas off in this fashion, the Prime Minister went on to the more important subject of the 50th Saskatchewan Day.

For Young Canadians
Some time ago the publishing firm of W. J. Gage Limited, Toronto, announced plans for a long-term program in the development of the "short story, essay, play and poetry" for children.

The results to date are embodied in two new anthologies: "Nunny Bag", for children from six to nine years old, and "Rudaboo", for children from ten to twelve years, in which 29 Canadian writers are represented by 40 pieces from nearly 6,000 original manuscripts submitted by more than 2,400 authors from all parts of Canada.

The Gage company has done a fine job on these books, and we can commend them to all concerned as excellent reading aids and possessions any child would treasure. They are priced at \$4.00 each, which takes them out of the range of what many parents with large families can afford.

EDITORIAL NOTES
Here's something new in the way of education. It's a training school for animals destined to appear in films and on TV and it has opened its doors in Oxfordshire, England, to four-legged and feathered pupils alike.

Talking of campaign epithets, an exchange recalls that the late Al Smith was a born sharp-shooter in this respect. His aim was never more deadly than when he raked his opponent Theodore Roosevelt by saying, "If bunk was electricity, the Colonel would be a powerhouse."

BEER AND ULCER
B. H. writes: I was operated on for an ulcer about a few months ago. I drink milk at each meal. Would it be safe to have a couple of glasses of beer a day?

DETECTING CIRRHOSIS
R. S. writes: Can a physician make a correct diagnosis of cirrhosis of the liver from an office examination and after the patient has disclosed no symptoms? No tests were taken.

ULCERATIVE COLITIS
A. M. writes: Is ulcerative colitis curable?
REPLY: The word cure should not be used because this disease tends to come and go. Many victims have been free from symptoms for years and years.

CAREFUL BIRDS
Africa lovebirds, somewhat like parakeets, eat bark or protective resin over our crops to prevent nest lining.
