U.S., RUSSIA 'SIDE BY SIDE'

Signs Of Cold War Thaw Are Seen By Khrushchev

By DOUGLAS B. CORNELL WASHINGTON (AP)—Nikita S. Khrushchev contended Wednesday that Russia and the United States must march side by side, each showing "more give," in order to avoid a war that would cover the earth with ashes and graves.

There was even time for a bit of sightseeing, to such celebrated spots as the Lincoln Memorial and the National Gallery of Art, before Khrushchev turned host at a dinner at the Soviet Embassy in honor of the President and Mrs. Eisenhower.

He tweaked a cow's ear, thumped a hog on the rump, ran his fingers through the wool on a sheep, held up one of those Belleville turkeys by the feet, and proclaimed a bit piously that Russia and the United States could solve more of the world's ills by growing more turkeys. He quipped:

THE NEW PREMIER

Recount Cuts Smith's Edge

A slight change was recorded in the voting in Fourth Queens when the recount got underway before Judge C. St. Clair Trainor in the Court House yesterday.

The 22 vote majority of Harold Smith (L) over Wellington MacNeill (PC) was sliced to 14 when the recount was adjourned till next Monday morning at 10.30.

Adjournment was made necessary by Judge Trainor being forced to summon four deputy returning officers and one poll clerk to appear here Monday. The deputies are for the polling districts of Avondale, Caledonia, Eldon East and Eldon West.

In the Avondale case it is also necessary to summon the poll clerk as well in an effort to obtain an explanation of the initials appearing on the ballots. There appeared to be a conflict as different initials were noted on some ballots.

Frequently during the proceedings errors were found in the work of deputy returning officers, with failure to differentiate between spoiled and rejected ballots the most noticeable fault. A high percentage of blank ballots indicated fault on the part of the voters while many others marked an X for two men on the same ballot thereby causing it to be rejected.

Federal Refund Arranged For \$550 Million In Bonds

By ALAN DONNELLY Canadian Press Staff Writer OTTAWA (CP) — The government's successful completion of arrangements for refunding \$550,000,000 of bond debt on Oct. 1 raises the question of how much new borrowing will be required to meet government cash needs in the coming months.

Much of the answer will depend on whether this fall's "Canada savings bond campaign" is successful in attracting a good-sized block of investors' savings into federal coffers.

Finance Minister Fleming has given only vague indications of how much new borrowing will be necessary to meet the government's cash needs of some \$850,000,000 to cover the budgetary deficit and other non-budget requirements in the fiscal year ending next March 31.

Sane N.B. Liquor Laws Said Van Horne's Goal

MONCTON (CP)—J. C. Van Horne, fiery member of Parliament for Restigouche, Madawaska, said Wednesday he intends to carry on his one-man campaign for "sane" New Brunswick liquor laws.

He said in an interview here that if only a minor charge was laid against the Chateau Restigouche Hotel in Campbellton for selling liquor, he "would start all over again."

Mr. Van Horne is president of the hotel company. RCMP raided the hotel's cocktail lounge Tuesday night. Liquor had been sold publicly in the hotel since Aug. 14 contrary to the New Brunswick Liquor Act. Mr. Van Horne had asked RCMP to press charges.

Algerians Offered To Vote On Future

By DAVID MASON PARIS (AP) — President de Gaulle Wednesday night offered to let Algeria decide its own future by the vote of its people. Under his plan they could decide if they wanted to.

He said the people's decision would come at the latest four years after peace is restored in the North African territory. Algerian rebels and their supporters seemed unlikely to go for the de Gaulle plan. Their campaign for independence continued in the field and at the UN.

Presenting his plan for ending the Algerian rebellion, which began nearly five years ago, de Gaulle said Algeria could choose secession, integration with France, or autonomy supported by France.

RCAF Pilot Rode Plane

OTTAWA (CP)—An RCAF pilot was board the Russian jet airliner that flew Premier Khrushchev from Moscow to Washington Tuesday.

The air force said Wednesday that Pte. Lt. Russell Bagnell, 28, of Ottawa was aboard the Russian TU-114 to help the Soviet crew with Canadian air regulations as the giant plane passed over Canada's east coast.

The plane passed over Gander, Nfld., and Sydney, N.S., en route to Washington. An RCAF spokesman said it is routine to place an RCAF "safety check" on all such flights over territory where Canadian air traffic rules apply.

Red China Bid Delayed On United Nations Vote

By JOSEPH MacSWEEN Canadian Press Staff Writer UNITED NATIONS, N.Y. (CP) Russia suffered a defeat Wednesday when the United Nations steering committee voted to put off for another year the question of Red China's UN admission.

The committee, working on an agenda for the newly-opened General Assembly, voted 12 to 7 with one abstention in support of a United States resolution shelving the issue, which had been raised by India.

The resolution also recommends against any consideration of excluding from the UN the government of Nationalist China, which the Soviets once more termed a "political corpse."

Russia raised support from only four non-Communist committee members although Deputy Foreign Minister Vasily Kuznetsov linked the question with the current visit of Premier Khrushchev and hoped for relaxation in world tensions.
