A. McLean, Q. C., for plaintiff, H. James Palmer for defendant.

LETTERS TO THE EDITOR

AN EXPLANATION WANTED. DEAR SIR,—Your three-starred correspondent who acts as the apologist of the School Board, in giving the times of salary and salaries of the teachers of the city schools, omits to explain why teachers of Kent and Prince Street schools should receive a higher salary than those of Queen Square. Is the explanation to be sought in mental bias more who, in some cases at least, are chosen for their political proclivities or religious prejudices? Can anything good come out of Nazareth? N.

NOTES FROM FORT AUGUSTA.

The steamer Southport made her last trip on the East River for the season on Saturday, the 10th inst., and the people of this section are well satisfied with the service rendered by the Southport, her obliging captain and crew. Captain McDougall and his men are the right men in the right spots. The duty given will never be given up by the ladies, no matter what the extent of both sexes may say. And Priestley's black dress fabrics make more beautiful gowns than any other material. Beautifully finished, they are made in the new in "Endora," something superlatively fine in texture, in appearance, in refinement, with greater weight and with the same softness as the famous Henriettes, and the ladies are all over the country, calling for it. It is wrapped on "The Varinshed Board," and the name, Priestley, is stamped on every five yards. 48 3 6

THREE TWO MOONS.—Apropos of the items giving the records of the press in respect to the two full moons in December, a correspondent sends the following taken from a paper published in 1865 to one of our exchanges: "The month of February, 1866, was in one respect the most remarkable in the world's history. It had no full moon. January had two full moons. He so had March, but February had none. Do you realize what a rare thing in nature that was? It had not occurred since the time of Washington, nor since the discovery of America, nor since the beginning of the Christian era, nor the creation of the world. And it will not occur again, according to the computation of astronomers, for 2,500,000 years."

Stylish Clothes give a man an appearance, which is a good deal in this working-day world. An air of solidity makes a man worth more in the opinion of his fellows. To have the real genuine solid air about you, it's necessary to have your clothing made to order, so there'll be absolutely no defect about the material, the makeup, the finish or the fit. High-class tailoring, such as we produce, is indispensable to correct attire. Keep your clothing above par by ordering it of us, and you'll be rated at 100. There's nothing in Charlottetown to equal our stock of Woolsens, and the way we make them up is a sartorial marvel. Those BEAVER OVERCOATS we are selling for \$18.00 are the best value we ever had. See them. S. A. McDONALD, LEADING FASHIONABLE TAILOR. Ch'town, Dec. 3, 1895—246
