

Largest Arsenal in the World.

The largest arsenal in the world is that of Woolwich. It was formed about 1729, on the site of a rabbit-warren. It has within its inclosure 230 acres of land, of which some 100 acres are covered with buildings. When in full operation it employs 18,000 persons. The amount of ammunition stored is immense, and cannon can be counted out by the hundred. The storehouse has always on hand 23,000 cavalry saddles, with a corresponding amount of shoes, nails and harness, and all military equipments, whether for land or naval service. The machinery used is some of the best in the country, a great deal of which was made in Manchester. One machine for the manufacture of fixed ammunition has the capacity for turning out 250,000 cartridge moulds daily. The several shops and buildings are connected with railways for moving material, and aggregate a great many miles.

In France the chief arsenals are at Cherbourg, Brest and Toulon; in Germany, at Spandau, Cologne and Dantzig; in Russia, at St. Petersburg; in Austria, at Vienna.

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

The Dangers of Spring

Poets and novelists go into ecstasies over what they romantically call "beautiful spring," and "gentle spring," and while, no doubt, every one is glad to see winter release its icy grasp, "beautiful spring" is, after all, one of the most deadly seasons of the year. Sudden transitions from warmth to extreme cold, with piercing, chilling winds; from dry to sloppy, "muggy" weather, all combine to make the season a most trying one, even to the hardiest constitution, while to those with weak constitutions the season is one of positive danger. Undoubtedly the greatest danger at this season of the year is from cold in the head, which very few escape, and which if not promptly and thoroughly treated, develops into catarrh, with all its disagreeable and loathsome effects. Catarrh, neglected, almost certainly develops into consumption, annually destroying thousands of lives. At this trying season no household should be without a bottle of Nasal Balm. In cases of cold in the head it gives almost instant relief and effects a speedy cure, thus preventing the development of catarrh. Where the latter disease has already secured a hold it is equally efficacious, and with persistent use will cure the worst case. From the outset it sweetens the breath, stops the nauseous droppings into the throat and lungs, dispels those dull headaches that afflict the sufferer from a catarrh. Nasal Balm is not advertised as a cure-all—it is an honest remedy which never fails to cure cold in the head or catarrh when the directions are faithfully followed, and thousands throughout the country have reason to bless its discovery. Nasal Balm may be had from all dealers or will be sent post-paid on receipt of price (50 cents, small, or \$1, large size, bottle) by addressing Fulford & Co., Brockville, Ont.
