S'side Child Home From Toronto After Successful Operation

The first "blue baby" to be treated through the Red Cross in Prince Edward Island, has just returned from the Toronto General Hospital where he was successfully operated on by Dr. Gordon Murray.

This little boy, Wayne, is just fifteen months of age and is the son of Mr. and Mrs. Alphonse Gaudet of Summerside. He was taken to Toronto on April 30th by a Red Cross worker who was attending meetings there and returned to his home on Thursday of this week accompanied by another Red Cross worker.

Wayne is very much beloved by all who have met him during the past month—the nurses in the Toronto General with whom he was a great favorite, the director of Junior Red Cross for Toronto who took a keen interest in him and wrote his parents of his progress almost daily, Red Cross volunteers in Montreal who met him on his way up and back, and those who accompanied him.

Little Wayne can now be assured of normal health, and though he is still quite frail, he will soon be able to do all the things which babies of his age can do. If Wayne had not had this operation he probably would not have survived, or if he had he would have been a semi-invalid.

This lengthy hospitalization and operation would not have been possible except for the skill and kindness of Dr. Gordon Murray and the generosity of all those who give so willingly to Red Cross funds for crippled and handicapped children through the Junior Red Cross, in the schools, the Charlottetown Rotary radio auctions and the auctions held by the Masons of Montague.

Boiler Room Of Plant Damaged

The boiler room of MacQuarrie's Dry Cleaners plant was badly gutted by a blaze that broke out yesterday afternoon about three o'clock. Although smoke filled the main building no damage was done to it except that all the clothing will have to be processed again to take away the odor of smoke.

The blaze is believed to have started by a spark from the boiler which is fired by a mixture of coal and sawdust. The boiler room is built on to the rear of the main building and when the firemen arrived it was well on fire and three streams of hose were laid to quell it.

Mr. E. N. MacQuarrie and his staff worked hard amidst the smoke to remove clothing in the plant for processing but as it turned out this precaution was not necessary.

First Round Of Conference Ends

QUEBEC, June 9.—(CP)—Eighty Commonwealth editors and publishers today completed the first round of the seventh Imperial Press Conference and prepared to leave tomorrow for Montreal for a three-day visit.

Today the delegates—including 64 from overseas and the remainder from Canada—continued a busy round of social engagements here with a visit to St. Malo industrial district and a tour on famed Isle of Orleans a few miles from the city on the St. Lawrence River.

Tonight the delegates were entertained at a banquet by three Canadian newspaper producers. They were Paper Brothers Co. Ltd., Donmacosa Paper Co. Ltd., and the Anglo Canadian Pulp and Paper Mills Limited.

The delegates were reported to have had informal talks with newspaper sources concerning the newspaper situation in many Commonwealth countries where tight supplies are a matter of concern.

Some publishers, who now are forced to turn to Scandinavian countries for newspaper supplies have indicated their hope for renewal of newspaper purchases in Canada. Canada was their most important pre-war source of the commodity.

Lack of dollars in silver-currency countries is blocking the return of this trade.

CLAXTON, DREW

tack that might come as part of total war. The Minister, under continuous interrogation through the second day of a defence debate, said this was the opinion of his advisers as the result of experiences gained in Exercise Sweetbriar in the northwest last winter.

Junior Farmers and Junior Club News

The Sea View "Whitehead" calf club held its first judging class at the home of Robert Sutherland. Three animals were judged and placed according to merit by 20 members. Morris Deacon, Department of Agriculture, gave the members instruction on judging and after the members had judged the animals each animal was discussed and their faults and good points noted.

The next judging class will probably be held at the home of Fred Donald on the 4th of July.

A Holstein-Ayrshire calf club was organized at Freetown, Wednesday, June 7th. There was a large attendance of boys and girls and a few adults.

Brewer Auld was appointed President and Louise Cairns Secretary. A vice-president was appointed for each of the three school districts, namely: Ronnie Lewis, Upper Freetown; Amy Cairns, Lower Freetown; and Chester Stetson, South Freetown. The meetings shall be on the first and third Tuesdays of each month with the third Tuesday taking the form of a judging class.

Birch Grove calf club was suggested as a name for the club by Alan Scates but no definite decision was taken as a competition may be run later to obtain a name for the club.

There was some discussion in regards to judging classes. Because of the small number of members it was thought advisable to split the club into two groups. This will be decided later.

The "Seaside" Poultry club held their regular meeting June 1st at Red Point. This club was organized in April by C. S. Soran and H. MacLean, Department of Agriculture.

The officers are as follows: President, Edon Stewart; Vice-President, Arline Robertson; Secretary-Treasurer, Berdie Kidson and Adult Director, Mr. Nelson Stewart.

This club has a membership of sixteen from Kingsboro and Red Point districts.

The following report has been recently received from Lucille Wood, Secretary of the Hope-Farmington Junior Farmers.

"As a spring project we have undertaken to improve the rural conditions in both districts by whitewashing all farm buildings and urging the owners to co-operate by removing old buildings and clearing the surroundings.

"We are now procuring a spray pump and other whitewash materials. This we hope to have accomplished before the end of June or early in July.

"Members are also organizing a Grain club. As the members were unable to get the "Abegweit" grain from town, they have sown grain that they have procured here.

"To procure funds, dances are being held weekly in Farmington School. Music by Junior Farmers and refreshments are sold. We are also selling Lottery tickets on a radio.

"As a neighbour in Mount Hope suffered the loss of his building by fire the Junior Farmers' have given him the proceeds of their last dance, which was fifteen dollars.

"The Junior Farmers have also contributed two dollars to the Manitoba Relief Fund.

"Our meetings are to be held every two weeks in Farmington School on Thursday nights. The next meeting to be held June 8th."
