Donald S. McClure, general manager of Atlantic Central Airways, Montreal, said yesterday that the RCAF felt "some of the cases could have been handled by regular ambulance service but, because the service was being provided on a grant basis, the public asked and expected this service."

He said it is only in the Maritime that the RCAF has continued to provide this service. Other provinces maintain their own air ambulance services and Newfoundland has a contract with Eastern Provincial Airways.

# PWC Elevation Is Cabinet Matter

The decision to elevate Prince of Wales College to the status of a degree granting university is now a matter for the cabinet, according to a spokesman of the department of education, said yesterday.

Dr. Dewar declined any further comment but indicated that the matter may be introduced in the cabinet before the legislature. At the last session a bill which possibly would have given the college degree granting status was shelved as it was of a degree granting university proposal was needed.

A report by the citizens committee was tabled in the cabinet and it expressed the committee's opinion that it is feasible to create another university in the province. The same report was the one presented to the cabinet earlier this year.

Asked if the bill may be introduced in the next session, Dr. Dewar said, "it's possible."

# Islanders Selected As Officer Trainees

One hundred and five junior and senior mariners from 11 high schools across Canada have been enrolled as officer cadets in the Regular Officers Training Plan (ROTP) at civilian universities.

Those selected from Prince Edward Island are: Samuel B. MacLure, Montague University of New Brunswick; John E. Richard, St. Dunstan's University; and Rumer J. Sheehak, Woodside, Mount Allison University.

Selected because of their high scholastic standing and their suitability as potential officers of the Regular Army, the officer cadets receive pay and allowances for the rank during their academic year. Tuition and book fees are paid by the Army.

Academic studies are planned by military training with the Canadian Officers Training Corps contingent at their university and during the summer at their respective commissions and must serve for at least three years in the Regular Army.

# Festival Ticket Sale Indicates Interest

The Dominion Drama Festival ticket office has been open only three afternoons, and already \$63.25 worth of vouchers have been sold. The office is now open until 11 p.m. on Wednesday, November 6 for the drama festival in May indicates the great interest in theatre by citizens of both rural and urban areas, of P.E.I. Mrs. Fichaud told.

"We've been given a wonderful chance here. There's no sophisticated theatre group," she said. This means theatre is for everyone, not just the 'sophisticates,' she went on.

The drama festival finals here will be exciting for several important reasons, she said.

"The best has been chosen before it comes," and playwrights will be given a chance to meet their impressions and opinions against those of the adjudicator as the competition progresses.

Then of course there is the obvious attraction of the new Paterson Building theatre. There will be 847 seats available, and if the present trend continues, it looks like they will all be filled.

The DDF office is open this afternoon from 3:00 - 5:30. Beginning next week the vouchers will be sold Wednesday, Thursday and Friday afternoons from 3:00-5:30, and from 7:00-9:00, Friday evenings.

# Montague Stores Prepared For Yuletide Shopping Rush

MONTAGUE — Mayor B.H. Yeo, Montague, and a number of merchants have already alerted the residents of Southern Kings that Christmas is just around the corner by lighting their premises with festive decorations.

Merchants are busy unpacking and arranging displays of gifts and toys for the convenience of the busy shopper.

The exterior of Hillside Inn has also been decorated and will shortly add the sound of soft Christmas music.

No doubt most of the exciting gifts for Christmas will be on display and the extra hours for shopping announced as in the past and there will be no need for shoppers to go any further to procure the ideal gift.

Jewellery stores, druggists, general merchants, furniture stores, and stores with toy displays as well as appliance stores appear to be going all out to satisfy their most discriminating customers.

The light snow and cooler weather has brought the Yule tide spirit into action and Montague is ready for the rush.
