He had resigned that office three years previous to its recent bankruptcy, but the late disclosures as to the mismanagement of the institution, and his own considerable and unsecured debt to the unfortunate shareholders, overwhelmed a shattered body and wounded spirit.

Ship Bread.

100 BARRELS superior SHIP BREAD for sale cheap by Peake's Buildings, May 25. SAMUEL A. FOWLE.

To the Electors of the Third District of Prince County.

GENTLEMEN; I am a Candidate for the honor of representing you in the General Assembly of this Island. The opinion which I entertain of the duties and responsibilities which attach to a Representative of the People, and of my own inability adequately to discharge them, would deter me from intruding myself upon your attention and it is only in deference to the expressed wishes of a very large number of highly influential Electors that I now appear before you.

I belong to no party, and if returned as your Representative, I shall independently, and to the best of my humble ability, discharge the duties of the important trust committed to me.

I am an advocate for Responsible Government. I desire that the people may, through their Representatives, exercise the fullest possible control over every department of the Public Service, and that the Government should not for one moment be entrusted to those who do not possess the confidence of the people, as expressed through their Representatives; and also that the Accounts of every Department should be laid annually before them, that they—the People's Trustees—may be enabled to judge whether the Public Service has been so carried on as best to serve the public interests.

To this end it is absolutely necessary that the Representatives should be FREE and INDEPENDENT,—men who will consider the approval of their consciences and the approbation of their constituents the most gratifying reward for their services,—superior to the retention of office or the maintenance of a party.

I hold that no Representative of the People should be allowed to accept an office of emolument—the Provincial Secretary and Law Officers of the Crown excepted.

The Session of the Assembly just closed has afforded a striking illustration of the evil of allowing Members of the Assembly to hold office: a Member for this County, conceiving himself a FREE and independent Member of a Deliberative Assembly, joined in a vote of censure upon the Government, for having illegally expended a large sum of the public money, and after doing so, was induced to nullify his vote, not having been convinced by argument, but openly bullied on the floor of the Assembly, and in the face of the country, and threatened by the Leader of the Government with removal from office.

Electors—of a District second to none in intelligence and independence—can you longer support such a system? If not, then elect as your Representatives men who, instead of seeking office for themselves, will well and faithfully do their best on your behalf, to secure to the Country the blessings of good government, and the proper discharge of the duties of the several public offices.

I am, Gentlemen, your obedient servant. Bedouque, May 21, 1857. JAMES C. POPE.
