

**Local and Other Items.**

**WATER MELONS, BANANAS, ORANGES, LEMONS, Apples, Tomatoes, Cucumbers, Cabbage, etc., at "The Confectionery."**

**FROST.**—On Wednesday night (July 25th), there was a light frost—clearly discernible early next morning in swampy and marshy places.

**"STRAWS SHOW," ETC.**—A certain Grit M. P. has all at once become acquainted and sociable with men in his district whom he has not known for the past four years.

**STEAMERS.**—The steamer Carroll sailed for Boston yesterday evening at 5 o'clock, with freight and passengers. The steamer M. A. Starr sailed for Halifax yesterday evening at 7 o'clock, with freight.

The black-and-tan rascal who, on Wednesday last, knocked down, kicked and robbed one of our smallest newsboys of his papers, ought to keep a close eye after a particular policeman, or he will come to grief.

At the Stipendiary Magistrate's Court, yesterday morning, Luke Higgins, drunk and incapable, was fined \$2 or 8 days; Edward McDonald, on complaint of Captain Malcolm McLeod, for larceny, received two months' hard labor; Dougald Bell, drunk and incapable, fined \$2 or 14 days; M. Dooley, on complaint of John McKinnon for assault, fined \$2 or 8 days.

In our Police Report yesterday we inadvertently inserted the name "John Humphrey" instead of "John Hawkins."

**INDIGNATION IN MONCTON.**—The Railway employes of Moncton are dissatisfied with some of the "bosses." One of the latter was hung in effigy, and an indignation meeting was held at which one speaker said:—

"I am prepared to prove that there are bosses in the Government works at Moncton, who oversee and abuse its employes when they [the bosses] are staggering about the buildings beastly drunk."

**BUSY DAY.**—Messrs. Horne, Pierce & Co. had consigned to them, per the S. S. Carroll, from Boston, on Wednesday last, twenty-seven Walter A. Wood Mowing Machines. They had then on hand three, making in all thirty machines. They sold the whole lot the same day, delivered the most of them, and had orders for eight more. They have this year sold fifty of the Wood Mowing Machines advertised in our columns. This shows the advantage of advertising in a paper that everybody reads.

**LARCENY.**—On Wednesday night a sailor named McDonald, in company with a young "corner loafer," both slightly intoxicated, entered the brig *Zelina*, at Peake's No. 1 Wharf, made their own a small bag of seaman's clothing, and were quietly leaving when accosted by the Captain, who ordered them to leave the clothing. They resisted, and the young roughs escaped to the wharf, fired and struck the Captain on the neck with a stone. Complaint was made at the Police office, and McDonald was arrested and brought before the Magistrate yesterday morning. He received two months' imprisonment with hard labor.

**Correspondence.**

**Editor Daily Examiner:**  
SIR,—In my letter of yesterday you make me say: "the assessment for the year will not, I am assured, realize \$1000, collected." It should read \$15,000. Will you please correct? and oblige,  
WARD 5.

**QUERY.**

MR. EDITOR.—Will you kindly inform your city readers who the Mr. McKinnon is that issues a card soliciting civic honors? There are several worthy citizens of that name; but the question of enquiry is who from among them aspires to become a City Father?

In his Card he uses the hackneyed phrase that he is "urged by a number of influential citizens," etc. The truth of this will be but known after the election. Again, this Mr. McKinnon will, of course, keep down the expenditure of the city. We would all expect him to say so at all events. This wise man also tells us that as to the water question, "He shall not support any measure for its introduction, until it shall have commended itself to his judgment as being thoroughly practical." No matter how much the citizens may desire a copious supply of pure water, Mr. McKinnon will not let them have any until his profound judgment is matured on the question. No matter what the ravages of fire; no matter what diseases, what suffering from panic or sickness, what loss of health—in a word, no matter what calamity may befall citizens for the want of pure water, no such inestimable boon shall they enjoy if they elect Mr. McKinnon, until he, in his wisdom, shall see fit.

ALAS! POOR YORICK.

**ODDS AND ENDS.**

SUMMERSIDE, July 26, 1877.

The first sound of our 28-pounders was heard on Wednesday night, about half-past nine. Some of the towns folk, not being used to the like, were a little scared.

Bengough, the Grip cartoonist, is advertised to give one of his celebrated lectures here next month. The *Journal* praises him up as A. 1. He is to lecture under the auspices of the "Prince Edward" Lodge I. O. O. F.

Rev. Mr. Falgatter, G. W. C. Templar, I. O. G. T., lectured in the Baptist Church here on Wednesday evening last to a full house. His subject was "Temperance." Hon. W. G. Strong occupied the chair. The lecture is highly spoken of.

The members of "Mount Lebanon" Lodge F. & A. M. held a Picnic at the island Park grounds on Wednesday last. The day being fine and cool, they enjoyed themselves as only persons who "meet upon the level" can.

The parties who sold the liquor at Birch Grove, on the 12th July, were brought before Murdoch Ross, Esq., J. P., Centreville, and fined \$40 and costs, thus proving that "the way of the transgressor is hard."

Several persons would like to have the paragraphist of the *Journal* rise and explain "where and by whom" was the entertainment given at which the amateur vocalist, after singing the first verse of "Polly Perkins," was stuck in the first line of the second verse, commencing thusly: "I asked her to marry me." We have not heard of a concert being given around here, except that by the British Templars, and they did not sing "Polly Perkins."

Several new buildings are in course of erection in this town.

The new Freight House on the railway wharf is rapidly pushed forward. So also is the extension to the English Church.

The advance agent of the Potato Bug Troup has arrived, and is on exhibition at Gourlie's Drug Store.

Rev. G. Webber, of Toronto, lectured on Monday last in the Bible Christian Church. The subject was a good one, viz., "Canada," and the lecture should have been better attended.

Two iron targets were landed here the other day for the use of our garrison artillery.

There was quite an exciting race between the Island boat and the Guelph Port boat *Secret*, a few days ago, from the Point to Summerside. The Island Steamer was ten minutes behind the "Secret."

It is reported that the inhabitants of Centreville saw fit to vote Run out of their School District the other day—the applicant having but two votes in his favor.

WALTER A. WOOD

**MOWING AND REAPING MACHINE.**

MR. BOOTH:

SIR,—I am sorry that my letter in the EXAMINER took such effect on you, and brought tears to your eyes so you could not see to answer mine till nearly three long weeks had elapsed. If I thought that it would have taken such effect on you as it did; I would not have written it. But you must bear in mind that "people living in glass houses should not throw the first stone."

When you got your eyes open so you could see to write, why did you not answer my letter to you, and not go back to years gone by? Why did you not go back and tell us who made the first Mowing Machine? You say that we sold the old played-out Sweepstake Machine as a first-class machine. I can tell you, Mr. Booth, that the WALTER A. WOOD M. & R. M. Co. manufactures and sells more of the old played-out Machines, as you call them, than the Champion manufactures altogether, let alone the large number of Sweep-stake Machines (same as we now sell). You say that we deceived the farmers by selling them a Machine that had a self binder attachment. That is an untruth. What we did say, and will say again, was that there was "a binding attachment to it; but it would not answer our broken down grain; but if any person wished to have one to cut their wheat and standing grain, we would order one for them." That is the only thing grieves you, to think that the Wood Machines take the lead through the world, with the self-binders and also the reapers. You say that it is impossible to get a self-binder. I would like for you, when you have nothing to do this winter but spend the money that you got from the farmers, to take a trip to WALTER A. WOOD M. & R. M. Co. MANUFACTORY and see if it is impossible, and ask them how many thousand self-binders they have manufactured and sold, and all giving good satisfaction. You say why not publish the names of these who got the Sweep Stake? We are not selling that Machine now. You say that it is an "old played out Machine." If that is true how was it that the same old Machine took the first prize at the trial of Mowers on the Stock Farm in the summer of 1875 over the Champion. We have all the names of the Farmers that have the same Machine that we are selling at the present time; and every man signed his own name. We did not sign their names, same as you did. You have names on your list that would not have signed your paper if you had asked them.

Why don't you publish the names of those that returned the Champion last season, and also the parties that had to get a boy to carry cold water to put on the Champion to keep it from catching fire in the field? You say that I acknowledged to Mr. Bell, on the public square, that I misrepresented him. That is not so my friend, for there were several farmers there at the time, and can bear me out that Mr. Bell said the WOOD MACHINE was the lightest draft. He endorsed all that I said in my letter. If you employ flunkeys to carry your tales, tell them to speak the truth. I saw one of your flunkeys on the square at the time. You say that Mr. Miller speaks the truth. You are the only man I ever heard of that said he spoke the truth. You say that he has my receipt for \$8.00, paid for breakage. I tell you again that is not true. I billed him for \$8.00, including the freight up and down in the steamer, and the expense of a man to bring the machine down (as the bargain was, he was to send the machine back free of charge). I told him he would have to pay me before I would give him back his notes. Mr. Miller took it so hard and said that he had only a few dollars about him, I took pity on him, and told him if he would pay me the freight and the man's expenses I would receipt the bill. So you see, Mr. Booth, that is how he has my receipt for \$8.00. I wonder if you had the bill at your side when you wrote your letter. I hope you will practice what you preach. But I'm afraid that it comes from a very bad quarter, judging from the company you keep. Mr. Booth, you speak of a "little Heathen Chinese game"—"putting money in your purse by direct misrepresentation and falsehood unmolested as you did." I want you to take the beam out of your eye and then you can see to take the mote out of your neighbor's. I always try and pay one hundred cents to the dollar—that is more than the Champion Agents do or ever did. We never sold a man a machine and charged him extra price for credit; and when the man signed the notes and went away, took up the notes and interlined in the same notes "WITH INTEREST?" Can you answer that Mr. Booth? Who was it that took from fifteen to twenty thousand dollars from the firm of WALTER A. WOOD M. & R. M. Co. some years ago; and, in a few years after, went back and asked them for the agency of the Wood Machine? Can you answer that Mr. Booth? Who was it that took twenty thousand dollars out of the Buckeye Manufacturing Co., and they got themselves whitewashed over so that they could not do anything, and went back in a few days and offered them a few dollars as a compromise? All these questions I would like to have answered by you, for I think that you have heard about this before, or any person that could give me and the Farmers of P. E. Island an idea who those parties were; so, when they are buying a Machine

from them, they will see that their is no interest interlined in their notes.

As for Mr. Miller's letter it is just the same trash that he has got the Champion Agents to write, and I answered in my last. I will let the farmers who have the Wood Machine judge how much he knows about a Machine. Now for some more of Mr. Miller's judgment.

In a letter to the Champion newspaper, Mr. Miller states that he received from Mackenzie & Stumbles a Pulverizing Harrow, upon the terms that if it did not please him he might return it. The Harrow was returned, and no good reason given for sending it back. Messrs. Mackenzie & Stumbles have sold over sixty of these Harrows, and in every instance where they have been tried, they have given the utmost satisfaction. Farmers who have them say that if the Harrows could not be replaced, they would not take three times the price of them. The only instance where one of the machines was returned was that by Mr. Miller. The conclusion which every thinking person must arrive at is, that Mr. Miller must be more particular and harder to please than any other farmer, or that he has returned the Harrow for the purpose of injuring the sale of the machines. We ask Mr. Miller why does he go to the trouble of publishing the fact, if the latter was not his motive? Now, farmers, we are not the only ones that Mr. Miller has tried to injure. But it is just like throwing water on a ducks back [coming from Mr. Miller;] for any person that know him, will say the same.

I will conclude for this time, hoping, Mr. Booth, you will answer those questions soon; for in my next I will lay before the public the full particulars of these questions. You say that you have to pay your own printing, I suppose every honest man has to do that. But it comes harder on you for you to pay your own and others; for I am sure that Mr. Miller never paid for the letters that he signed for you. And if you give him as many dollars worth of Mowing Machine Extras for every letter that you say Mr. Miller wrote to you as you give Mr. Bell for his short letter, it will cost you a large sum of money to pay your bill of printing. So I have the advantage of you here. It only costs me the printing.

Hoping to hear from you soon,  
I remain yours very truly,  
ALEXANDER HORNE.

July 27, 1877.

**FARM FOR SALE**

**CHARLOTTETOWN ROYALTY,**

THREE and a half miles from the City 52 acres of cultivated land for Sale either whole or in part. Apply on the premises to Alexander MacKinnon, or in Ch'town, to Edward MacKinnon. If not disposed of at private sale will be sold by Auction 1st. September  
Ch'town Royalty, July 24, 1877.

**CIVIC CARD.**

HAVING been urged by a number of influential citizens living in Ward 5, who deem a change at the Civic Board an absolute necessity, to offer myself as a candidate for their suffrages at the approaching election, I do so; and I beg to assure you, Gentlemen, that should you think proper to elect me, I shall endeavor, as far as possible, to keep the city's expenditure within the limits of its income. With regard to the Water question I shall not support any measure for its introduction until it shall have recommended itself to my judgment as being thoroughly practicable. All other matters concerning the general weal of the city shall receive my careful attention.

ALEXANDER MCKINNON.
