

## Art Works Seen Linking Canada

MONTREAL (CP) — Works of art in stone, bronze, wood or concrete may one day link Canada from coast to coast. A project, to be known as the Way of the Arts, has been launched here with the opening of North America's first international symposium of sculpture.

Although the idea of a highway of art is original, the means by which Canada hopes to achieve it has been adopted from overseas. The first such symposium was held in Vienna five years ago.

A number of internationally acclaimed artists are given room, board and a salary, on condition that they work in public and leave their creations behind them when the job is finished.

Eleven artists from 13 countries are at present working on great blocks of stone on the slopes of Mount Royal. Their work may be sent to points across Canada later.

The Quebec Symposium Society hopes other provinces will sponsor similar programs, to provide enough sculptures for the Way of the Arts.

The biggest use of the project creations likely will be the 1967 World Exhibition here, when artists from 30 countries will be invited to create works to be displayed at the fair.

**INSURANCE UP**  
Because of losses of more than \$20,000,000, Swedish insurance companies are to raise premiums on car insurance by 30 per cent.

### INTERRUPTION NOTICE

There will be an interruption of electric power from our Kensington Substation on Thursday morning, July 30, or Friday morning, July 31, if conditions necessitate, between the hours of 1.00 a.m. and 5.00 a.m. Daylight Saving Time.

This interruption is necessary to change the operating voltage of this substation.

The area affected will be from Travellers' Rest to Bradabane, New London, Kensington and adjacent areas.
