IN MEMORIAM

PATON—In loving memory of Andrew Paton, who departed this life November 15th, 1953. At home in the beautiful hills of God,
By the Valley of Rest so fair.
Some day, some time, when our task is done,
We shall meet dear Grand dad there.
Lovingly remembered by grand children.

PATON — In loving memory of Andrew Paton, who died Nov. 15, 1955.
Two years have passed since that sad day
When one we loved was called away.
The blow was great, the shock severe
To part with one we loved so dear.

As we loved him so we miss him
In our minds he is always near.
Lover, remembered, longed for always,
Bringing many a silent tear.
Ever remembered by wife and family.

CLARK—In memory of W. Keir Clark who passed away November 15, 1956.
I have lost a real companion
A life linked with my own
And day by day I miss him more
As I walk through life alone.

Looking back with tenderness
Along the path we trod
I bless the years I had with you
And leave the rest to God.
Lovingly remembered by his wife

CLARK— In memory of W. K. Clark, who passed away November 15, 1956.
We lost a dad with a heart of gold,
Who was more to us than wealth untold.
Without farewell he fell asleep
Leaving only memories for us to keep.
We lost, but God gained.
One of the best fathers.
The world contained.
Lovingly remembered by his children.

CARD OF THANKS

Mrs. Robert MacPherson wishes to extend a sincere thanks to the staff of the P.E.I. Hospital, the doctors and clergy, friends and relatives for their many acts of kindness during the illness and death of her husband Robert MacPherson, also to those who sent floral tributes, cards and messages of sympathy.

Dal. Student Budget Grows

A final budget meeting by members of the Dalhousie Council of Students has resulted in Students' Council passing of the largest budget in the history of Dalhousie University, $31,232.05. Meeting in a special session to wind up its budget affairs, the Council approved expenditures of $43,110 for the University Year Book, Pharos, and $3,705 for the Dalhousie Glee and Dramatic Society. The Pharos figure is $1,300 less than that spent last year while the DGDS was granted a $1,700 increase for its 1957-58 activities.

The increased budget results primarily from the increase granted to the Drama group along with $1,600 approved by the Council for the Dalhousie Amateur Athletic Club, which operates men's athletics on the campus.

SPORTS

Sports for men and women was the largest single item approved with an increase from $11,700, while the campus publication, the Dalhousie Gazette, followed with an allocation of $5,125. Murray Fraser, Halifax, President of the Council stated that although the Council would be spending the largest amount of money in its history, it was still looking forward to a surplus on the year's activities based on a prospective income of some $35,000. The income for the year, an increase over previous years has taken a jump as a result of raised fees being paid by Dalhousie students to their Students Council along with an expected jump in the gross take from University athletic participation. Mr. Fraser pointed out, however, that the surplus would not be too much above expenditures for the year in as much as the Council expected other unanounded demands to be made on it before the year is out.

PIONEER FLIGHT

First air flight in the British Empire was made at Baddeck, N.S., in 1909 by J. A. D. McCurdy.

United States attention is being given in an organization way to campaigns for accident prevention. Such programs while the immediate results may not be spectacular may in the long run mean worthwhile service in making farming a safer operation.

MARKETING BOARDS

The Financial Post which is no great admirer of marketing boards or farm organization workings carries as a news item on November 9 the following which is reproduced without comment.

"Farmers' marketing boards—under fire in a number of provinces—have taken a blow in the Maritimes.

"Prince Edward Island producers last week voted to abolish their potato marketing board. The board has had only limited powers since reorganization last year.

"Peach and hog boards, among others, have been centres of argument in Ontario. In the same province, a producers' tobacco board has taken over from grower-buyer association, with further controversy a certainty.

Criticism of producers' boards tends to centre around compulsory aspects — some producers want to market their own products—and arguments over efficiency as related to cost."

Still concerned with potatoes the Financial Post forecasts a "Sunny outlook for Maritime Farmers, oft - troubled by market sags: A New Brunswick dealer has sold 15,000 bags of potatoes in Puerto Rico; and another 55-

Janitor Wanted

The Big Cities Take Heavy Toll In Traffic Fatalities

More than 100 persons have been killed so far this year in traffic accidents in each of Canada's two biggest cities. Two of the country's smallest cities report none.

That bare comparison without further explanation helps to explain why many traffic officials fear the toll may continue to rise in bigger centres as traffic concentration increases in them.

In Ontario alone the number of motor vehicles more than doubled between 1948 and 1956. One reason is that youngsters of the wartime and post-war generations are taking to the roads in ever increasing numbers as soon as they reach the 16-year age limit for driving licences. Officials consider 1966 the peak year for this sort of traffic increase.

Add to this natural increase the continuing prosperity in most sections of the country which allows more people to buy cars and it is easy to see why governments are hard pressed to keep their road-building and improvement programs abreast of the increasing traffic.

EXPECT IMPROVEMENT

Despite some glumness, however, The Canadian Press found in a country-wide survey that there is reason to expect improvement.

In Toronto, Fred Ellis of the National Safety League of Canada says there'll be a marked improvement once "all motorists and pedestrians begin to show a little more toleration for each other."

The survey showed no marked change in the pattern of either traffic fatalities or accidents causing injury this year over last.

Compared with the largest fatality toll—117 to Oct. 31—compared with 98 up to that date last year. A spokesman for the city's traffic department said traffic is moving faster in Montreal and "the faster cars go the more serious the accidents will be."

In Toronto, the other city to top the 100-mark, there were 101 deaths in traffic accidents in the first 10 months. A year ago there were 105. Both metropolitan cities have populations of more than 1,000,000.

The proud fatality-free cities were Medicine Hat, Alta., and Trail, B.C. Medicine Hat claimed an all-Canada record with 1,000 deathless driving days within the limits of that city of 20,600 persons. Trail with a population under 11,500, ran a close second with 1,054 no - fatality driving days.

INCREASE GENERAL

In between those two extremes comparison of figures does not tell much about the traffic situation. Most cities reported an increase in the number of accidents and in some, a rise in the damage toll.

Here is the tally reported by other cities with last year's death toll at Oct. 31 in brackets for comparison:

Halifax 2 (8), Hull, Que 4 (3), Quebec City 12 (11), Windsor, Ont. 12 (8), Moose Jaw 1 (4), Calgary 9 (), Edmonton 12 (8) and Victoria 12 (16).

Most cities report they are bearing down on traffic violators. The Halifax traffic department says it has just completed a four-year survey of the city's accident pattern with special attention to areas where the most accidents occur. Extra policemen have been assigned to these spots in rush hours.

Asia, including the Asiatic area of Russia, covers nearly one-third the land surface of the earth.
