

WILLIAM SMITH O'BRIEN, Esq. — The ardent admirer of the people for our eminent countryman, far from being discouraged every day. We have reason to know that whether his consent be given or withheld, no event is more probable than the election of William Smith O'Brien by two, if not three, of the great constituencies of the province of Munster, when the next dissolution of parliament occurs.

Baron Pennefather has been erroneously announced as dead by several Dublin and London papers. The Baron is in his usual health.

Pauperism has decreased so much in the Carlow Union that the surplus of funds now in the bank enables the Guardians to dispense with a poor-rate for the present year.

ENGLAND.

MARRIAGE OF THE PRINCESS ROYAL.—In a letter from Berlin, published in the Debats, it is stated positively that the marriage of Prince Frederick William with the Princess Royal of England, will take place on the 18th of October, 1857, the anniversary of the birth-day of the Prince.

THE FAILURE OF THE BRITISH BANK.—In a letter to the Glasgow newspapers, Mr. John McGregor promises to refute all the calumnies against him, with reference to the Royal British Bank. "I was neither the projector nor founder of that bank. I was, it is true, deluded into the imprudence of becoming a director of it. But after my election, in 1852, for Glasgow, I resolved to have no connection with any joint stock company whatever; and I have carried my resolution into effect."

WILL OF THE LATE EARL OF SHREWSBURY.—The will of the late Earl of Shrewsbury makes a number of bequests. The Rev. Dr. Rock gets the chalice, vestments, and portable altar used by his lordship abroad, and £200; the Right Rev. Jas. Brown, Roman Catholic Bishop of Shrewsbury, gets all the church plate and church linen not before bequeathed, and £5000. All his papers are left to the discretion of Mr. Hope Scott. Dr. Ullathorne, Bishop of Birmingham, gets £10,000; the upper servants get a year's wages, and the under servants half a year's; each of his aunts gets an annuity of £100 per annum; Charlotte Nicol gets £50 per annum; the Countess of Torre Marino ditto; the Rev. Dr. Husbeth, of Corsey, gets £100 per annum; the Rev. Edward Price, £30 per annum; Dr. Poncet, of Brühl, in Germany, £100 per annum. All the real estates are made over to Mr. Hope Scott and Mr. Sergeant Bellasis, for the Duke of Norfolk and his son; failing them, to Lord Edward Howard; failing him to Lord Viscount Campden, son of the Earl of Gainsborough. All persons coming into possession must take the name and arms of Talbot, except Lord Campden. During their administration Mr. Scott and Mr. Sergeant Bellasis are to receive five per cent. upon the rents.

SIR JOHN CRAMPTON.—The elevation of Sir John Crampton to be a Knight Commander of the Bath marks very distinctly the approval of the Government of the way in which that gentleman fulfilled his duties as the representative of her Majesty at Washington, and the time and manner of raising him to the dignity may be considered, as intended to harmonise with the far more important indications which have been given by Lord Palmerston of his earnest desire to avoid any unnecessary offence to the American government. Approving as they did of Mr. Crampton's conduct under circumstances of considerable difficulty, it was, we think, the duty of the Government to show in some unmistakable way that the expectations cast upon that gentleman's personal honour found no echo in their minds. To do so at the moment of his landing in this country would perhaps have unnecessarily ruffled our somewhat touchy cousins across the Atlantic. Accordingly, occasion was taken to include Mr. Crampton's name in the first list of honors to be conferred upon the diplomatic corps, and, along with two other old public officers, he has been made a K. C. B. in consideration of his long and meritorious services.—Globe.

Lord Stanley has refuted, by eight weighty reasons, the advocates for the Maine Law in England—a subject which creates very little interest there, because every one knows that its being carried is simply impossible. The Times says, 'Imagine a law to make it a crime to sell a glass of ale!'

MISS NIGHTINGALE AT BALMORAL.—Miss Nightingale was specially invited to be present at the ball at Balmoral and was seated with the Royal family and the Court circle at one end of the hall. This young lady is taller than the portraits published of her would lead one to imagine; and gentleness of manner and delicacy of feeling seem to be her peculiar characteristics. In the severe attack of illness she suffered in the East, it was absolutely necessary to have all her hair cut off, and it is now therefore quite short; but a charming little cap makes a very graceful head-dress; and in the elegant and lady-like figure there is everything that bears out the ideal picture of the moral heroine of the Crimea which most have depicted to themselves.

NEW POLICY OF THE JAPANESE.—Our last accounts from the China Seas mention a highly interesting fact. The Emperor of Japan, being anxious to adjust various questions connected with the recent treaties he has concluded with the several governments of Europe and America, held on the 22d of June, at Jeddo, the capital of his empire, a solemn assembly of the principal lords and most influential personages of his court. It was decided at the meeting that two ports of the empire, those of Nangasaki and Hadodadi, should be open to the vessels of all nations. There they might repair, take in provisions, establish depots of coal, &c. The other parts of the empire, moreover, are to be accessible to vessels in distress which may take refuge in them, but which will have to put to sea the moment the danger is over. No foreigner is to be allowed to penetrate into the interior of the country without a special permission from the Chief of the State. No decision had yet been come to with regard to the commercial question. The right of trading with Japan is still exclusively maintained in favour of the Dutch and Chinese, who have long possessed it on very onerous terms, having but one market open to them, that of Nangasaki. The new policy adopted by the government of Japan will be productive of incalculable results. Hitherto no foreign vessel could enter the ports of the country to refit or take in provisions. The last decision of the Court of Jeddo accordingly constitutes a great progress. Should China, Cochin China, the Empire of Siam, and all the other neighbouring states, follow the example of Japan, the intercourse between the extreme East and the rest of the world would be completely changed.

VESEVIUS IN A COMMOTION.—Slips of earth into the principal crater of Vesuvius have been taking place for some time past. It is feared that the entire summit of the mountain will disappear in the open chasm. Violent and continual reports have of late proceeded from the volcano.

AN INGENIOUS SPECULATION.—A member of the French Academy, in a laborious dissertation on the weights and measures of the ancients, favours us with the following chronological scale of the various heights of men since the creation:—Adam, 123 feet 9 inches; Eve, 118 feet 9 1/2 inches; Noah, 103; Abraham, 27; Moses, 13; Hercules, 10; Alexander, 10; Julius Cæsar, 5. He sagely adds that if Providence had not pleased to suspend this progressive decrease, men would now be no bigger than the smallest insect.

UNITED STATES.

The Boston Post says that a telegraphic despatch received in that city on the 24th instant, states that one hundred tenements had been burned in St. John's, N. F., on Wednesday the 22nd. Loss \$50,000.

Official returns from all the electoral counties in Pennsylvania have been received. They give a Democratic majority of 2,774. In the Legislature the Democrats have a majority of three on joint ballot.

A letter from Gov. Geary, of Kansas, dated 10th inst., announces the restoration of peace in that Territory. He says that for two weeks no outrages have been reported, and that many of the most notorious characters have left the country. He adds that he will shortly proceed with a small force in pursuit of a gang of thieves in the southern portion of the territory.

The New York Herald very properly remarks: "During the remaining few days to the fourth of November the principal work to be done by the several parties in the field devolves upon the personal efforts of the members of each party among their fellow citizens, in every State, county, city, town, village, school district and hamlet in the Union. Public meetings, processions, newspaper articles, stump speeches, documents, pamphlets, &c., &c., are now unnecessary, and a wasteful expenditure of time, labour and money. The argument on all sides is closed. All that can now be done must be done by personal efforts among the people; by proper precautions for a plentiful supply of genuine tickets; by proper measures against spurious tickets, spurious voters and ballot stuffing; by liberal arrangements for invalid and poor voters who cannot well afford to lose the expenses of a day in attending the polls; by proper arrangements for the protection of the polls against bullies and ruffians, &c., &c. The personal efforts of the active and capable members of this party or that party, as they may be most usefully employed in the few important days to the great day of battle, will probably settle the question."

The New York Times has it from good authority that not less than \$150,000 was sent into Pennsylvania from the slaveholding States, in addition to the \$50,000 contributed by the Rothschilds, through Mr. Belmont, and the \$100,000 raised from the bankers and brokers of Wall-street. It is probable that very nearly \$500,000 was expended by the Democratic party in carrying the late State election.

PROPELLER WRECKED—LOSS OF LIFE.—Miheaukie, Oct. 25.—The propeller Toledo is reported to be wrecked near Fort Washington, and all hands lost. The propeller Alleghany is ashore at this place. Fears are entertained of disasters to other steamers on the Lake.

CANADA.

The sudden death of Robert Christy, Esquire, formerly representative of Gaspe in the Canadian Parliament, is announced in the Quebec Gazette of the 14th. "Only yesterday morning," says the Gazette, "he was full of life; in the afternoon he was a corpse. A scholar, a gentleman, and, in many respects, a man of mark, has passed away. May he be happy. Whatever were his faults, he had excellent qualities of both head and heart. An intelligent companion, he was a sincere friend, and never long remembered an injury, or was unwilling to repair a wrong. The cause of his death was gout in the stomach."

The Quebec Chronicle remarks:—"Other Colonial journals assure us that the well known scarlet fever, which always returns with troops, is particularly rife at this time in other places besides the capital of Nova Scotia. If so, we hope it will be attended with the same results."

NEW BRUNSWICK.

A correspondent of the St. John Freeman writes:—"The Railway from the Bend to Shediac is progressing beyond anything you can imagine. There are now employed on the whole line by the contractors, Mr. Brookfield, who subcontract commences at the Bend, Mr. Stevens, whose section comes immediately after, and the Messrs. Rankin at the Shediac end of the line, about 900 men. The Bridge at Hall Creek, near the Bend, has men employed night and day at it—the heavy cuttings close to the Bend have just as many men employed on them as can work to advantage. There are two pile-drivers at work at Hall's Creek. The length the piles are driven is about 50 feet, before they reach a firm foundation. The locomotive is now running from Humphrey's Mills, distant from the Bend about a mile, to Cook's, say about four miles toward Shediac; and from Shediac Harbour in the other direction towards the Bend about two miles are finished."

LOCAL NEWS.

THE STORM.—We are beginning to hear of the effects of the storm of last week. We have had no communication with Nova Scotia since Wednesday, until yesterday, when a schooner came in from Pictou. The Lady LeMarchant broke her shaft after leaving Pictou, and was obliged to put back, since which time she has been lying there putting in a new shaft, which was telegraphed for and sent down from Richibuctou.

On Tuesday evening the Schr. Lucy Ann brought the British Mails and part of the passengers from ship Majestic, Michael Walsh, master, which vessel was reported stranded near Pictou Lighthouse. We have gleaned the following particulars from Capt. Jordan, a passenger who came out in the Majestic. She left Liverpool on the 16th September, and experienced head winds and heavy weather going down the British Channel. On Wednesday last she came through the Gut of Canso with a fair wind; but off Cape George the wind came ahead, and on Friday morning passed Georgetown light and stood up the Gulf towards River John; the wind being heavy with thick snow, the vessel bore up for Pictou roads, and came to anchor about 4 o'clock, half a mile from the Lighthouse, in about eight fathoms of water; during the night the ship dragged both anchors, and about 2 o'clock commenced striking on the beach; but made no water until Sunday morning. When the passengers left on Monday, she had nine feet of water in the hold. Messrs. Crerar took charge of the vessel, and had a steamer alongside to render assistance, and after the wind moderated, two schooners were employed taking off goods. The Majestic is owned by W. W. Lord & Co., and had a valuable cargo of goods for merchants in this City, of not less value than £36,000 sterling.—Hazard's Gazette, Oct. 29.

Married.

At Charlottetown, on Thursday, the 30th ultimo, by the Rev. Charles Lloyd, Mr. Alexander McKinnon, to Carrie, youngest daughter of Joseph E. Weir, Esq., formerly of Bangor, Maine.

Died.

Arrivals from hence.

CORK, Sept. 30.—Alma, Taylor. GRAVESEND, Sept. 30.—Boxer, Lang. 29.—Panthe, Salmoud. DUBLIN, Sept. 30.—J. M. Ternan, May. LIVERPOOL, Sept. 28.—Marcella, Fox. LIVERPOOL, Oct. 1.—Margaret, —. S.—Volly, Camp. 9.—Polly, Campbell. CARDIFF, Oct. 5.—Sailed—Caroline, Harris.

The American Fishing Schooner Renisee, of Newburyport, United States, Capt. Rensdall, drove ashore on Thursday afternoon at Malpeque Bay, and now lies high and dry under Montgomery's Point.

CORK, Sept. 29.—The Alma, Taylor, from Buctouche, which arrived at Queenstown, 24th Sept., had lost bulwarks and decked during a gale 22d Sept., in lat. 52 N., lon. 14 W.

The ship "Henrietta," 560 tons, John Battershaw, master, of Glasgow, Scotland, from Quebec, timber laden, homeward bound, in the gale of Friday, the 24th instant, when off the north side of this island, had her stanchions and bulwarks stove in, and became water-logged and unmanageable; and in the same gale, which increased in violence on the following day, Saturday, at a late hour in the evening she struck on a bar about five miles west, on the south side of the East Point of this island, and in less than five minutes afterwards, a sea struck her and split her nearly in two, at the same time, melancholy to relate, washing overboard the master and three seamen, who were drowned; the masts, boats and all above deck, going at the same time. Soon after a number of the inhabitants had collected on the shore in the vicinity of the wreck, and at once perceived a large portion of the ship, and some timber drifting on shore, and in the morning the wrecked crew on the poop, supplicating for assistance, but as the storm was so violent, any attempt at reaching them in a boat would have been certain destruction. During the night the remaining part of the wreck drifted so near to the shore, that at daylight on Sunday morning the crew were enabled to throw a line on shore by means of a lead, and by this means a boat was hauled to the wreck, and the poor sufferers, thirteen in number, eventually all safely landed.

MLANE'S WORM SPECIFIC, PREPARED BY FLEMING BROS. The following, from a customer, shows the demand which this great medicine has created wherever it has been introduced:

BLOSSBURG, Tioga Co. Pa., March 30, 1850. MESSRS. FLEMING BROS.—Gentlemen:—In consequence of the great consumption of your "Worm Specific" in this place and vicinity, we have entirely exhausted our stock. We should feel obliged by your forwarding, via Corning, N. Y., 20 dozen, with your bill, on the reception of which we will remit you the money. From the wonderful effects of said "Specific" in this neighborhood, there could be sold annually a large quantity, if to be had, (wholesale and retail) from some local agent. If you would compensate a person for trouble and expense of vending, I think I could make it to your advantage to do so. Yours, respectfully, WM. M. MALLORY, Per W. E. PORTER.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS. OF PITTSBURG, Pa. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS.

Holloway's Pills astonishingly efficacious in Liver and Stomach Complaints.—Mr. Anthony Aldridge, of Chatham, Miramichi, suffered from a child with a sluggish state of the liver, the bowels were always in a very bad state, and he was afflicted with general ill health, he tried a variety of medicines which were recommended him by friends and the faculty, but notwithstanding this his misery sadly increased, and ultimately became in such a state that he was unable to attend to any active pursuits. At last he commenced using Holloway's celebrated Pills, which soon performed their part upon this suffering being, and after he had taken this inestimable medicine for eight weeks, he was thoroughly restored to health.

SPECIAL NOTICE.

We would refer our readers to the advertisements in this Paper of Comstock & Brother's Celebrated Medicines. The Cherry and Lungwort is the best remedy ever used for all Consumptive Affections. Azor's Turkish Balm, a beautiful Hair Restorative. Turkish Wine, better than any Alternative or Blood Purifier in existence. TRY THEM, and you will be convinced of their real worth.

New Advertisements.

Town, Nov. 19, 1853.

Notice. THE subscriber, in returning his sincere thanks to the inhabitants of Upper and Lower Grand River, Launching, St. Peter's, &c., for the generous support he has received from them during the year and a half that his Mill has been in operation, begs to inform them that he has now got a new Carding Mill completed, and will be ready to card Wool, after the 15th of May, at 2d. per pound.

Having always an abundant supply of water, he hopes to continue to give general satisfaction in grinding Wheat, Barley and Oats, at the shortest notice. And being highly impressed with gratitude for the assistance afforded by the public in repelling the acts of oppression sought to be imposed upon him by jealous and designing persons, he has determined to grind wheat for one-fourteenth, or 4 lbs. per bushel, after this date.

N. B.—Boards and Deals always on hand. ALEXANDER HAYDEN, Head of Grand River, Lot 55, April 7, 1856.
