

The Halifax Observer, in discussing the prospects of P. E. Island and Newfoundland becoming members of the Union, through Imperial coercion or Legislative deception, says:—

"This 'new nation' making is confessedly an experiment. It may or may not be disastrous to the parties engaged in it. It may—and we believe it will—deeply injure this Province. One year, at most two years, will, however, render certain all that is now doubtful concerning it. Why, then, should the Islands rashly enter it as partners with us? Why not wait until the experiment has been tried—until from our gains or our losses its wisdom or its folly has been proved? There is nothing in the Provinces, at present, which renders an immediate change necessary. They are moderately prosperous, far more so than Canada. They can lose little, though they may gain much, by waiting one or two years before they dream of linking their fate with that of the Dominion. This reason alone should induce all thinking men in both Islands to oppose resolutely any immediate action upon this question."

This is sound and we think, however, there is no well founded reason to apprehend unfair treatment at the hands of the Colonial Minister so long as the people's representatives remain true to the trust reposed in them; and speaking for this Colony, we believe a majority of the Legislature are men of incorruptible integrity. In this Island the people generally are as hostile as ever to Confederation. Even some of those who view it with favor, seem disposed to wait until "the experiment has been tried." A few professional politicians are the parties most anxious for a change.—Pat.

Our city and harbor present quite a business aspect this week. Besides Her Majesty's War Sloop Sphynx, several new vessels, a large number of coasters, and the three British Traders whose arrival we have already chronicled the L. C. Owen from Liverpool, and the Empress from Glasgow have, during the past few days, been added to the shipping in port. The Surveying Steamer Gunner arrived here on Monday from Newfoundland, and last night we had the Alambra from Boston. The merchants are busy in opening their new goods, and the farmers are equally busy digging their potatoes, and sending their surplus produce to market. In front of every shop may be seen piles of empty boxes; on the streets carts loaded with oats; everywhere bustle and activity. During the week the shipments of oats and potatoes have been 20,279 bushels of the former, and 18,412 of the latter. Among the articles entered at the Custom House for the same period, are 1,332 barrels of herrings, and 771 barrels of mackerel.—Pat.

We beg to call the attention of the authorities to the necessity of having a gas lamp at or near the south side of the Post Office. There are some five or six steps of a landing at this place, and to parties coming out of the lighted hall at night they are positively dangerous.

News by Telegraph.

FLORENCE, Oct. 15.

The revolutionary bands which entered the Papal States at different points in the eastern and southern frontier, have concentrated in Frosinone under the leadership of General Garibaldi. The report that Minotti had been arrested, proves to be without foundation.

FLORENCE, Oct. 15th (evening).

Exciting news from the South has just been received that a battle was fought near Veroli in the Province of Frosinone, between the Garibaldians and the Pontifical troops in which the former were victorious. A strong detachment of the Papal service was sent from Rome during the latter part of last week to prevent a junction of the insurgent bands in Frosinone, with the party under Monotti Garibaldi, who were unsuccessful, and were obliged to meet the united forces of the insurgents under the command of Monotti Garibaldi. A desperate fight took place outside the town of Veroli. The Papal troops were badly beaten, losing heavily in killed and wounded. The Garibaldians lost five killed and fifteen wounded. There is no report of the numbers engaged on either side. The news is received with great rejoicing by the people here.

When the Sheffield Trade Outrages were undergoing investigation, it was frequently contended that these atrocities were exceptional, and were unanimously condemned by the other Trade Unions of the mother country. The inquiries of a Commission similar to that which placed the Sheffield outrages before the public, now sitting at Manchester, have, we are sorry to say, proved the latter to be not exceptional, but general. Save that no Union Secretary has thus far confessed to the practice of systematic murder, the Stockport brick-makers appeared quite as bad as the Sheffield saw-grinders, and, in some respects, worse. A master brick-maker, who had excited the ill-will of his men by resisting a strike, had his bricks "spoiled," his sheds set on fire, and his watchman shot at. A master at Stanley Bridge had "offended" the Ashton brickmakers Union by not employing Union men. Eight men armed with sticks, staves and pistols, some of them masked, thereupon proceeded to his yard and destroyed between 18,000 and 20,000 bricks, but on the road met two policemen, with whom they had an encounter, and one of whom was shot dead on the spot. A Mr. John Tetlow committed a like offence and it was agreed to "botle him." Accordingly bottles were prepared filled with naphtha, blasting powder and slugs. They reached Tetlow's about midnight, and threw four bottles into the dwelling, one going through the window of the room Tetlow occupied. One or two combustible bottles were heard to explode in the bed-rooms into which they were thrown. The Commission has not yet concluded their investigations and further atrocities will doubtless be disclosed. The real object of Trade Unions has now been thoroughly unmasked, and it is for the true interests of honest industry throughout Christendom that, having been thoroughly exposed, they should be speedily abolished.

London, Oct. 16th. Despatches received from Italy this evening are very important. The entire press of Italy almost without exception favor the seizure of Rome by the Government. The strength of the party of action increases hourly; the recent successes have given them renewed courage; sharp fights have occurred near Ferrara and Ancona, as well as other points in the Province of Venetia, in all of which the insurgents have been successful. The Pope has called an immediate meeting of the Cardinals to consider the situation.

Turin, Oct. 15. Mazzini has issued a proclamation, in which he expects the Italian patriots in Rome to rise and proclaim a Republic.

London, Oct. 17. The weekly returns from the Bank of England show the amount of specie in the vaults decreased £847,000, since the last statement made Oct. 10th. Large amounts of specie have been shipped from London to Paris during the past week, and the current still continues in that direction. News from the south continues favorable to the party of action. The Garibaldians have taken possession of Neralia in the Papal States, where they have entrenched themselves, and await the arrival of other bands to increase their number sufficiently to enable them to make a further advance. Signor Acerbi, one of the deputies to the Italian Parliament, is Commander-in-Chief of the insurgents in that quarter of the Roman territory.

Just before the departure of the Emperor from Biarritz, on his return to Paris, he summoned a general council of his cabinet to meet him at St. Cloud to consider the condition of affairs in Italy, and decide what action France should take in the matter. The council was held yesterday, the Emperor presiding. The result of its deliberations was the resolution that France should immediately intervene for the settlement of the Roman question, but without acting in conjunction with the Italian Government to that end.

The "Monitor" of yesterday in a leading editorial reproaches the Italians with violating the laws of nations, disregarding the obligations of solemn treaties, and fostering the dangerous spirit of republicanism in Italy. Owing to continued disturbances in Italy, and the prospect of French intervention, financial depression on the Bourse increases and rents are steadily declining.

London, Oct. 18.

The following despatch has been received from Florence direct, dated to-night. It is reported that Gen. Garibaldi has again escaped from Caprera, and that he left the Island on board of an American ship. Garibaldians have re-appeared in the Western district, between Rome and the Sea, and have taken possession of the Railroad running between Rome and the seaport of Ostia, and torn up the rails, preventing all communication. It is still believed in Florence that the Governments of Italy and France have an understanding with each other, and are really associated together in the treatment of the Roman question.

At a dinner to Earl Derby at Manchester last night, Derby defended the action of the Government on the Reform question, and replied to some of the attacks on the Reform bill. Lord Stanley, Secretary of foreign affairs, spoke of the disturbed condition of Europe, but declared that notwithstanding the threatened condition of affairs, he still entertained hopes that peace would be preserved. In referring to the present relations of Great Britain, with other powers, he spoke of the controversy with the United States, regarding claims for indemnity arising out of the late war in that country. This controversy, he said, still remained open, but he entertained the hope of amicable arrangements, and that time is already soothing the feelings which might have arisen on the other side of the Atlantic.

Paris, Oct. 18. Napoleon has made an imperative demand upon the Italian Government for a strict observance of the Convention of September. The expedition of Toulon is ready to sail for the relief of Rome. It is believed the Italian Government will yield.

London, Oct. 14. There is a wild rumor that the Fenians are planning an attempt to seize the person of the Queen at Balmoral, and, although little or no credence is given to the report, precautionary measures have been taken, and the household guard at Balmoral is doubled. The last advices received from the Roman territory report that the Papal forces are falling back towards Rome. It is reported that Marshal Narvaez, the Spanish Prime Minister, has offered to the Emperor Napoleon the assistance of Spain in sustaining the temporal power of the Pope. The Emperor Napoleon accompanied by Eugenie, has arrived at St. Cloud from Biarritz. The Fenian alarm is spreading. The Government is in possession of many despatches announcing the possible plans of the Brotherhood. Troops and gunboats have been despatched to Ireland, and the entire Western coast of that Island is guarded with extraordinary vigilance.

London, Oct. 17th.

The Emperor of Austria has referred to his Council of Ministers for their consideration the address received by His Majesty from the congregation of Roman Catholic Bishops of the Austrian Empire, which recently assembled at Vienna. The address protests against the adoption of a new concordat, and strongly urges the Emperor not to make any revision in the sacred treaty now established between Austria and Rome. In his communication to the Ministerial Council, the Emperor reproves the Austrian Bishops for adopting a paper so liable to create public excitement at a time when tranquillity is indispensable for the restoration of the country, and he takes the occasion to remind them that the Emperor of Austria is a constituted Prince as well as a true son of the church. The Paris Monitor this morning asserts that the inhabitants of Rome and the Papal provinces are loyal to the Pope, and only need assistance to drive the Italian invaders from the soil.

Latest.

Paris, Oct. 20th.

All the official journals of Saturday concur in declaring that within twenty-four hours Italy must announce her determination either to support the revolutionary movements on Rome, or to faithfully execute the provisions of the September Convention. France must decide for peace or war accordingly.

Florence, Oct. 20th.

A delegation, consisting of members of the Roman Municipal Council, and headed by a Senator of Rome, was presented, praying His Holiness to give his consent to the occupancy of Rome by the troops of Victor Emmanuel.

London, Oct. 19. (eve.) The Fenian alarm does not abate. Last evening repeated efforts were made by the Fenians to burn the Police Station at Manchester, and to relieve some of their comrades there confined. The fire was extinguished before any damage was done. The Government is on the alert, and precautionary measures are everywhere taken to guard against surprise. More fighting is reported in Italy. The invaders were routed by the Pope's troops. Gold 144.

Medical Notices.

Holloway's Ointment.—In bad legs, ulcers, scrofulous sores, and glandular swellings the Ointment operates very gently, but very surely, and with a rapidity that resembles magic. It should be rubbed into the parts affected after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never been disputed by any one who has given it a trial. It contains not a particle of any substance of a noxious nature, nor is there a case on record in which it has done the slightest harm, while there are authentic reports of innumerable cures effected by it in all countries, even after every other means had been tried in vain. It is as mild in its action as it is powerful and beneficial in its effects.

The Remarkable Properties of 'BROWN'S BRONCHIAL TROCHES' for Coughs, Colds, and Bronchial Affections, now stand the first in public favor and confidence; this result has been acquired by a test of many years. Its merits and extensive use have caused the Troches to be counterfeited, and we would caution purchasers to be on their guard against worthless imitations.

The poor little sufferer will be immediately relieved by using MRS. WINSLOW'S SOOTHING SYRUP for children teething. It softens the gums, reduces inflammation, cures wind colic, allays all pain, and gives the child quiet natural sleep, from which it awakes invigorated and refreshed. Perfectly safe in all cases, as millions of mothers can testify.

MEMORANDA.

Capt. M. R. Doane, of schr. Nancy, from Labrador, reports, on Sunday, 6th Oct., at 8 p. m., 3 miles E. N. E. from East Point, P. E. Island, spoke ship Onward, waterlogged and lost of sails, making from the Gut of Canso, two fishing schooners in company.—Hs. Colonist.

The late Gales have been awfully disastrous all along the coast of Cape Breton, Magdalen Islands and Prince Edward Island. A new schooner named the Julia Dash, belonging to Castine, Maine, with a crew of 25 men, struck on a reef about a mile and a half from the shore of the Magdalen Islands, and all were lost. Evidently, the men attempted to swim ashore, as ten bodies were driven in, perfectly naked. The loss of life has been fearful among the fishermen.—Picton Standard.

The steamer understands that the Bark Harriet ran ashore on Esbaminac, on Tuesday last, during the blow and became a total wreck.

MARRIED.

At the Head of St. Peter's Bay, on the 15th Oct., by the Rev. R. P. McPhee, Michael McDonald, of St. Peter's, to Miss Jane McKinnon, 5th daughter of Hugh McKinnon, of Goose River, Lot 42.

At Rustico, on the 10th inst., by the Rev. Geo. A. Belcourt, Mr. Felix McKenna of Hope River, to Miss Charlotte J. Butler, of Lot 48.

Died.

At Rustico, at the residence of her son, Mr. Joshua Doiron, Shipbuilder, Scholasticus Poirier, relict of the late John Chas. Doiron, aged 96 years. Deceased was born in Cocaigne, N. B., and came to the Island in the year 1784. The number of her descendants is 426, of which 9 are of the fourth generation.

At Mount Roseland, Lot 48, on Sunday, the 13th inst., after an illness of 6 months, R. Augustus Mackleson, youngest son of Dr. Mackleson, Charlottetown, aged 28 years.

Mrs. S. A. Allen's PREPARATIONS FOR THE HAIR.

Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

It is suited to both young and old. It strengthens the Hair, prevents its falling or turning grey, and imparts to it a beautiful glossy appearance. It never fails to RESTORE GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR.

It is NOT A DYE, but acts directly upon the roots of the Hair, giving them the natural nourishment required, producing the same vitality and luxuriant quantity as in youth. It will restore it on bald places, requires no previous preparation of the hair, and is easily applied by one's self. One bottle will usually last for a year, as after the hair is once restored, occasional applications once in three months will insure against gray hairs to the most advanced age.

THE RESTORER REPRODUCES AND THE HAIR DRESSING CULTIVATES AND BEAUTIFIES Sold by Druggists throughout all the World. Principal Sales Office, 198 Greenwich-st, N. Y. City.

Mrs. S. A. ALLEN'S WORLD'S HAIR DRESSING.

or ZYLOBALSAMUM, is essential to use with the Restorer, but the Hair Dressing alone cures red stores, and never fails to invigorate, beautify and refresh the Hair, rendering it soft, silky and glossy and disposing it to remain in any desired position.

FOR LADIES AND CHILDREN, whose Hair requires frequent dressing, it has no equal. No lady's toilet is complete without it. The rich glossy appearance imparted is truly wonderful. It cleanses the Hair, removes all dandruff, and imparts to it a most delightful fragrance. It will prevent the Hair from falling out, and is the most economical and valuable Hair Dressing known. Millions of bottles sold every year.

Ayer's Pills.

Are you sick, feeble and complaining? Are you out of order—your system deranged and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and drive out the humor—purify the blood, and let the fluids move unobstructed, in health. They stimulate the organs of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, deranges the natural operations of that part. This, if not relieved, will react upon itself and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition take Ayer's Pills, and you will directly restore the natural action of the system, and with it the boyant feeling of health. What is true and so apparent in this trivial and common complaint is also true in any of the deep-seated and dangerous diseases. The same purgative expels them. Cautions.—Similar obstructions and derangements they are cured and many of them rapidly, cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Constiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are sugar coated, so that the most sensitive can make them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fever; indeed for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries. This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce purgation or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere. W. R. WATSON, General agent for Prince Edward Island. [sep 4 2m]

STOVE PIPE!

STOVE PIPE! STOVE PIPE!

AT MILLNER'S TIN-SHOP, Great George Street

STOVE PIPE TINS will soon be along, and the subscriber intends no man shall sell a CHEAPER OR A BETTER article than he offers. All orders punctually attended to. On hand a few Air-tight and second-hand STOVES. Also a large assortment of TINWARE, at very reasonable prices.

Soap-Stone Cut and Fitted, &c.—As the subscriber expects soon to want a little CASH, a considerable discount will be made for the same, especially in the article of STOVE PIPE AND ELBOWS! And the subscriber, ever thankful for the very liberal patronage he has hitherto received from his friends, both in town and country, still trusts—judiciously—to receive his way onward! GEORGE W. MILLNER. Sept. 18, 1867. 2m

MR. ROUGHAN.

(Late of the Customs Department) SHIP BROKER, &c., Queen's Wharf, He will attend to the weighing of COAL, OATS, HAY, &c. Charlottetown, P. E. Island

Prince of Wales College.

THE PRINCE OF WALES COLLEGE and GRAMMAR SCHOOL will be RE-OPENED, on MONDAY, the 16th current, at 10 o'clock a. m. According to altered arrangements, the Classes a both departments will be under the superintendence and control of the Principal.

The hours of attendance during the summer months, viz from April to November, will be in the forenoon from 9 o'clock to 12½; in the afternoon from 2 to 4; and in the winter months, viz: from November to April, from 9 to 2 as formerly without any interval.

An USHER for the Grammar School is wanted immediately. Application to be made to Dr. Inglis, who will state terms and duties.

The Professors of Dalhousie College, Halifax, offer for competition, to the pupils attending the Prince of Wales College, a Scholarship, entitling to free attendance on all the classes of the under-graduate course. The award to be made after examination by the Principal of this College.

The examination for said Scholarship will take place at the Prince of Wales College on SATURDAY, the 12th October next, at 10 o'clock a. m. J. LONGWORTH, Hon Sec'y. Sept. 11, 1867. 5m
