THE WORLD OF SPORT.

The Bicycle Club's Tournament Yesterday. It is computed that there were upwards of two thousand people at the Bicycle Club's tournament in the Park yesterday, and all seemed well satisfied with the manner in which the programme was carried out. The day was a grand one, and the track was in good condition. The officers in charge of the course were the same as previously announced, excepting that Mr. Louis Hunt, of Summerside, has placed Mr. Geo. Godkin as judge, the latter being unable to present.

There were good fields of starters in each event, and close finishes were the order of the day. An injury to his collar bone, sustained while practising a few days before the tournament, was responsible for the non-appearance in the races of Frank Cannon, the Summerside rider, Messrs. Caldwell, Mollison, McArthur and Grady, who entered at the last moment, with little or no training, gave an excellent account of themselves. Lorne Unsworth was the winner in most of the events, including the championship gold medals, and one silver and one bronze medal, and William Cook fought hard with Unsworth for first place, and well sustained their respective reputations. But Lorne had too much speed, and was declared a strong pedestrian, a goodly supply of which he always seemed to have on hand.

The match race between Unsworth and Morse, the latter of Chicago, was a special feature of the gathering. The distance was a half mile, and Morse proved the winner, defeating the Charlottetown boy by about a foot in 1:13 2/5.

In the novice race Harvie and Mollison collided, and the former was obliged to retire from the contest in consequence. Caldwell also had to drop out because of an accident to the handle-bar of his bike.

The quarter mile race was decided by points, and was run in four heats. Unsworth was awarded first place after the second heat, and Prowse and Cook "rode off" for second. The first "run off" was between Prowse and Cook, and the second between Prowse and Cook. In the second the contest was also close, but Cook proved the victor.

Prowse won the one mile race, cutting out the quarter mile race, and was declared a strong pedestrian. The three mile race was closely contested; but on the last half Unsworth put on one of his big spurts, and after that there was no doubt as to the winner.

Unsworth got started in the five mile race. Prowse led for the first mile with Cook second. Then these two passed and stretched each other till coming up the back stretch on the last half, when Caldwell, of Summerside, who had been pedalling in third position all through the race, put on a splendid burst of speed and came under the wire a winner.

There were four starters in the two-mile handicap. Prowse was scratched, Deane and Caldwell each had 100 yards, Harvie 150 yards and Whittle 200 yards. On the third round, just before coming under the wire, and when he seemed sure of the race, Prowse, owing to an accident to the seat of his wheel, was thrown violently to the ground. He was promptly picked up, and mounting his bike again started off once more. But after going about twenty-five yards he changed his mind and retired from the contest. It is pleasing to hear that beyond being severely shaken up he was not otherwise injured. Harvie finished first, Davies second and Whittle third, there being very little difference between them.

The slow race was very amusing. Master Trev. Taylor, by judicious wriggling, succeeded in finishing last, and was awarded first prize. H. Grady, Summerside, won second prize.

In the half-mile race for boys under 16, Master Taylor also gave a good account of himself. He was doing clever work when he lost his pedal and had to be content with fifth place, Nelson Pickard finished first, with Harry Grady second.

There were three competing teams in the hose reel race, viz., Rollo, Hook and Laidler and Bamblers. The condition was to run a quarter mile, carry 200 feet of hose, attach hose to hydrant, break and couple. The teams were made up as follows: Rollo—Bert Newsome (captain), Harry Matheson, James Matheson, Patrick Duffy, Philip Egan, Rufus Hogan, Henry Gandy, Bernard McQuillan, J. A. Miller, and John Turner.

Hook and Laidler—D. Finlayson (captain), Edward Helges, Jerrald H. Howart, Victor Goodwill, F. Kennedy, John Martin, Hooper Horne, Victor Douse, Robert Smith, D. J. McLean.

Bamblers—Thomas Bonaghan (captain), W. A. Edmond, J. J. Hennessy, T. Howart, J. Fraught, H. Meikle, W. Hughes, W. Flood, H. MacGregor, I. McMillan.

The teams were started off in the order in which their names appear, and great interest was taken in the race. The admirers of Rollo cheered lustily when it was announced that their team was the winner.

The tug of war, Charlottetown vs. All-comers, was won by the All-comers, who had by far the heavier team. Following are the names of the teams: All-comers—Hugh McLeod, L. Silliphant, Joseph Higgins, Peter Larkin, Joseph Gillis, Mitchell Brown, John McKenzie, F. H. Horne, Donald McMillan and Duncan Martin.

Charlottetown—William McDonald, D. J. McDonald, John Gillis, Harry Horne, Daniel McLaren, William McEachern, Noah Vaughan, Henry McGregor, Kenneth Finlayson and William McCarron.

Mr. John Gillis, of the Charlottetown team, authorizes us to say that he will lead a team from the city to pull against the All-comers at the Exhibition for any sum from \$10 to \$25, and that \$5 have been deposited with Dodd & Rogers to bind the match.

The flat races were all well contested and proved most interesting. Following are the summaries of the various events:—

GENERAL TELEGRAPHIC NEWS.

LONDON, Sept. 2.—Andrew Carnegie has a column in the Times this morning based upon the recent Irish convention in Pittsburg, urging the Times to use its power and influence towards finding a solution of the Irish question.

PHILADELPHIA, Sept. 1.—An earthquake shock lasting several seconds was felt in this city and its neighborhood shortly after six o'clock this morning.

LONDON, Sept. 2.—The Times correspondent at Shanghai says the Chinese Christians are being brutally harassed near Hing Hwa, province of Fo Kien. Houses have been burned and property and cattle lifted. One person was fatally wounded. The magistracy refused to interfere, although he was five times requested to do so. He has published an ambiguous proclamation referring to the Ku Cheng massacre, and inciting a rising against the Christians. Worse troubles are expected.

OTTAWA, Ont., Sept. 1.—The British Dairy Farmers' Association contemplates holding their annual meeting next year in Canada. A communication has been received from the High Commissioner on the subject, and if satisfactory arrangements can be made with the steamship people, from seventy-five to one hundred representative farmers will visit the Dominion. It is expected the Federal Government will offer facilities for the delegates to the different portions of Canada.

SAN FRANCISCO, Cal., Sept. 1.—The news-brought by the Monowai of the breaking out of cholera in Honolulu does not alarm the local health officers.

"I do not apprehend any danger from the possibility of cholera coming to this city," said Dr. Chalmer, "for every precaution will be taken to prevent it from gaining a foothold. The quarantine regulations are strict enough if carried out, and all vessels arriving from Honolulu would be submitted to the closest inspection."

This is said to be the first time cholera has been known in the Hawaiian Islands. At the time of the Monowai's sailing it was believed that cholera was under control. There had been eight deaths from the disease and there were only two cases remaining, and these were both in quarantine there. With such admirable facilities for quarantining, even if the cholera should get what might appear to be a foothold, it could be easily stamped out, the health officials say.

LONDON, Sept. 2.—An editorial in the Times this morning comments upon the grave blow which Mr. A. J. Balfour's statement is to the hopes of German and American bi-metallicists. Mr. Balfour, it will be remembered, stated in the house of commons that he did not believe that an international bi-metallic conference would result in an agreement on a ratio.

The Times says:— "The American bi-metallicists are made of sterner stuff than the German and will therefore continue to agitate; but it is less likely than ever that they will carry the country with them. There seems to be no chance that either political party will allow itself to fall under the sway of the silver men. The recent publicity of the aims of the bi-metallic party here has been a warning. We trust that the trade revival now in progress will complete the cure, and that we shall hear less and less about bi-metallicism from any quarter."
