THE DAILY EXAMINER.

APRIL 4, 1892.

Notes and Comments.

—Up to the hour THE EXAMINER was sent to press the Legislature had not met.

—The Montreal Gazette remarks that "March came in like a lamb and went out as mild as a licked Liberal."

—During the six months ended 31st December last 239,000 bushels of potatoes were exported by Canada to the Spanish West Indies; 33,000 to the States and 35,000 to Newfoundland.

—It has been charged in the Ontario Legislature that the Minister of Education has failed to stimulate, as it has been in his power to do, the desire of the young to look to farming as one of the most honorable of pursuits, rather than to the professions.

—The intention of the Admiralty to send another contingent of men across the Dominion by the C. P. R. is a significant proof of the usefulness of our great railway. The men will probably replace those brought from British Columbia a short time since. The probability is that most of Britain's communication with the East, whether military or naval, will now be carried on via the Canadian Pacific.

—The anhual report of the minister of inland revenue shows that the total amount of revenue accrued last year verges on $7,000,000, a decrease of $800,000 as compared with 1890. The principal decrease was in revenue from spirits, amounting to over $1,000,000, the quantity of spirits produced for the year was 4,397,000 proof gallons as compared with five millions the previous year. The quantity entered for consumption showed a correspondingly large decrease. In July last the distillers were holding 12,500,000 gallons of spirits in stock, the largest quantity ever held in the Dominion.

—The Empire remarks that the enormous catch of seals recently reported from Newfoundland should attract the philanthropic action of the Americans. At the same time they might perhaps note that this great sealing industry has been prosecuted in those waters for over a hundred years, and though the average annual catch has been in the neighborhood of 400,000, the seals are more numerous than ever. No case, indeed, can be found in which pelagic or open sea hunting has resulted in the extermination or even diminution of the seal. If any decrease in numbers is taking place in the Pacific, which is utterly denied by Sir George Baden-Powell and Prof. Dawson, it is likely to be due to Yankee slaughter of the seal about their own breeding grounds and not to Canadians fishing in the open ocean.

—THE Pioneer is emphatic in its condemnation of the action of the Local Government in respect to the vacancy in the Court of Probate. It says:

"Apart from the question of the fitness of the appointment, we think it was bad policy The proper course was to have waited for—nay, even to have solicited the Dominion Government to fill the vacancy. Had they done so, as they probably would, it would have relieved us from finding the salary—it would have fixed the liability for the indemnity. The Local Government has, it appears to us, acted unwisely in making the appointment, and especially in making it so hastily. By doing so they have declared that the appointment is in their hands. They have estopped themselves for all time from demanding either that the Dominion Government provide the salary for the future, or that they shall recoup us for the past. If our reasoning is correct, this is a serious and grave blunder."

The Pioneer has made a point which the Premier will have to meet—if he can.

Personal.

Mr. A. W. Sterns, of the firm of Perkins & Sterns, arrived home from his business trip to the Old Country on Saturday evening.

Lewis Carvell, Esq., was amongst the passengers in the Stanley from Pictou on Saturday.

The Mission Preacher, Rev. F. H. Du Vernet, of Toronto, is the guest of the Rev. Wm. Hamilvn, Rector of St. Paul's.

Richard Hunt, Esq., of Summerside, is at the Hotel Davies

Mr. Malcolm Beaton, of Flat River, Belfast, son of Alexander Beaton, Esq., completed his course at the Business College on Friday last, and passed a brilliant examination.

A letter received to-day by Mr. Theo. Van Iderstine, of this city, from L. B Dervey, Esq., clerk First Baptist church, Jolliet, Ill., says the article published in the Guardian and Patriot in regard to the dismissal of Rev. E. Whitman, is "false and misleading."

The Londonderry (Ireland) Sentinel says: "March 12, of influenza, at Killymard, Donegal, Margaret, the beloved wife of Archibald Mackintosh, aged 72 years, fourth daughter of the late John M'Ewen Cameron, Inverness, Scotland, and first cousin of the late Rt. Hon. Sir John A. Macdonald, K. C. B., LL. D., Prime Minister of the Dominion of Canada."

The Halifax papers report as "especially worthy of mention," the recitation of Miss Enid McLean (eldest daughter of Thomas A. McLean, Esq., of this city), in the course of an entertainment recently given in the ladies' college of that city. They also state that Miss McLean "excelled in an exhibition of calisthenics given in the assembly hall of the institution."

The Dominion Illustrated monthly for April contains a number of very interesting articles, from one of which, on "Canadian Nurses in New York," we clip the following:

"Miss Bridges, a native of Charlottetown, Prince Eward Island, who is a 'senior' in the New York, is one of the happiest mortals it has been my good fortune to meet; she seems to be always bubbling over with mirth when not occupied with her serious duties. No patient could be very lugubrious with so much brightness near him. Miss Bridges came to New York with Miss Sinnet, of Sussex, N. B., and two other friends,—all four determined on the same life; Miss Sinnet is now working at the New York. When Miss Bridges has her diploma she will undertake private nursing for a few months; after that time, I fancy, her nursing, if any, will be of a home character. From the pretty blushes that overspread the fair young nurse's face, when I asked her intentions for the future, I should judge that some fine fellow has already a mortgage on her time after she has left the sheltering arms of the training school. An Irishman, whom Miss Bridges was attending in the hospital, asked her, one day, the name of her native place. When she answered 'Charlottetown, Prince Edward Island,' he smiled all over his face, and said: 'Great place for spuds, ain't it Miss?' Miss Bridges agreed with much pride that 'spuds' as he designated the succulent and nourishing potato, were well and easily raised in the place that gave her birth."

TELEGRAPHIC NEWS.

SPECIAL DESPATCHES TO THE EXAMINER.

OTTAWA NOTES

NEW TONNAGE OF CANADA.

The Stanley to be Laid Up.

OTTAWA, April 4

The Government propose to appoint an officer to the meteorological service at Toronto, to devote himself specially to climatological work.

The number of new vessels built and registered in the Dominion during the year was 312, measuring 52,145 tons. Estimating the new tonnage at $4 per ton, gives the total value of $2,346,525 for new vessels built during last year.

It is probable that as soon as the Northumberland commences to make trips between Pictou and Charlottetown the Stanley will be tied up.

The Prohibition Commission meets here on the 18th April.

New regulations increasing the gas inspection fees fifty or sixty per cent, went into effect on Saturday.

THOSE CORRUPT GRITS.

Investigation in Nova Scotia.

HALIFAX, April 4.

The Local Government Road Scandal Enquiry is still going on. So far five witnesses have been examined. All were hostile to the prosecution. But it has been shown that the Inspector and Paymaster wrote to Hon. Mr. Church, Commissioner of Public Works, in reference to the scandalous proceedings, but that no notice whatever was taken of his complaint. Under the circumstances the Herald calls on Mr. Church to resign.

Economical Changes.

OTTAWA, April 4.

Important changes in the train service and working of the Intercolonial Railway, which it is expected will have the effect of largely reducing the cost of operating the road, are in contemplation.

Successful Medico

MONTREAL, April 4.

At the McGill College Convocation, held on Saturday, Mr. C. F. McKinnon, of Kinross, P. E. I., received the degree of M. D. C. M.

Turned Secularist.

ST. JOHN, April 4.

Dr. McDougall, formerly pastor of the Calvin Presbyterian Church in this city, has taken the straight secularist platform.

Boodlers Dumbfounded.

FREDERICTON, April 4.

No action has yet been taken in the matter of the boodling charges against the Blair Government.

Destructive Fire.

NEW ORLEANS, April 4.

Fire yesterday destroyed $2,400,000 worth of cotton and $150,000 worth of sheds, etc.

Blaze in Montreal

MONTREAL, April 4.

A fire yesterday in Bonsecours market resulted in damage to the extent of $50,000.

Hon. Alex. Mackenzie's Illness.

TORONTO, April 4.

Mr. Mackenzie is easier and his friends have hopes of his recovery.

Weather Bulletin.

TORONTO, April 4.—10 a. m.

Fair to day, with a little lower temperature

LETTERS TO THE EDITOR.

Where the Money Went.

SIR,—Referring to the correspondence in the Charlottetown papers re the St. Patrick's night concert here, I am asked to say, in order to settle the matter, that the proceeds of the concert, as well as all other financial matters in connection with the congregation, are under the control of the finance committee; and further, that Dr. Maclellan's services as choir master are paid for out of the general church funds. The concert was, consequently, not a benefit concert. Yours very truly,

S. M. BENT,
Sec'y. Fin. Com.

S'side, April 2nd, 1892.

(Guardian and Watchman please copy.)

Salvation Army Notes.

Captain and Mrs Andrews arrived on Friday at noon, to take charge of the Charlottetown corps. They received a very warm and hearty welcome from the well filled barracks on Friday evening.

Both these officers have had a long campaign in S. A. work. The captain is a Scotchman and his wife a thorough English woman. She has a very fine voice both for speaking and singing, and the large audiences in the barracks all day yesterday highly appreciated her singing.

To-night Mrs. Andrews will take a prominent part in the Junior Soldiers Demonstration, having had considerable experience in the children's work in connection with the Salvation Army.

I understand that Mrs. Andrews identified herself with the Salvation Army fifteen years ago when quite a child, and the captain has been an officer for seven years.

Come early to the meeting to night so as to secure a good seat.

The True Merits of Melissa.

As there may be some people who do not yet quite appreciate the great value of Melissa cloth for health garments, and as others may have been deceived by the misrepresentations of interested persons, we give the following description to remove false impessions:

Melissa proofed coats or other garments are just what the inventor and manufacturer claim them to be, neither more nor less. They are both rainproof, porous and odorless, therefore perfectly healthful and comfortable. They are common-sense garments, and should be treated in a common sense manner. Although rainproof they are not waterproof in the sense that a water cushion or bottle made of rubber is waterproof. Being porous, water can be forced through them, either by heavy pressure or by squeezing with the fingers. If they were absolutely waterproof they would be absolutely air-tight and therefore no better than rubber Herein lies the peculiar value of the invention. Sensible people do not buy rainproof garments for the purpose of forcing water through them or of carrying water in them, neither do they take shelter under a water-spout, nor sit in a pool for pleasure. They buy rainproof garments to wear for the purpose of protecting themselves from the weather, and a Melissa coat or mantle will effectually protect the wearer for many hours in a heavy rain or snow storm. Melissa has a peculiar water-repellant property which prevents water when falling in the form of rain or snow on a garment from penetrating the cloth, and the true way to test the utility of a Melissa garment is not by pouring a stream of water on it from a watering can, but by wearing it in a heavy rainstorm. The result will be found eminently satisfactory. Continued exposure to the weather will not impair in the slightest degree the rain-proof quality of Melissa. It is fixed and permanent. These garments, thoroughly well made from fine materials, are now on the counters of first-class dealers throughout the whole country.

DIED.

At West Royalty, on the 3rd April, Ann, widow of the late Thomas Doyle, aged 89 years.

[Funeral on Tuesday at 8 o'clock to St. Dunstan's Cathedral]

At West Great Works, Maine, on the 18th of March, at the age of 3 years, 4 months and 20 days, the beloved child of Captain Stephen and Appoline Peters, and nephew of Rev. F. X. Gallant, of Bloomfield, P. E. Island.

At Rollo Bay East, on the 26th March, 1892, after an illness of two months, William Chaisson, aged 25. Deceased had been married but four months previously. He was a young man of good character. To his widow and parents we extend sincere sympathy. May his spirit rest in peace.

At her home, Grand River, Lot 14, March 31st, Mrs. Catharine White, wife of James Morrison, aged 44 years, leaving a large family to mourn their irreparable loss.

WELL! WELL.—Is it true boys? Call and see for yourselves. Boys' suits from age 2 to 6 selling for the small sum of 25c. They are on top of anything in this city at double the money and are on top of our counter, never was under. Don't keep our suits "under counter." Our $1 00 suits are just what we we advertise them to be; they will fit children from 4 to 10 are two-peice garments, and coat and pants, are lined. Boys, call and see this cheap lot.—James Paton & Co., Market Square. a. 3i

GRATITUDE.

DEAR DOCTOR,—Having heard that some persons are making false and injurious reports about you, I write to say that in the treatment of my wife I am quite satisfied. Other doctors said it was cancer, and incurable; you have cured her without operation or any violent or painful means. I am also thankful to be able to acknowledge publicly that you have cured my daughter, although other doctors could do nothing for her but making her worse. I also wish to say that I write this of my own free will, and not at your request; but you can make use of it in any way you think fit.

Thanking you again for what you have done, believe me, dear Sir,

Yours, very gratefully,
DANIEL REILLY.

Medical Man, Dr. T. W. N. Baker,

SAYS OF M. P. P.:

"Having occasion to test your Porter and Extract of Malt and Taraxacum, I can highly recommend it, supplying a long felt want to the medical profession, as it combines the fat producing qualities of malt with the alterative principles of taraxacum, and from its composition will easily be retained by the most delicate stomach, and consequently prove invaluable in protracted convalescence and all wasting diseases."

For Sale by all Druggists. Beware of imitations.

7,000 Miles.

IN MANY KINDS OF WATCHES the combined number of revolutions of all the wheels exceeds 180 MILLIONS each year, and their combined travel is OVER SEVEN THOUSAND MILES. Railway and other carriages are oiled after every long journey. Some Sewing Machines are oiled whenever used, other machinery often, and should not the continuously running Watch receive more attention in this matter than it does.

We advise that all Watches should be oiled and examined to see if they need cleaning at least ONCE A YEAR. By this means the liability to wear is lessened, and the Watch will last longer and give better satisfaction.

WATCHES, CLOCKS, CHRONOMETERS, BAROMETERS and MUSICAL BOXES cleaned and repaired.

E. W. TAYLOR,
