CAPT. STURDIVANT leaves this Province tomorrow, having stirred up the pure minds of men and women here to greater efforts in the temperance cause. THE authorities are raiding the Halifax rum holes and confiscating the "componds" found therein. There is lots of room for a raid of this description in Charlottetown.

A VERY LARGE number of Tea Sets are selling cheap, to make room for new lots soon to arrive, at W. P. Colwell's, sept 21-11 wky 6w. CAPT. MOORE, of No. 2 Battery Garrison Artillery, arrived home last evening, having visited Fredericton, St. John, Digby, Kentville, and other points on the mainland.

THE ten-year-old lad named McLean, who mysteriously disappeared from his home in Halifax, N. S., about a week ago has not yet turned up, and his parents are almost distracted. THE Canadian Pacific Railway, which at present reaches Chicago over the Michigan Central, is reported to be making arrangements for an independent line of its own into that city.

MR. JOHN COLWELL exhibited a basket of monster shallots at the office this forenoon. They are a splendid testimonial of Mr. Colwell's skill as a gardener. He intends preparing an exhibit for the Exhibition. ALL persons favorable to the formation of an Independent Temperance Association are requested to attend a preliminary meeting to be held at 8 o'clock this evening, in the large room over the Diamond Bookstore.

THE United States Senate committee, to investigate the fisheries question expect to leave for Canada on the 25th inst., and thoroughly examine the sources and the status of the existing trouble between the United States and Canada. They hope to report at the opening of Congress. Two men named Fritz and Ashmore were working in a trench of a new drain at Hantsport, N. S., on Friday last, when the earth gave way and buried them up to their necks. After some little time they were dug out. Fritz did not seem to be much the worse, but Ashmore was considerably bruised.

DR. McEACHRAN, chief inspector of cattle for the Dominion, has been in Halifax for several days inspecting the quarantine station at Dartmouth, and making arrangements for extending and improving the accommodation. All imports of cattle for the Dominion are now to be made at Halifax. Several shipments are now on the way. GOOD YIELD.—As the season for big egg competition is about over, it might not be out of place just now for our farmers to compare notes as to big yields from the farm. Here is a sample to begin with: A farmer at Beesque last spring sowed two bushels white oats. The yield is fifty-one bushels, making twenty-five and a half bushels to each bushel sown. Another farmer in that vicinity sowed one pound white oats, from which he had five bushels, and from one pound of black oats he had four bushels. Can anyone beat this?

SEVEN hundred and fifty-two barrels of gravestones were sent from Kentville station by the W. and A. R. during the last two days to be put aboard the Furness line steamer Romania for the English market. During the same time 20 cars, containing 4,000 barrels passed through from the west, and large numbers have also been sent from Port Williams, Wolfville, Grand Pre, etc. This shipment is largely an experiment, very little soft fruit having hitherto been shipped to the English market. The custom has been to dispose of our gravestones in New York and around the provinces, sending only the later varieties across the ocean.—Kentville Chronicle.

ENGLISHMEN, as a rule, are somewhat chary in expressing opinions concerning Canadian stock. Col. Ravenhill, of the British Commission to purchase cavalry horses for the army, is however, different from the usual Englishman in that respect. Speaking recently of horse-breeding in the Northwest he says that if breeders were to obtain the services of powerful, high bred stallions, and cross them with their choicest mares, it would be impossible to estimate the value of the animals so bred in the British markets. Dr. Jenkin's stallions Royal Harry and Young Hameltonian, at present on the Dr.'s. Ranch at Plover Creek, are pronounced by competent judges, to be well calculated in size, style, action and breeding, to produce the kind of horses described by Col. Ravenhill.

AN infant about six months old was last night, about ten o'clock, left at the door of Mrs. Thomas McGrath, Covehead Road, Lot 34. Mrs. McGrath, being a widow with a family of her own, naturally objects to assuming the charge thrust upon her by the unfeeling parent or parents of the child. We hope prompt measures will be taken to discover the heartless perpetrator or perpetrators of this crime.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain; and the little shrub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. feb 4 eod wck

A Great Land Snake. The interest in the sea serpent in the vicinity of Clinton, Mass., in the neighborhood of an enormous land snake, which is playing havoc with live stock. The most extravagant stories have been told within the past few days of the serpent's size. The length given varies from twenty-five to forty-five feet, and its circumference from that of a two gallon jug up to the size of a barrel. It is believed to be the same reptile that escaped from a travelling menagerie some four years ago and was never heard of afterward. The lost serpent was a magnificent boa, some 25 feet long. The serpent that is now causing the excitement has been seen by several people, and nightly sheep and calves disappear, it is believed, through the instrumentality of the monster. Bands of hunters are out, but are badly frightened at the prospect of meeting it. The serpent haunts swamps to the northeast of Southbridge. The loss to stock is considerable. Several towns are to hold meetings to devise some means of ridding the country of the dreaded visitor.

Trouble in Madrid.

THE SOLDIERS MUTINY.

Several Killed and Wounded.

THE INSURGENTS VANQUISHED.

Troops in Pursuit.

MADRID, Sept. 20. A revolution was attempted last evening by a number of Spanish troops quartered in this city. The uprising was ill-planned and ill-managed, and practically amounted to little more than mutiny. The trouble was inaugurated by a regiment of infantry quartered in Gíbilas Barracks. The soldiers revolted and intermingled with the men of two cavalry regiments, a number of whom joined them in the revolution. The officers of all three regiments did all in their power to dissuade the men from revolting, but three hundred soldiers, after beating and wounding a number of officers, deserted the barracks and marched through the town. The populace were taken by surprise. The insurgents attempted to secure possession of the arsenals, docks, and barracks, which they attacked with open fire, but were repulsed. Finally they reversed drawing them together the insurgents attacked and got possession of the Southern railway. By this time the loyal troops were marched to the railway, and after a short fight they completely dislodged the revolutionists who dispersed into the country. General Parvie is pursuing. During the fighting one of the officers leading the insurgents was shot and killed. The rebels shot General Vatarde for refusing to join them. Count Mirasol was also mortally wounded by the soldiers, and a colonel of the artillery was killed. When the insurgents fled from town forty of them compelled the station master to place at their disposal a special train, with which they made their flight. The troops were soon in pursuit in another train.

THE BRITISH PARLIAMENT.

An Ovation to Gladstone.

SOME EVICTION STATISTICS.

THE IRISH LAND BILL.

Synopsis of Parnell's Speech.

LONDON, Sept. 20. Mr. Gladstone attended this evening's session of the House of Commons. A crowd assembled outside and gave him an ovation. He was received with similar demonstrations by the members when he appeared on the floor of the House. Mr. Gladstone looks as if he was enjoying robust health. Sir Michael Hicks-Beach in replying to interrogatory by Mr. Parnell, said that since June 13th, 1,000 families, comprising 5,311 persons had been evicted in Ireland, and that 650 families of these had been re-admitted to their former premises as caretakers. Mr. Parnell in moving the second reading of his Land bill said that the recent elections conveyed a mandate to the House of Commons, that it should show itself willing and able to provide for the wants of Ireland equally as if it was an Irish parliament. (Cheers.) It was useless to talk about the lateness of the session. The House was only six weeks old. The majority of the new members were young, fresh and not over-worked, and they did not require a holiday. A state of urgency existed with reference to the relations between landlords and tenants in Ireland. Mr. Parnell here explained the provisions of the bill. The first clause, he said, was most important, because it dealt with a most urgent subject. It enacted that any statutory tenant whose rent was fixed prior to the last day of 1884, might apply for an abatement in accordance with the provisions of the bill. The bill was to be a temporary measure, with the exception of the second clause. It was intended to meet the depression in prices, but he could not tell now whether the depression was likely to continue.

THE "ADAMS CASE."

Expelling the Reporters.

A "COLD DAY" FOR MEACHER.

CAPT. KINNEY'S DENIAL.

HALIFAX, Sept. 20. The Adams case was resumed this afternoon. Mr. W. R. Dunn, of the Chronicle, was the only reporter present. Mr. Meagher demanded his (Dunn's) exclusion, and read from "Roscoe's Admiralty Practice" in support of his contention. Mr. Dunn said that he would only withdraw when compelled to do so. The Commissioner then said that Roscoe was good enough authority for him, and sent for the Sheriff to take the reporter away. It was then discovered that the Sheriff was a Supreme Court officer only, and that he had no authority in the Admiralty. The Commissioner consequently revoked his order and sent for the reporter. A number of other newspaper men then arrived, but the Commissioner refused to expel them. Mr. Meagher has filed an affidavit in which he gives grounds for an order which he will move to-day, to have the captain and crew of the Adams examined in Boston. Capt. Kinney denies that he purchased the ice, but the Crown witnesses all say that he did, and as Kinney and his crew are absent, no rebuttal testimony can be offered unless the commission is granted.
