

If there is a history of weak lungs in your family, take Scott's Emulsion. It nourishes and invigorates.

It enables you to resist the disease. Even if your lungs are already affected, and if besides the cough you have fever and emaciation, there is still a strong probability of a cure.

The oil in the Emulsion feeds; the hypophosphites give power to the nerves; and the glycerine soothes and heals.

## The Transvaal War

### HOW THE TRANSVAAL WAS ANNEXED.

A Romance of the Empire. How an Englishman allowed an Englishman to Claim the Territory to Save Them—selves from Destruction.

The story of how the Transvaal was annexed to the British empire twenty years ago is particularly interesting just now, and it is curious, in the light of later events, to read how what is now the South African republic was for four short years under the Union Jack. It is one of the romances of the empire.

We owe the story to Cetewayo. But for the Zulu king the Union Jack would never have waved over the Boer country. The Boers, who are human enough at any rate to hate rates and taxes, had brought the country to the verge of bankruptcy. Its exchequer was empty; its army was all but useless; the natives were rising in revolt and the country was threatened with a Zulu invasion. Cetewayo was in the height of his power—the British arms had not yet scattered his forces. The king complained that the Boers were constantly encroaching on his frontier, and he gathered his men together to make the great fight—to wipe the Boers out of existence. Had the fight been fought, there can be no doubt of what would have happened. The Boers would have ceased to be. The Zulus were immensely superior in strength and numbers, and had Cetewayo been left free to carry out his plans, there would probably have been no Transvaal question to-day.

But he was not free. Sir Theophilus Shepstone, who had made himself feared by the Zulus, came to the rescue of the Boers. He planted the Union Jack in the Transvaal, and declared it part and parcel of the Queen's empire. Nothing could have been more simple. The Boers feared the Zulus, the Zulus feared the white men, and the moment when Cetewayo was gathering his force to smash the Boers, the Englishman stepped in and claimed the country. There was no opposition, everybody was devoutly thankful, and the Queen's dominions were extended by 112,000 square miles and nearly 600,000 subjects.

No country was ever won so easily. Cetewayo wrote a letter of thanks to the peacemaker: "I thank my father Sompson for his message," he said. "I am glad that he has sent it, because the Dutch have tired me out, and I intended to fight them once, and once only, and to drive them over the Vaal. You see my impas are gathered. It was to fight the Dutch I called them together; now I will send them back to their homes. The Boers were constantly moving their frontiers further into my country. I had, therefore, determined to end it once for all." As it was, the Boers were saved.

Years before, Shepstone had found himself alone amidst 3,000 Zulu warriors, brandishing their assegais, and howling for his blood. For two hours he stood thus, expecting to receive his death blow. Then, as calm as if he had been in England, he rose and spoke to the Zulu army; "I know that you mean to kill me. It is an easy thing to do; but I tell you Zulus that for every drop of blood that falls to the ground a hundred men will come out of the sea from the country of which Natal is one of cattle kraals, and will avenge me bitterly."

"As he spoke," says Rider Haggard, who describes the scene, "he turned and pointed toward the ocean. Every

man of the great multitude turned and stared towards the horizon as though they expected to see the long lines of the avengers creeping across the plain. That speech, spoken with the calmness of a brave man who fears nothing, saved the Englishman's life, and established his ascendancy. From that day his power was unquestioned, and his influence with Cetewayo was supreme. It was the knowledge of this that induced Shepstone to step in when Cetewayo was threatening the Boers. Had he been merely anxious to extend British territory, he would have stood by while the war was waged and occupied the country after Cetewayo had cleared. But Shepstone was not an imperialist at that price, and his desire was not so much to make the Transvaal British territory as to save the blood which must have been shed if he had stood aside.

As it was, the Transvaal was annexed peacefully, and at a cost of less than £10,000. The cost of the land worked out at something like 1s. 10d. per square mile, and the Queen gained nearly 800,000 new subjects at a cost of nearly three pence a head.

Paul Kruger at that time was, perhaps, the most striking figure among the subject people, and he was one of three Boer delegates who came to England to petition the Queen to set the country free again. The mission failed, however, and Kruger returned to the Transvaal to take office as a British official—a post which he held for a few months, when he was dismissed under curious and somewhat discreditable circumstances.

It has been said that if the British government had increased his wages Kruger might still have been a humble British official, but that can never be more than mere conjecture. What is certain is that the next few years were years of discontent in the Transvaal, and a movement for demanding the restoration of the independence grew in favor. Taking advantage of our small garrison, the Boers planted the flag of independence, the Transvaal war begun, and the result all the world knows.

## A WRONG IDEA OF... DYSPEPSIA

Throws all the Blame on the Stomach—The Real Seat of Trouble is the Intestines—The Permanent Cure is Dr. Chase's Kidney-Liver Pills.

It is an old idea long since exploded that digestion is confined to the stomach. No modern scientist denies that by far the greater part of digestion and the more difficult part takes place in the intestines. This explains why dyspepsia is never really cured by preparations which merely aid stomach digestion and act only on the stomach.

This fact also explains why Dr. Chase's Kidney-Liver Pills have been so remarkably successful as a cure for the worst forms of dyspepsia and indigestion.

Dr. Chase's Kidney-Liver Pills act directly on the kidneys, liver and bowels, and give new tone and vigor to the intestines, and make them able to perform their work of digesting the substances on which the stomach has no effect.

Stomach treatment may do well enough for slight indigestion, but if you have chronic indigestion or dyspepsia of a serious nature you can profit by the experience of scores of thousands who have been permanently cured by using Dr. Chase's Kidney-Liver Pills. One pill a dose, 25c. a box, at all dealers, or Edmansons, Bath & Co., Toronto.

### AMBITIOUS CITY AGAIN.

Mr. Harry Bawden, of Hamilton, Ont Cured of Lumbago by Dodd's Kidney Pills

Hamilton, Oct. 16.—Mr. Harry Bawden of this city corroborates the report printed recently relating to his cure of Lumbago by Dodd's Kidney Pills.

"For six years," he says, "I suffered with Lumbago and Kidney Disease. I tried everything under the sun, but absolutely nothing I ever took gave me the slightest relief. A friend advised me about one year ago to try Dodd's Kidney Pills. I finally decided to do so, and purchased one box and found relief. I used in all five boxes and am completely cured.

The case has created quite a stir and there are found, too many warm, endorsements of Dodd's Kidney Pills in this city. Little faith is put in the many imitations on the market, the verdict being that the original is the best.
